## **Globalization And Belonging The Politics Of Identity In A Changing World:**

**Globalization and Belonging** Sheila L. Croucher, 2004 This is a book that will get us all thinking about the implications of identities in rapidly evolving international and country by country politics *Globalization and Belonging* Sheila Croucher, 2018-07-12 In the decades since the September 11 2001 terrorist attacks on the United States forces of cultural economic and political integration appear locked in battle with equally powerful forces of fragmentation Globalization is facilitating unprecedented movement of goods services people and ideas while calls for building walls erecting fences and strengthening borders intensify Tensions flare around claims of deeply rooted ethnic and civilizational identities identities that are shaped and mobilized via sophisticated advances in technology Women worldwide are achieving remarkable economic and political gains while sexual violence and gender inequalities persist and are fueled by rapid global change This book explores the complex inter relationship between globalization and belonging In a hyper modern 21st century world questions and conflicts surrounding who we are and who we want to be predominate This book links the politics of different forms of identification and attachment to the dynamics of an increasingly interconnected world **Globalization and Belonging** Sheila L. Croucher, 2018 This book examines how globalization shapes the construction of socio cultural and political attachments and their implications for citizenship nationhood ethnicity and gender Topics include the commodification of citizenship the spread of nationalist populism the rise of ISIS and women s transnational activism **The Information Revolution and World Politics** Elizabeth C. Hanson, 2008-01-28 This readable and cogent book provides a much needed overview of the information revolution in a global context First tracing the historical evolution of communications since the development of the printing press Elizabeth C Hanson then explores the profound ways that new information and communication technologies are transforming international relations More people have access to more diverse sources of information than ever before as well as a greater capacity to influence national and international agendas More transcontinental channels of contact are available to more people in the world at far less cost than ever before in history Hanson illustrates how these dramatic changes have raised a set of key questions What is the impact of the information revolution on diplomacy foreign policymaking and the conduct of war How are these new technologies affecting the structure of the global economy and the distribution of the world s wealth How and to what extent are they affecting the nation state its centrality in the international system its sovereignty and its relationship to its citizens In answering these questions Hanson considers the controversies over the present and future impact of a radically new information and communications environment as part of larger debates over globalization and the role of technology in historical change Her carefully chosen case studies and judicious use of relevant research provide a firm basis for readers to evaluate competing arguments on this contentious issue *The Situated Politics of Belonging* Nira Yuval-Davis, Kalpana Kannabiran, Ulrike Vieten, 2006-06-27 This collection of essays examines the racialized and gendered effects of contemporary politics of

belonging issues which lie at the heart of contemporary political and social lives It encompasses critical questions of identity and citizenship inclusion and exclusion emotional attachments violent conflicts and local global relationships The range geographically thematically and theoretically covered by the chapters reflects current concerns in the world today A timely contribution to the ongoing debates in the field it will be a valuable companion to scholars working in the areas of multiculturalism globalisation and culture race and ethnic studies gender studies and studies of post partition societies

**Globalization and Change** Berch Berberoglu, 2005-01-01 Globalization and Change The Transformation of Global Capitalism explores the capitalist implications of globalization from a critical and historical perspective By looking at the contradictions inherent in globalization this book provides a thorough understanding of the labor issues behind and fight against the capitalist global economy

*Ethnopolitics in Cyberspace* Robert A. Saunders, 2011-01-01 Defying predictions that the Internet would eventually create a world where nations disappeared in favor of a unified global village the new millennium has instead seen a proliferation of nationalism on the Web Cyberspace a vast digital terrain built upon interwoven congeries of data and sustained through countless public private communication networks has even begun to alter the very fabric of national identity This is particularly true among stateless nations diasporic groups and national minorities which have fashioned the Internet into a shield against the assimilating efforts of their countries of residence As a deterritorialized medium that allows both selective consumption and inexpensive production of news and information the Internet has endowed a new generation of technology savvy elites with a level of influence that would have been impossible to obtain a decade ago Challenged nations from Assyrians to Zapotecs have used the Web to rewrite history engage in political activism and reinvigorate moribund languages This book explores the role of the Internet in shaping ethnopolitics and sustaining national identity among four different national groups Albanians outside of Albania Russians in the near abroad Roma Gypsies and European Muslims Accompanying these case studies are briefer discussions of dozens of other online national movements as well as the ramifications of Internet nationalism for offline domestic and global politics The author discusses how the Internet provides new tools for maintaining national identity and improves older techniques of nationalist resistance for minorities Bringing together research and methodologies from a range of fields Saunders fills a gap in the social science literature on the Internet's central role in influencing nationalism in the twenty first century By creating new spaces for political discourse alternative avenues for cultural production and novel means of social organization the Web is remaking what it means to be part of nation This insightful study provides a glimpse of this exciting and sometimes disturbing new landscape

[Palestinians in Jordan](#) Luisa Gandolfo, 2012-10-23 60 per cent of Jordanians are of Palestinian origin a statistic which has propelled Jordan into the role of both player and pawn in regional issues such as the birth of the state of Israel the prolonged Israel Palestine conflict the ascent and decline of Arab nationalism and the subsequent rise of political Islam and radicalism Exploring Jordan's diverse Palestinian communities Luisa Gandolfo illustrates how the Palestinian majority has

been subject to discrimination all the while also playing a defining role in shaping Jordanian politics legal frameworks and national identity The conflicts of 1948 and 1967 the civil unrest following Black September in 1972 and the uprisings of 1988 and 2000 have all contributed to a fractious Jordanian Palestinian relationship In *Palestinians in Jordan* Gandolfo examines the history of this relationship looking at the socio political circumstances the economic and domestic policies the legal status of Palestinians in Jordan and the security dimension of Jordan s role in the region She argues that policies put in place over the last century have created a society that is marked by high levels of inter faith cohesion as evidenced by the success and integration of minority Christian communities She goes on to suggest that society divides along lines of ethnic and nationalist loyalty between Jordanians and Palestinians while domestic politics become increasingly fractious with the growth of Islamist groups that have gained grassroots appeal especially in the refugee camps Palestinians in Jordan looks through the kaleidoscope of Palestinian Jordanian identities that accommodate a complex and overlapping web of different religious affiliations mixed socio economic conditions and the experience of exile reconciled with daily life in Jordan At the same time identities of these communities continue to be rooted in an attachment to the concept of Palestine and the unifying force of the struggle against Zionism These layers have made the versatile and fluid nature of identities essential affording a fascinating study in inter communal dynamics and nationalism It is this which makes Palestinians in Jordan an important resource for those researching the Israel Palestine conflict as well as for students of the Middle East Politics Anthropology and Gender with an interest in identity

*The Routledge Companion to Journalism in the Global South* Bruce Mutsvairo,Saba Bebawi,Eddy Borges-Rey,2023-11-21 Responding to mounting calls to decenter and decolonize journalism *The Routledge Companion to Journalism in the Global South* examines not only the deep seated challenges associated with the historical imposition of Western journalism standards on constituencies of the Global South but also the opportunities presented to journalists and journalism educators if they choose to partake in international collaboration and education This collection returns to fundamental questions around the meaning value and practices of journalism from alternative methodological theoretical and epistemological perspectives These questions include What really is journalism Who gets to and who is qualified to define it What role do ethics play What are the current trends challenges and opportunities for journalism in the Global South How is news covered reported written and edited in non Western settings What can journalism players living and working in industrialized markets learn from their non Western colleagues and counterparts and vice versa Contributors challenge accepted universal ethical standards while showing the relevance of customs traditions and cultures in defining and shaping local and regional journalism Showcasing some of the most important research on journalism in the Global South and by journalists based in the Global South this companion is key reading for anyone researching the principles and practices of journalism from a de essentialized perspective

**European Identity Revisited**  
Viktoria Kaina,Ireneusz Pawel Karolewski,Sebastian Kuhn,2015-12-14 It has been argued that the emergence of a European

collective identity would help overcome growing disparity caused by the increasing diversity of today's European Union with 28 member states and more than 500 million people. Research on European integration is facing the pressing question of what holds Europe together in times of crisis, growing distributional conflict and instability in its neighbourhood. This book departs from the ideas of group cohesion in the EU and reflects on the newest dynamics and practices of European identity. Whilst applying innovative qualitative, quantitative and experimental research methods and an interdisciplinary approach, this volume looks at a variety of issues such as European citizenship, mobility of European citizens, space-based identities, dual identities, student identity and value sharing. In doing so, this volume presents new perspectives on this complex and dynamic subject and points to potential solutions both in the academic discourse and the political practice of the EU. This text will be of key interest to scholars and students of European integration, European studies, international relations, citizenship studies, political sociology as well as more broadly in the social sciences.

**Identity Formation in Globalizing Contexts** Christina Higgins, 2011-10-28. The volume explores how new millennium globalization mediates language learning and identity construction. It seeks to theorize how global flows are creating new identity options for language learners and to consider the implications for language learning, teaching and use. To frame the chapters theoretically, the volume asserts that new identities are developing because of the increasingly interconnected set of global spaces which impact language learners' lives. Part 1 focuses on language learners in transnational contexts, exploring their identity formation when they shuttle between cultures and when they create new communities of fellow transnationals. Part 2 examines how learners come to develop intercultural selves as a consequence of experiencing global contact zones when they sojourn to new contexts for study and work. Part 3 investigates how learners construct new identities in the mediascapes of popular culture and cyberspace where they not only consume but also produce new globalized identities. Through case studies, narrative analysis and ethnography, the volume examines identity construction among learners of English, French, Japanese and Swahili in Canada, England, France, Hong Kong, Tanzania and the United States.

**The Cambridge Handbook of Social Theory: Volume 2, Contemporary Theories and Issues** Peter Kivisto, 2020-12-17. This ambitious two-volume handbook of social theory consists of forty original contributions. The researchers take stock of the state of social theory and its relationship to the canon, exploring such topics as the nature, purpose and meaning of social theory, the significance of the classics, the impact of specific individual and theory schools and more. Both volumes reflect a mixture of what intellectual historian Morton White distinguished as the annalist of ideas and the analyst of ideas, locating theoretical thought within the larger socio-historical context that shaped it within the terrain of the sociology of knowledge. Exploring the contemporary relevance of theories in a manner that is historically situated and sensitive, this impressive and comprehensive set will likely stand the test of time.

**The Lesbian and Gay Movement and the State** David Paternotte, 2016-03-03. By analyzing the relationship between lesbian and gay movements and the state, this ground-breaking book addresses two interconnected issues to what

extent is the lesbian and gay movement influenced by the state and to a lesser extent whether the lesbian and gay movement has somehow influenced the state for instance by altering forms of sexual regulation Given the diversity in national trajectories this book covers fifteen countries This enables the volume to shed light on different kinds of relationships between these groups and the state as well as on the way they have evolved in recent decades The Lesbian and Gay Movement and the State Comparative Insights into a Transformed Relationship fills an important gap in the literature on lesbian and gay activism However this book also provides important and innovative insights into broader issues in international political science public policy and comparative politics as well as issues in social movement studies These include the role of the state in constructing citizen identities the heteronormative way in which many traditional citizen entitlements and benefits were constructed state civil society relations judicial activism the impact of federalism and the increasing globalization of sexual identities

**Children and the Politics of Cultural Belonging** Alice Hearst, 2012-08-27 Conversations about multiculturalism rarely consider the position of children Yet providing care for children unanchored from their birth families raises questions central to multicultural concerns This book explores the debate over communal and cultural belonging in three contexts domestic transracial adoptions of non American Indian children the scope of tribal authority over American Indian children and cultural and communal belonging for transnationally adopted children

The Strategic Repositioning of Arts, Culture and Heritage in the 21st Century George Mugovhani, Owen Seda, 2018-06-11 The post millennium world has been experiencing several recognisable historical milestones with regard to arts culture and heritage One of these has been the resuscitation and revival of creative elements of the arts culture and heritage of previously marginalised or disadvantaged communities around the world Until recently there had been scant regard and skewed allocation of resources for these but lately attempts have been made to promote and sustain them in order to enable the socio economic aspirations of a multicultural society The contributions brought together here are the product of papers that were presented during a conference on Strategic Repositioning of Arts Culture and Heritage in the 21st Century They cover a broad spectrum of subjects such as indigeneity music song and identity politics national reconciliation education product development and national development

*Latin American Literature at the Millennium* Cecily Raynor, 2021-04-16 Latin American Literature at the Millennium Local Lives Global Spaces analyzes literary constructions of locality from the early 1990s to the mid 2010s In this astute study Raynor reads work by Roberto Bola o Valeria Luiselli Luiz Ruffato Bernardo Carvalho Jo o Gilberto Noll and Wilson Bueno to reveal representations of the human experience that unsettle conventionally understood links between locality and geographical place The book raises vital considerations for understanding the region s transition into the twenty first century and for evaluating Latin American authors representations of everyday place and modes of belonging

The Politics of Unfree Labour in Russia Mary Buckley, 2018-01-11 How and why did human trafficking out of Russia escalate at the beginning of the twenty first century Why did some labour migrants from Uzbekistan

Tajikistan and Kyrgyzstan find happy work situations in Russia whereas others became trapped in forced labour This book focuses on human trafficking out of the Russian Federation since the collapse of the Soviet state and on labour migration into it from Central Asia and on some internal movement It looks at the socio economic reasons behind labour flows and examines key social political legislative and policy responses Discussion includes how the Russian press covers these topics and what politicians experts and the public think about them Based on interviews polls and focus groups in Russia this book is rich in original research which highlights different Russian perspectives on exploitation in unfree labour It gives examples of entrapment in prostitution construction work on farms and in begging rings Old Conflict, New War U.

Ben-Eliezer,2012-08-08 The book provides a comprehensive sociological and cultural explanation of Israel s politics toward the Palestinians covering the period of the Oslo Accords and the Second Intifada and focusing on the concept of a new war that is an outgrowth of internal relations within Israel itself and the diversionary politics of its leadership **Global**

**Politics, Political Participation, and the Rise of Nationalism: Emerging Research and Opportunities** Stacey, Emily,2021-01-08 Nationalist movements remain a force in contemporary American politics regardless of political party Recently social issues have moved to the forefront of American society and civilian participation in activism is at an all time high The nationalism that the world started to experience pre 2016 but much more intently post 2016 has impacted international alliances global strategies and threatened the fragile stability that had been established in the post September 11th world Major political events in more recent times such as the American election have brought social issues into stark focus along with placing a spotlight on politics and nationalism in general Thus there is an updated need for research on the most current advances and information on nationalism social movements and activism in modern times **Global Politics Political Participation and the Rise of Nationalism Emerging Research and Opportunities** discusses the ways in which nationalism and nationalist ideologies have permeated throughout America and the international community This work considers the rise of neo nationalism stemming from the Tea Party in the United States Brexit and the era of the Tory Divorce from Europe contemporary electoral politics that are helping in the spread of nationalist policies and leaders providing a normalization of policies that are sometimes anti democratic the 2020 resurgence of Black Lives Matter after the deaths of George Floyd and Breonna Taylor and the role of the coronavirus pandemic in helping to shape the world order to come This book will be ideal for activists politicians lawyers political science professors and researchers international relations and comparative politics professors and students practitioners policymakers researchers academicians and anyone interested in the current state of global politics nationalism and activism in political participation **British Asian Muslim Women, Multiple Spatialities and Cosmopolitanism** F. Bhimji,2012-09-26 This book analyzes the cosmopolitan lives of British Asian Muslim women Drawing on interview and online data the book debunks stereotypical assumptions and explores the multiple and meaningful links that British Asian Muslim women establish within and outside their communities
