Globalisation Global Justice And Social Work:

Globalisation, Global Justice and Social Work Iain Ferguson, Michael Lavalette, Elisabeth Whitmore, 2005-08-15

Globalization has become a seemingly unstoppable force over recent decades and in its wake global notions of social justice have developed in response to its negative aspects. Neo liberal economic policies have been a key element in the wider process of globalization and these policies have had a profound impact on welfare provision and the shape of social work practice. Arising dissatisfaction among users of welfare and social work services is fuelling the search for a new more radical social work that is firmly rooted in principles of social justice. *Globalisation Global Justice and Social Work* explores the global effects of neo liberal policies on welfare services in different countries with contributions from social work academics, practitioners and welfare activists around the world. The first section of the book presents case studies of impact of neo liberalism on welfare systems, social service provision and the practice of social work. In the second section the chapters explore the relationship between social work practice and the struggle for social justice. Authors discuss the personal and political dilemmas they have had to address in seeking to link a personal commitment to social justice with their daily practice as workers and educators in social work. The final section assesses the prospects for social work practice based on notions of social justice by looking at what can be learned from the experience of previous radical movements as well as from emergent global and local movements.
