Global Shift Edmund J. Bourne,2009-01-02 A remarkable change is taking place that will profoundly influence the way we see ourselves and our world The dominant materialistic separatist worldview a perspective that leads individuals to value their own needs over the good of the whole is giving way to a humanitarian spiritual orientation This shift will revolutionize both the way humanity interacts on a global scale and how we live on a day to day basis Global Shift co published with the Institute of Noetic Sciences IONS explores the roots of such current planetary crises as climate change diminishing resources poverty and disease and explains how a new convergence of scientific research and spiritual insight is propelling us toward a more enlightened future It also presents a call to actions we can implement now such as voluntary simplicity nonviolent communication caring for our bodies and inclusive global thinking that can foster personal healing and bring our lives into alignment with the needs of the planet and a conscious universe

Something to Believe In Rupesh Shah,David Murphy,Malcolm McIntosh,2017-09-29 In a world where trust in politicians corporations and the processes that determine our lives continues to dwindle this innovative book brings together research case studies and stories that begin to answer a central question for society How we can create organisations institutions groups and societies that can nurture trusting relationships with one another and among individuals Something to Believe In provides a fresh take on the corporate responsibility debate based as it is on the work of key global thinkers on corporate social responsibility along with a raft of work developed from collaborations between the New Academy of Business and the United Nations Volunteers UK Department for International Development and TERI Europe in countries such as Brazil Nicaragua Ghana India Sri Lanka Bangladesh Lebanon Nigeria the Philippines and South Africa The focus is on business and particularly how deeper more systemic changes to current ways of understanding and undertaking business can and have been enacted in both developed countries and in nations where the Western concept of CSR means nothing The market based model of economic thinking the increasingly distrusted globalisation project which threatens to sweep all before it is challenged by many of the contributions to this book The book tells stories such as the mobilization of civil society in Ghana to bring business to account the reorientation of a business school to focus on values the life cycle of ethical chocolate the accountability of the diamond business in a war zone the need to reinvent codes of conduct for women workers in the plantations and factories of Nicaragua a Philippine initiative to economically empower former Moslem liberation fighters and the development of local governance practices in a South African eco village The book is split into four sections Through Some Looking Glasses contains short thought provoking pieces about the issues of trust belief and change from writers including Thabo Mbeki Malcolm McIntosh and a reprinted piece from E M Forster Section Two asks how it will be possible to believe in our corporations and provides new approaches from around the world on how space is being opened up to found businesses that are able to create trust Section Three examines the role of auditing in

fostering trust Corporations continue to attempt to engender trust through their activities in philanthropy reporting and voluntary programmes But post Enron et al even the most highly praised corporate mission statements are tarnished Can social and environmental audits of corporate reports codes and practices assuage our doubts about boardroom democracy Section Four examines alternative forms of accountability transparency and governance from around the world and offers some different ways of thinking about the practice of creating trust in society Something to Believe In provides a host of fascinating suggestions about redefining and renewing the underlying deal between society and its organizations It will become a key text for students thinkers and practitioners in the field of corporate responsibility Spirituality, Corporate Culture, and American Business James Dennis LoRusso, 2017-02-09 By the early twenty first century Americans had embraced a holistic vision of work that one's job should be imbued with meaning and purpose that business should serve not only stockholders but also the common good and that for many should attend to the spiritual health of individuals and society alike While many voices celebrate efforts to introduce spirituality in the workplace as a recent innovation that holds the potential to positively transform business and the American workplace James Dennis LoRusso argues that workplace spirituality is in fact more closely aligned with neoliberal ideologies that serve the interests of private wealth and undermine the power of working people LoRusso traces how this new moral language of business emerged as part of the larger shift away from the post New Deal welfare state towards today's global market oriented social order Building on other studies that emphasize the link between American religious conservatism and the rise of global capitalism LoRusso shows how progressive spirituality remains a vital part of this story as well Drawing on cultural history as well as case studies from New York City and San Francisco of businesses and leading advocates of workplace spirituality this book argues that religion reveals much about work corporate culture and business in contemporary America **Sustainable Frontiers** Wayne Visser, 2017-09-08 Sustainable Frontiers throws down the gauntlet to business to step up and be the catalyst for a sustainable future It presents eight keys to unlocking transformational change through leadership enterprise innovation transparency engagement responsibility integration and future fitness Far from being another tame review of corporate social responsibility and sustainable business initiatives the book dispels the myths of sustainability and challenges us to let go of old systems that are failing to deliver economic social and environmental transformation Sustainable Frontiers gets to the heart of why the sustainability and CSR movements have failed in the past and offers a new view of how sustainable business practices can shape shift to make a genuine difference inside and outside organisations The book gathers together experiences from across the globe and shows to the reader what can be achieved with the right vision and leadership Expect to be challenged engaged and inspired to join the revolution on the sustainable frontier Making a successful transition to a more sustainable future depends on letting go Sustainable Frontiers shows how we must find ways to let go of an industrial system that has served us well but is no longer fit for purpose How we will need to let go of old styles of leadership and out

dated models of business high impact lifestyles and selfish values How we must learn to let go of cherished ideologies that are causing destruction and beliefs about ways to tackle problems that are failing to resolve crises If we are to reach sustainable frontiers it must begin with changing our collective minds and only then will we change our collective behaviour How we accomplish such a global mind shift is the subject of Sustainable Frontiers And it starts by admitting that those of us at the vanguard of the sustainability revolution also have to change We will also have to let go of cherished beliefs and strategies that are not working starting with the way we communicate our vital life saving mission

Soul Theft Bill Missett, 2008-10-22 DO NOT BUY THIS BOOK IF YOU OWN THE Trilogy or ATS Book 2 its primary source This the fifth book in the Awakening The Soul series is the story of the discovery of the suppression of almost all the traits of our spiritual nature by those who should have been protecting and enhancing them By the time you get to the end of this book you will understand what Western Religions have done to the world This realization grew to the point where it became obvious this most vital information needed a wider more immediate audience for greater exposure than just to those actively seeking spiritual awakening These historically documented truths many presented here for the first time are something every contemporary Christian Jew and Muslim should know

Spirituality, Organization and Neoliberalism Emma Bell, Sorin Gog, Anca Simionca, Scott Taylor, 2020-07-31 This book brings together analyses from across the social sciences to develop an interdisciplinary approach to understanding spiritualities and neoliberalism It traces the lived experience of social actors as they engage with new and alternative spiritualities in neoliberal contexts The purpose of the book is to provide specific insights into how neo liberalism is resisted contested or reproduced through a transformative ethic of spiritual self realization
