Global Order And Global Disorder Globalization And The Nation State:

Global Order and Global Disorder Keith Suter, 2003-05-30 Is the world entering a period of breakdown or breakthrough As Suter makes clear globalization is reducing the role of national governments but it is not yet clear what will follow the current world order He explains the process of globalization and uses the technique of scenario planning to examine alternative forms of global order and disorder The current world order is ending The old order has been based on nation states or countries with centralized national governments As Keith Suter makes clear the process of globalization which is now the most important factor in world politics is undermining that world order and leading to world disorder Globalization is the process of the erosion of the nation state as the basic unit of world politics the declining power of national governments and the reduced significance of national boundaries Global change is running ahead of governments abilities to manage it Economics is only a part of that process Suter also deals with other vital concerns war crime environment and health Therefore while Suter examines the growth and impact of transnational corporations he also takes in many other matters that comprise globalization The process of globalization is not reversible Therefore there has to be a search for a new order rather than vain efforts to patch up the system of the nation states Suter concludes by exploring alternatives to the current world order using the technique of scenario planning A provocative analysis that will be of interest to scholars students researchers and the general public concerned with international relations law and economic issues

Multiculturalism and Religious Identity Sonia Sikka, Lori G. Beaman, 2014-06-01 How and to what extent can religion be included within commitments to multiculturalism Multiculturalism and Religious Identity addresses this question by examining the political recognition and management of religious identity in Canada and India In multicultural policy practice and literature religion has until recently not been included within broader discussions of multiculturalism perhaps due to worries of potential for conflict with secularism This collection undertakes a contemporary analysis of how the Canadian and Indian states each approach religious diversity through social and political policies as well as how religion and secularism meet both philosophically and politically in contested public space Although Canada and India have differing political and religious histories leading to different articulations of multiculturalism religious diversity and secularism both countries share a commitment to ensuring fair treatment for the different religious communities they include Combining broader theoretical and normative reflections with close case studies Multiculturalism and Religious Identity leads the way to addressing these timely issues in the Canadian and Indian contexts

Overlapping Regional Orders in the Middle East and North Africa Jordi Quero, 2023-11-24 Focused on a set of overlapping international orders of regional scope present in the Middle East and North Africa this book argues that rules and primary institutions have sanctioned the foreign behavior of the sub system s international actors since 1945 The author avoids recent IR trends focused on narrow case studies instead providing a comprehensive overview of the MENA s regional politics The normative content and evolution of multiple

international orders are examined constituting the intra Arab order the Arab Israeli order and the Arab Iranian order as well as the expression of the global order in regional interactions Drawing on Area Studies and English School and constructivist IR theories the author argues that a plurality of overlapping regional orders have coexisted since 1945 not just one as is commonly suggested in the literature Each of these orders is integrated by different participants and has developed its own differentiated norms and institutions setting parameters on legitimate behavior This analytical proposal helps make sense of foreign relations otherwise labeled as incoherent The book has wide appeal accessible both to students wishing to learn about the politics history and sociology of the Middle East as well as to specialists seeking original research on the functioning of the MENA s regional orders **Reflections on Global Law** Shavana Musa,Eefje de Volder,2013-11-21

Reflections on Global Law provides an interesting and vital look into the newly emerging field of global law It allows the possibility for readers to discover global law from the perspective of various academic experts who stem from a whole range of different legal disciplines In a globalised world it is important that one is able to look beyond the local given that there are now a whole host of different types of jurisdictions at work This book touches upon the interdisciplinary character and complexities of global law and demonstrates the further need within academia to delve into this newly emerging field of law

Globalization of Capital and the Nation-state Berch Berberoglu,2003 As transnational capital has become a mighty force controlling the economies of advanced and less developed capitalist countries around the world capitalism and capitalist relations of production have spread to and dominated societies and social relations in remote parts of the globe The resulting globalization of capital has given a free reign to the transnationals to impose on society capitalist practices on a global scale such that only the biggest and most powerful capitalist monopolies have become the real beneficiaries

Digital Platforms and Global Law Bassan, Fabio,2021-11-17 Digital Platforms and Global Law focuses on digital platforms and identifies their relevant legal profiles in terms of transnational and international law It qualifies digital platforms as private legal orders which exercise the legislative executive and para jurisdictional power within them Starting from this assumption the author studies the relationship between these orders and state transnational and international orders and concludes that the power of states to impose rules on platforms is different in terms of their external in relation to other platforms and states and internal in their own legal system action Imagined Identities Gönül Pultar,2014-04-14

How are identities being forged during the age of globalization This collection of essays by scholars from various disciplines and regions of the world discusses both the construction and deconstruction of identity in its engagement with culture ethnicity and nationhood The authors explore the tension resulting from the desire to create a new cultural space for identities that are at once national regional linguistic and religious Among the wide ranging approaches Tanja Stampfl looks at the elusiveness of cultural identity in Khaled Hosseini s The Kite Runner Dawn Morais investigates issues of ethnicity and nationality in Malaysia s tourism advertising and Cathy Waegner explores ethnic identities as globalized market commodities

Throughout the volume identity is approached from a variety of sites fiction news analysis film theme parks and field work to contribute new insight and perspective to the well worn debate over what identity signifies in societies where the existence of minorities both indigenous and immigrant challenges the dominant group

Communicating Terror Joseph S. Tuman, 2010 Concise yet comprehensive this up to date text examines how acts of terrorism create rhetorical acts What messages persuasive meanings symbols do acts of terrorism generate and communicate to the world at large These rhetorical components include definitions and labels symbolism in terrorism public oratory about terrorism and the relationship between terror and media This unique communication perspective vs political science/criminal justice approach shows how the rhetoric of terrorism is truly a war of words symbols and meanings

From World Order to Global Disorder Dorval Brunelle, 2011-11-01 Anti globalization activism world wide attests to the tensions between globalization and civil society To better understand this fraught relationship Dorval Brunelle compares two social orders separated by a half century The post World War II order entailed a broad vision uniting three complementary objectives security justice and welfare which were entrusted to a network of international and national institutions In contrast globalization with wealth as its only objective is undermining and overhauling the values and institutions of the previous order including the United Nations and the welfare state From World Order to Global Disorder demonstrates the profound effect of globalization on relations between the state civil society and markets as well as on collective and individual rights As neo liberalism evolves into globalization governments are eschewing their role as public guardians and are instead bartering the very assets and resources their citizens labour and activism created and preserved However no constitution makes governments owners of collective assets governments are merely trustees In this context the world's citizens have a tremendous task before them in the wake of the welfare state their social forums are indispensable in the quest for a more just and equitable world

The Collapse of Globalism Revised Edition John Ralston Saul, 2009-09-22 In 1999 John Ralston Saul began predicting that globalism would collapse In 2005 he laid out this scenario in The Collapse of Globalism and the Reinvention of the World Now he has enlarged the book showing how today's crisis came about and suggesting what to do next In this new edition Saul describes the current financial crisis as a mere boil to be lanced The far more serious problem is that the West driven by most of its economists managers consultants and columnists remains stuck on outdated ideas of growth wealth creation and trade expansion They are still trying to limit the debate to a narrow choice between protectionism and free trade and are concentrated on old fashioned stimulation Public policy has been dominated by the people who created this crisis Saul envisions a new sort of wealth creation and growth and in place of reaction advocates new forms of action

Power in the Global Age Ulrich Beck, 2005 One of Europe's leading social thinkers throws light on the global power games being played out between global business nation states and movements rooted in civil society Ulrich Beck offers an account of the changing nature of power in the global age and assesses the influence of the counter powers

The 'Postmodern Turn' in

the Social Sciences Simon Susen, 2015-07-23 Simon Susen examines the impact of the postmodern turn on the contemporary social sciences. On the basis of an innovative five dimensional approach this study provides a systematic comprehensive and critical account of the legacy of the postmodern turn notably in terms of its continuing relevance in the twenty first century.

New Zealand in a Globalising World Ralph Pettman, 2005 In 2003 Victoria University hosted the Fourth Wellington Conference on World Affairs. This book is a collection of papers from that gathering. The theme was New Zealand in World Affairs and focused on three major threads: New Zealand's role in the Pacific, Trans Tasman relations and New Zealand in a globalising world. Chapters include a discussion and deconstruction of globalization, the role of diplomacy in a global world, security in Oceania in the post 9/11 era, a survey of diplomacy politics with regard to nuclear testing by the French and an investigation of the differing world views held by Australia and New Zealand.

Spaces of Globalization Kevin R. Cox, 1997-03-29 Discusses the economics and politics of globalization examining the relationship between the global and the local.

Citizenship in a Global Age Gerard Delanty, 2000-12-16 What is citizenship? Is global citizenship possible? Can cosmopolitanism provide an alternative to globalization? *Citizenship in a Global Age* provides a comprehensive and concise overview of the main debates on citizenship.

and the implications of globalization It argues that citizenship is no longer defined by nationality and the nation state but has become de territorialized and fragmented into the separate discourses of rights participation responsibility and identity Gerard Delanty claims that cosmopolitanism is increasingly becoming a significant force in the global world due to new expressions of cultural identity civic ties human rights technological innovations ecological sustainability and political mobilization Citizenship is no longer exclusively about the struggle for social equality but has become a major site of battles over cultural identity and demands for the recognition of group difference Delanty argues that globalization both threatens and supports cosmopolitan citizenship Critical of the prospects for a global civil society he defends the alternative idea of a more limited cosmopolitan public sphere as a basis for new kinds of citizenship that have emerged in a global age

Speaking the Nation Anandita Bajpai, 2018-07-04 Untangling the logical lexical and semantic patterns of the multiple official speeches of Indian prime ministers Speaking the Nation gauges how the Indian state has been projected by different governments in different times in the face of challenges from internal and external actors that put pressure on its leaders to safeguard their status as legitimate elites in power It analyses how Indian nationhood is consistently reshaped and reaffirmed by invoking its secular ethos and practice as well as the experience of market liberalization The book calls for serious engagement with political oratory in India A close reading of speeches since 1991 from Narasimha Rao to Narendra Modi it captures how through these crosscutting topics the prominent authors of the nation and the vanguards of the state speak India into being The Oxford Handbook of Geoeconomics and Economic Statecraft Vinod K. Aggarwal, Tai Ming Cheung, 2025 The Oxford Handbook of Geoeconomics and Economic Statecraft is a comprehensive critical and contemporary exploration of issues at the intersection of political economy and security studies Long considered separate branches of political science economics and security have become increasingly intertwined The volume examines the state of the field where it has been in the recent past and where it is likely to go in future Contributors examine conceptual edges of geoeconomics and economic statecraft as well as its core the globalizing context of the field and the challenges posed by social economic and technological changes The twenty eight chapters in the volume are divided into six parts After the introduction to the volume section 2 considers past and present thinking about the field Section 3 explores the methods used in geoeconomics and economic statecraft Section 4 looks at key issues Section 5 covers the intersection of national security and geoeconomics and the last section looks at regional perspectives in the field Geoeconomics and economic statecraft are issues of contemporary concern and on the front pages of newspapers on an almost daily basis This book provides the intellectual context and insights to understand the challenges and prospects that the world faces currently and over the long term making it a useful resource for academics practitioners business executives journalists and students Juridical Perspectives between Islam and the West Federico Lorenzo Ramaioli, 2024-01-01 This comparative philosophy of law book aims at formulating a new analytical approach to the Islamic legal tradition based on juridical categories a concept that

facilitates comprehension and understanding of juridical phenomena Building upon legal comparativism and legal pluralism this project intends to avoid bias caused by universalizing Western categories when analyzing foreign juridical notions which inevitably results in the miscomprehension of non Western ideas and institutions Unlike existing literature this project will not focus on substantive comparisons between normative contents but on the juridical perspectives that helped to shape the Islamic and Western legal orders The book focuses on the most relevant juridical questions regarding the Islamic and Western legal perspectives such as the different visions regarding juridical spatiality the role of human reason and the relationship between law man and the divinity While contributing to legal philosophy this work intends also to develop and define a new interdisciplinary approach aiming to provide a starting point for novel analyses in research fields such as legal comparativism legal pluralism and constitutional law Finally by formulating a new interdisciplinary approach it will provide a foundational discussion of a continuously evolving subject that will never be exhaustively explored As such it aims at broadening scholarly reflections on the relationship between the West and Islam eventually placing these concepts within a suitably comprehensive and contextualized framework Published in cooperation with gLAWcal Global Law Initiatives for Sustainable Development Hornchurch Essex United Kingdom *International Law and Global Governance* Michelle Sanson,2008
