looks to fill the blue hole in Global History by studying the role of the oceans themselves in the creation development

knowledge served to reinforce one another and demonstrates how and why maritime history should be put firmly at the heart
of global history Exploring the dynamics of globalisation knowledge making and European expansion Global Ocean of
Knowledge takes a transnational approach and transgresses the traditional border between the early modern and modern
periods It focuses on three main periodisations which correspond with major transformations in the globalisation of the
Atlantic World and analyses how and to what extent globalisation forces from above and from below influenced the
development and exchange of knowledge Davids distinguishes three forms of globalising forces from above imperial
commercial and religious alongside self organisation the globalising force from below Exploring how globalisation advanced
and its relationship with knowledge changed over time this book bridges global maritime intellectual and economic history to
reflect on the role of the oceans in making the world a more connected place **OCEAN OF STORIES DR ARUN**

Connecting with the Arcturians 5 David K. Miller, Is Earth's crisis part of a cosmic drama The Arcturians address this question and provide a new galactic perspective Other planets they have visited have also gone through the type of crisis we are now experiencing Further the same kinds of polarizations and conflicts have occurred in the developmental cycles of other planets throughout the galaxy Human evolutionary change includes understanding that we are biomagnetic beings of light who possess subtle energetic bodies that interact with galactic forces Along with other tools found in this fifth volume the Arcturians offer a subtle body exercise called shimmering that helps us raise our spiritual vibration It can even be used to protect us and our auras from the coronavirus The evolutionary changes necessary for solving this crisis must be addressed both personally and planetarily This book offers a wide range of techniques interventions and explanations to help make sense of the current planetary crisis It addresses the issue of how the reader as a starseed can contribute to solving planetary imbalance

Connecting with the Arcturians 2 David K. Miller, 2016-12-19 This follow up to Connecting with the Arcturians contains the latest channeled teachings from Julian the Arcturians and two Andromedan spirit guides Heylang and Gurhan It covers topics such as embracing galactic spirituality and planetary evolution Arcturian thoughts from a fifth dimensional perspective the aura enhancing technique known as shimmering unity consciousness and much more Julian's teachings focus on personal and planetary healing and ascension and this volume presents the most up to date information on ascension that is available including new spiritual technologies to aid the process Gain full understanding of the planetary healing spiritual technology known as Biorelativity and begin working with new quantum and global healing techniques and cosmic consciousness

Connecting with the Arcturians 4 David K. Miller, During this time of planetary crisis the Arcturians explore how we starseeds can cope with these dramatic changes such as updating our immune systems and dealing with electromagnetic energies and energy fields They offer recommendations and ideas for helping us cope with these overwhelming planetary changes This book explores the important subject of ascension and the work leading to ascension The Arcturians present a model based on their observations that precipitating events of ascension occur when the third dimension and fifth dimension intersect At the time of that intersection a powerful spiritual energy will download into Earth's energy field that can uplift those who are at the highest vibrations and prepared for ascension Another concept introduced in this volume is the idea of holographic healing In holography a piece of an object can represent the whole In this Arcturian theory a person on Earth is only a part of their whole self Other parts can include the past self which is the self in

other lifetimes and the future self which is the self that will live and evolve in future times There is also a multidimensional self that exists on this and other dimensions *Connecting with the Arcturians 3* David K. Miller, 2018-12-20 The themes of this book focus on the evolution of humanity the next stage of our planetary development the planetary crisis in general and how we as spiritual lightworkers and starseeds can prepare for our future and for the ascension We look at the relationships between such complex subjects as quantum physics and spirituality and New Age physics to learn how that relates to the higher dimensions and healing techniques that use new terminology such as quantum healing and omega light The Arcturians gladly integrate physics with spirituality Ascension is the transmutation of the physical body into the fifth dimension completing Earth's incarnational cycles They report that the ascension is open to all seekers of higher spiritual truth especially those who are open to cosmic spirituality There is also an extensive glossary to help the reader Overall their messages are hopeful helpful and healing The healings provided through their thinking are relevant personally and planetarily

Miller, 2015-07-01 Now more than ever humankind is in need of developing its higher consciousness to heal itself and Earth and to experience life in a much more meaningful way By expanding our consciousness we can see the connections and unity that exist in all reality and we might see objects with sharper colors hear sounds with greater clarity or even experience two sensations simultaneously In this book you will explore the fascinating multidimensionality that is yours for the taking You might think that the mind is in the cells but in reality the mind also exists as an energy field located in the aura meaning the mind exists in a realm that in part is in the third dimension but also exists in other dimensions as well The mind is naturally multidimensional Vywamus Chapters Include The Laws of Consciousness The Next Step for Humanity Thought Fields Superintelligence A New Consciousness Quantum Cohesiveness Unified Consciousness and Earth's Noosphere The Intersection of the Dimensions Folding the Space Time Continuum And much much more
