## **Globalization With A Human Face:**

Toward Globalization with a Human Face Edgar Krau, 2009      Globalization with a Human Face United Nations Development Programme. Human Development Report Office, 1999      **Globalization with a Human Face** Jung Min Choi, John W. Murphy, Manuel J. Caro, 2004-12-30 This collection of essays reflects a wide array of realities and experiences of people from different areas of the world including England Nicaragua Colombia Spain and Guatemala Globalization requires innovation and adaptation things that are easier for some countries to achieve than others This book states that the current form of globalization allows the West to dominate the world market at the expense of other countries This collection challenges the framework of globalization and provides practical advice for making globalization beneficial to all countries This volume seeks to transform globalization into something productive for humanity as a whole The nature and history of globalization is discussed as well as its impact on the Third World New approaches to globalization are presented as well as the rationale of these recommendations The book shows that globalization can be reworked in order to include all countries from the First to Third World      **Globalization with a Human Face** , 2004      *Globalization with a Human Face* United Nations Development Programme. Human Development Report Office, 1999      **Two Faces of Globalization** Dilip K. Das, 2009-01-01 Like the ancient Roman god Janus globalization has two faces one benign and the other malign In this comprehensive and authoritative book Dilip K Das fills a gap in the literature by examining both aspects of the contemporary phase of economic globalization Because globalization has had both welfare enhancing propitious consequences as well as detrimental ones it has become an acutely contentious subject matter among both scholarly and public policy making communities Contemporary globalization cannot be studied without a balanced treatment of both facets The author provides precisely that covering large thematic areas of the global economy and globalization through the channels of trade financial flows attention to newly emerging trends as well as historical perspective Neither overly technical nor highly model oriented this accessible book will be of great interest to scholars students and other readers interested in a broad and balanced view of globalization      **Unpacking Globalization** Linda E. Lucas, 2007-08-02 Unpacking Globalization examines the experiences of people living with the forces that are transforming economic systems culture gender relationships and governance The book offers interdisciplinary analysis of the well being of women and men as they cope with the changes of globalization Through theory case studies and data several themes emerge indicating that from the household to the continental level change is leading to new awareness and new survival strategies for both women and men The contributors to the volume come from Africa Asia Europe and North and South America They present analysis of global changes and historical background from diverse perspectives and offer case studies on social security gender and macroeconomy They employ feminist theory as well as detail the experiences of current and future women entrepreneurs An exciting interdisciplinary text Unpacking Globalization can supplement women s studies anthropology sociology and economic

development courses

**Globalization with a Human Face: Globalization and human development in the Arab world**, 1999 *Development and Social Change* Philip McMichael, 2016-01-25 In this new Sixth Edition of *Development and Social Change A Global Perspective* author Philip McMichael describes a world undergoing profound social political and economic transformations from the post World War II era through the present He tells a story of development in four parts colonialism developmentalism globalization and sustainability that shows how the global development project has taken different forms from one historical period to the next Throughout the text the underlying conceptual framework is that development is a political construct created by dominant actors states multilateral institutions corporations and economic coalitions and based on unequal power arrangements While rooted in ideas about progress and prosperity development also produces crises that threaten the health and well being of millions of people and sparks organized resistance to its goals and policies Frequent case studies make the intricacies of globalization concrete meaningful and clear *Development and Social Change A Global Perspective* challenges us to see ourselves as global citizens even as we are global consumers

**The Role of Law and Ethics in the Globalized Economy** Joseph Straus, 2009-04-21 Preface International conferences are not organized overnight especially not when high ranking personalities from politics business and academia should be offered an adequate platform for addressing and discussing highly relevant contemporary issues The conference on *The Role of Law and Ethics in the Globalized Economy* which took place on May 22 and 23 2008 in the Bavarian Academy of Sciences and Humanities in Munich was no exception When the first preparations started at the end of 2006 neither the subprime crises nor the general crises of the global financial system whose shock waves have rocked the financial businesses in subsequent months were known nor were they predictable or even imaginable Based on our monitoring of the globalization process and its apparent impact not only on the economic and technological environment but also on the social environment it was appropriate for the conference to begin by serving as a platform for analysing the status quo of the process of globalization as relevant to politics business and academia and for exploring how the interest groups in those domains cope with the challenges of globalization In the end however the purpose of the conference was to produce proposals for conditions for upwards global competition meaning that minimum conditions should be worked out to enable people to live and labour humanely Such conditions would be those which should help avoid otherwise inevitable frictions in society both nationally and internationally

*International Labour Law* Jean-Michel Servais, 2017-04-24 No one will deny that labour standards comprise a necessary framework for balanced economic and social development Yet on a global level such balanced development has not occurred despite the existence of a rigorous body of international labour law that has been active and growing for almost one hundred years The implementation of this law devolves upon states yet many states have failed to honour it If we are to take serious steps toward a remedy for this situation there is no better place to start than a thorough well researched survey and analysis of existing international labour law its sources its content its historical development and

an informed consideration of the barriers to its full effectiveness This book is exactly such a resource It provides in depth interpretation of the crucial International Labour Organisation ILO instruments Constitution conventions declarations resolutions and recommendations as well as such other sources of law as the OECD Guidelines for Multinational Enterprises and various model and actual corporate codes of conduct Among the substantive areas of labour law covered in this book are the following the relationship between international labour law and economic competition standards on industrial relations collective bargaining and dispute settlement procedures protection of trade unions prohibitions on enforced and child labour promotion of equal opportunity and treatment time and rest provisions wage determination and protection occupational health and safety provisions special issues on non standard forms of employment foreign and migrant workers social security provisions privacy protection The presentation demonstrates that these rules and standards offer invaluable benchmarks to governments judiciaries employers and trade unions The book s combination of detailed commentary and an overarching social policy will make it especially valuable to legislators human resources managers employers organizations trade unions jurists and academics concerned with the role of work in our globalized social system This fifth edition of the book by Jean Michel Servais analyses the potential of those standards in a globalized world and the necessary evolution It examines the actual implementation of those rules in the national context comparing different experiences It integrates the latest instruments It examines the most recent public debates on labour regulation dealing with health and security at work personal data minimum wages social security strikes etc updates the bibliography and opens some perspectives for the future work of the global institutions

*Institutional Theory in International Business* Laszlo Tihanyi, Timothy Devinney, Torben Pedersen, 2012-06-04 Part of Advances in International Management series this title presents contemporary research by leading and emerging scholars working on institutional theory It also presents theoretical frameworks of institutions and proposes interesting ideas that provide the foundation for doctoral dissertations and research projects

*The International Covenant on Economic, Social and Cultural Rights* Ben Saul, David Kinley, Jaqueline Mowbray, 2014-03 Economic social and cultural rights are finally coming of age This book brings together all essential documents materials and case law relating to the International Covenant on Economic Social and Cultural Rights ICESCR one of the most important human rights instruments in international law and its Optional Protocol This book presents extracts from primary materials alongside critical commentary and analysis placing the documents in their wider context and situating economic social and cultural rights within the broader human rights framework There is increasing interest internationally regionally and in domestic legal systems in the protection of economic social and cultural rights The Optional Protocol of 2008 allows for individual communications to be made to the UN Committee on Economic Social and Cultural Rights after its entry into force in 2013 At the regional level socio economic rights are well embedded in human rights systems in Europe Africa and the Americas At the national level constitutions and courts have increasingly regarded socio economic rights as justiciable

narrowing the traditional divide with civil and political rights This book contextualises these developments in the context of the ICESCR It provides detailed analysis of the ICESCR structured around its articles drawing on national as well as international case law and materials and containing all of the key primary materials in its extensive appendices This book is indispensable for the judiciary human rights practitioners government legal advisers and agencies national human rights institutions international organisations regional human rights bodies NGOs and human rights activists academics and students alike *U.S. Trade Policy in the Era of Globalization* United States. Congress. Senate. Committee on Finance,1999

Globalization in Africa Etham B. Mijah,Moses E. U. Tedheke,Usman A. Tar,2016-10-28 This book presents critical perspectives on the impacts of globalization in Africa with particular reference to the crisis of development and governance the crisis of peace and security and the environmental crisis It explores both global and local factors that exacerbate these crises and seeks solutions to these challenges With a strong slant on African experience and perspectives the book reveals that globalization has presented Africa with both challenges and opportunities for governance and existence in an increasingly inter connected planet **Ideologies of Globalization** Mark Rupert,2012-11-12 This book examines the key debates about globalization and provides a detailed and incisive analysis of the varied and often contradictory opposition to globalization within the United States Subjects covered include the historical context of the development of globalization in the US in the post war period opposition to the North American Free Trade Agreement NAFTA the General Agreement on Trade Tariffs GATT the World Trade Organisation WTO the nationalist response to globalization from militia groups and others on the extreme right the populist backlash against globalization recent moves by advocates of the free market to present globalization with a human face International Financial Architecture United States. Congress. House. Committee on Banking and Financial Services,2000 Earthsummit.biz Kenny Bruno,Joshua Karliner,2002 A muckraking expose of corporate greenwashing and of the disturbing trend toward U N corporate partnerships that give corporations good PR without requiring them to improve their behavior In the decade between the Rio Earth Summit in 1992 and the Johannesburg World Summit on Sustainable Development in 2002 transnational corporations have increasingly used their resources to deter regulation suppress opposing voices and try to buy civil society s acquiescence with slick PR But we don t have to acquiesce and neither should the U N The United Nations may not be perfect argue Kenny Bruno and Joshua Karliner but in its principles and structure it has the potential to counter the WTO a potential it is squandering say the authors earthsummit biz exposes the current state of corporate rhetoric vs corporate reality and debunks the paradigm of transnational responsibility and self regulation It contains 18 corporate case studies as well as the complete texts of the U N s toothless Global Compact with corporations and the Global Compact s civil society counterpart the Citizens Compact on the United Nations and Corporations The Historicity of Understanding and the Problem of Relativism in Gadamer's Philosophical Hermeneutics Osman Bilen,2001 *Pentecostalism, Globalisation, and Islam in Northern Cameroon* Tomas Sundnes

Drønen,2013-01-15 Pentecostalism is among the fastest growing social movements in the 21th century This volume discusses global aspects of Pentecostal churches in northern Cameroon by describing how the local congregations interact with civil society traditional religion and Islam Extensive fieldwork and descriptions of the complex historical context within which the churches emerge makes the author draw attention to Pentecostal leaders as social entrepreneurs inspired both by local traditions and by a global flow of images and ideas This indicates that Pentecostalism can be interpreted both as a social and as a religious movement which manages to encounter mainline churches and Islam with flexibility and spiritual authority
