## **Globalizing Family Values The Christian Right In International Politics:**

**Globalizing Family Values** Doris Buss, Didi Herman, With little fanfare and profound effect family values have gone global and the influence of the Christian Right is increasingly felt internationally This is the first comprehensive study of the Christian Right's global reach and its impact on international law and politics Doris Buss and Didi Herman explore tensions contradictions victories and defeats for the Christian Right's global project particularly in the United Nations The authors consult Christian Right materials from pamphlets to novels conduct interviews with people in the movement and provide a firsthand account of the World Congress of Families II in 1999 a key event in formulating Christian Right global policy and strategy The result is a detailed look at a new global player its campaigns against women's rights population policy and gay and lesbian rights its efforts to build an alliance of orthodox faiths with non Christians and the tensions and strains as it seeks to negotiate a role for conservative Christianity in a changing global order *The Christian Right & US Foreign Policy in the 21 st Century* Mohd Afandi Salleh, 2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000 2009 During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security *How Trump and the Christian Right Saved LGBTI Human Rights* Cynthia Burack, 2022-08-01 During the Obama administration Christian conservatives insisted that securing human rights for LGBTI people abroad diminished human rights protections for people of faith During the 2016 presidential election the Christian right backed Donald Trump and demanded an end to sexual orientation and gender identity SOGI foreign policy Did the Trump administration move to terminate US advocacy for SOGI human rights Did Christian conservative US officials and elites do everything in their power to publicize curb defund and undermine US support for SOGI If not spoiler alert they did not why not Analyzing SOGI human

rights and religious freedom foreign policy How Trump and the Christian Right Saved LGBTI Human Rights reveals the indifference mendacity and political interests at play in Trump's alliance with Christian right elites

**The Endtimes of Human Rights** Stephen Hopgood, 2013-11-18 We are living through the endtimes of the civilizing mission The ineffectual International Criminal Court and its disastrous first prosecutor Luis Moreno Ocampo along with the failure in Syria of the Responsibility to Protect are the latest pieces of evidence not of transient misfortunes but of fatal structural defects in international humanism Whether it is the increase in deadly attacks on aid workers the torture and disappearing of al Qaeda suspects by American officials the flouting of international law by states such as Sri Lanka and Sudan or the shambles of the Khmer Rouge tribunal in Phnom Penh the prospect of one world under secular human rights law is receding What seemed like a dawn is in fact a sunset The foundations of universal liberal norms and global governance are crumbling from The Endtimes of Human Rights In a book that is at once passionate and provocative Stephen Hopgood argues against the conventional wisdom that the idea of universal human rights has become not only ill adapted to current realities but also overambitious and unresponsive A shift in the global balance of power away from the United States further undermines the foundations on which the global human rights regime is based American decline exposes the contradictions hypocrisies and weaknesses behind the attempt to enforce this regime around the world and opens the way for resurgent religious and sovereign actors to challenge human rights Historically Hopgood writes universal humanist norms inspired a sense of secular religiosity among the new middle classes of a rapidly modernizing Europe Human rights were the product of a particular worldview Western European and Christian and specific historical moments humanitarianism in the nineteenth century the aftermath of the Holocaust They were an antidote to a troubling contradiction the coexistence of a belief in progress with horrifying violence and growing inequality The obsolescence of that founding purpose in the modern globalized world has Hopgood asserts transformed the institutions created to perform it such as the International Committee of the Red Cross and recently the International Criminal Court into self-perpetuating structures of intermittent power and authority that mask their lack of democratic legitimacy and systematic ineffectiveness At their best they provide relief in extraordinary situations of great distress otherwise they are serving up a mixture of false hope and unaccountability sustained by human rights as a global brand The Endtimes of Human Rights is sure to be controversial Hopgood makes a plea for a new understanding of where hope lies for human rights a plea that mourns the promise but rejects the reality of universalism in favor of a less predictable encounter with the diverse realities of today's multipolar world

*Cosmopolitanism and the Development of the International Criminal Court* Jennifer Biedendorf, 2019-08-01 Cosmopolitanism and the Development of the International Criminal Court analyzes a set of prominent and competing discourses that emerged in the context of the development and establishment of the International Criminal Court ICC The ICC is the first permanent juridical body designed to prosecute individuals who commit offences including war crimes crimes against humanity and genocide Drawing on scholarship on

public memory and human rights the book argues that international law and the international human rights system play a key role for the development of transnational memory discourses and transnational or cosmopolitan subjectivities Despite the International Criminal Court being recognized as a landmark development in global cooperation an examination of key events in the development of the court shows how some state and nonstate actors advance calls for cosmopolitanism while others resist cosmopolitanism to bolster nation state sovereignty Drawing on the establishment of the International Criminal Court as a case study the book examines several events that continue to shape national and international public discourse The book examines debates that occurred during the drafting process of the international treaty at the United Nations and that led to the groundbreaking inclusion of provisions on gender and sexual violence in the Rome Statute of the ICC in 1998 The analysis discusses the tension between feminist advocates rhetoric and the discourse of anti women s rights actors involved in the treaty making process who resisted such inclusions in international criminal law The book analyzes other key events related to the establishment of the ICC that invoke tensions between competing demands of cosmopolitanism and national sovereignty including advocacy campaigns by nongovernmental organizations working to drum up public support of the institution of the International Criminal Court and the debates surrounding the unprecedented act of the United States unsigning an international treaty In sum this examination of the rhetoric of state and nonstate actors attempting to shape the court according to their visions of global community shows how discourses about international criminal law and human rights are employed not only to advance cosmopolitanism but also to strengthen nationalist discourses

Encyclopedia of Religious Controversies in the United States Bill J. Leonard, Jill Y. Crainshaw, 2012-12-05 This book provides a thorough introduction to historical and contemporary issues in American religion tackling controversial hot button topics such as abortion Intelligent Design and Scientology Surveying key aspects of the controversial issues persons and religious groups of today Encyclopedia of Religious Controversies in the United States Second Edition is a thorough update and expansion of the first edition of this book This two volume work contains many new entries that reflect current 21st century religious controversies Written by a variety of scholars with varying specializations the content covers major people ideas terms institutions groups books and events The A Z format allows for easy location of materials a chronology of developments and events enables readers to trace the development of contentious topics over time and a section of primary document excerpts gives readers further perspective on the issues

**Christian Nationalism and Democracy in Ghana** Jeffrey Haynes, 2025-06-10 This book investigates the impact of Christian nationalism on democracy in Ghana arguing that proponents of a specific Christian worldview seek to remake the country according to their values and beliefs Christian nationalism is a significant religious and political ideology in several African countries not only Ghana but also Zambia and Nigeria In Ghana prominent Christian nationalists encouraged by sections of the American Christian Right cultivate political influence with powerful political elites and by developing a high media profile to promote their views and increase their

numbers of followers The book examines specific examples of Christian nationalism's impact on Ghana's democracy the national cathedral as a symbol of national unity and social cohesion anti Muslim pronouncements threatening inter faith harmony and attacks on Ghana's LGBTQ community Overall the book argues that Christian nationalism is a specific threat to Ghana's three decade long liberal democracy with the aim of undermining the constitutional equality and human rights of some Ghanaians in favour of a specific Christian worldview This book will be of interest to researchers of religion and politics in Africa with Ghana serving as an important case study for those interested in the regional impact of Christian nationalism

Women of the Right Kathleen M. Blee, Sandra McGee Deutsch, 2015-06-29 In Women of the Right Kathleen M Blee and Sandra McGee Deutsch bring together a groundbreaking collection of essays examining women in right wing politics across the world from the early twentieth century white Afrikaner movement in South Africa to the supporters of Sarah Palin today The volume introduces a truly global perspective on how women matter in the national and transnational links and exchanges of rightist politics Suitable for classroom use it sets a new agenda for scholarship on women on the right Aside from the editors the contributors are Nancy Aguirre Karla J Cunningham Kirsten Delegard Kathleen M Fallon Kate Hallgren Randolph Hollingsworth Jill Irvine Vandana Joshi Carol S Lilly Annette Linden Julie Moreau Margaret Power Mariela Rubinzal Daniella Sarnoff Ronnee Schreiber Meera Sehgal Louise Vincent and Veronica A Wilson

**Emotions and Mass Atrocity** Thomas Brudholm, Johannes Lang, 2018-03-22 The study of genocide and mass atrocity abounds with references to emotions fear anger horror shame and hatred Yet we don't understand enough about how ordinary emotions behave in such extreme contexts Emotions are not merely subjective and interpersonal phenomena they are also powerful social and political forces deeply involved in the history of mass violence Drawing on recent insights from philosophy psychology history and the social sciences this volume examines the emotions of perpetrators victims and bystanders Editors Thomas Brudholm and Johannes Lang have brought together an interdisciplinary group of prominent scholars to provide an in depth analysis of the nature value and role of emotions as they relate to the causes and dynamics of mass atrocities The result is a new perspective on the social political and moral dimensions of emotions in the history of collective violence and its aftermath

**Women's Rights in Armed Conflict under International Law** Catherine O'Rourke, 2020-09-24 Comprehensive analysis of international law's protection of women's rights in armed conflict with an emphasis on how these protections operate in practice

McCammon, 2023-01-04 The most up to date and thorough compendium of scholarship on social movements This second edition of The Wiley Blackwell Companion to Social Movements features forty original essays from the field With contributions from both established and ascendant scholars the Companion seeks to present current research on social movements in all its diversity It is the most up to date comprehensive volume of social science research on social movements available today The essays address facilitative and constraining contexts and conditions social movement organizations fields and dynamics strategies

and tactics micro structural and social psychological dimensions of participation consequences and outcomes and various thematic intersections including the intersection of social movements and social class gender race and ethnicity religion human rights globalization political extremism and more Offers an illuminating guide to understanding the dynamics and operation of social movements within the modern global world Covers a diverse range of topics in the field of social movement studies Offers original state of the art essays by internationally recognized scholars The Wiley Blackwell Companion to Social Movements is recommended for graduate seminars on social movement and for scholars of social movements worldwide It is also an excellent text for college and university libraries especially with graduate programs in the social sciences

**Development, Sexual Rights and Global Governance** Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people's sexual lives access to citizenship and struggles for livelihood Despite the industry's persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people's intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry's role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**The Oxford Handbook of Illiberalism** Marlène Laruelle, 2024 From the rise of populist leaders and the threat of democratic backsliding to polarizing culture wars and the return of great power competition the backlash against the political economic and social liberalism is increasingly labeled illiberal Yet despite the increasing importance of these phenomena scholars still lack a firm grasp on illiberalism as a conceptual tool for understanding societal transformations The Oxford Handbook of Illiberalism addresses this gap by establishing a theoretical foundation for the study of illiberalism and showcasing state of the art research on this phenomenon in its varied scripts political economic cultural and geopolitical Bringing together the expertise of dozens of scholars the Oxford Handbook of Illiberalism offers a thorough overview that characterizes the current state of the field and charts a path forward for future scholarship on this critical and quickly developing concept

*Fundamentalisms and the Media* Stewart M. Hoover, Nadia Kaneva, 2009-06-09 The turn of the twenty

first century has seen an ever increasing profile for religion contrary to long standing predictions of its decline. Instead the West has experienced what some call a realignment of religion where it persists in conjunction with other institutions and structures. Outside the West religion is an ever more prominent force in social and political movements of both reform and retrenchment. Across these contexts no issue in religion is of as much concern as fundamentalism or rather the fundamentalisms within various traditions which are seen to be fomenting religious, social, ethnic and political tension and conflict. The contributions to this volume represent the first effort to look at fundamentalisms and the media together and address the resulting relations and interactions from critical perspectives of history, technology, geography and practice. The result lays important groundwork for scholarship on these new and increasingly important phenomena.

**Religious Actors and International Law** Ioana Cismas, 2014. This book assesses whether a new category of actors, religious actors, has been constructed within international law. Religious actors through their interpretations of the religion s they are associated with uphold and promote or indeed may transform potentially oppressive structures or discriminatory patterns. This study moves beyond the concern that religious texts and practices may be incompatible with international law to provide an innovative analysis of how religious actors themselves are accountable under international law for the interpretations they choose to put forward. The book defines religious actors as comprising religious states, international organizations and non state entities that assume the role of interpreting religion and so claim a special legitimacy anchored in tradition or charisma. Cutting across the state/non state divide this definition allows the full remit of religious bodies to be investigated. It analyses the crucial question of whether religious actors do in fact operate under different international legal norms to non religious states, international organizations or companies. To that end the Holy See/Vatican, the Organization of Islamic Cooperation and churches and religious organizations under the European Convention on Human Rights regime are examined in detail as case studies. The study ultimately establishes that religious actors cannot be seen to form an autonomous legal category under international law; they do not enjoy special or exclusive rights nor incur lesser obligations when compared to their respective non religious peers. Going forward it concludes that a process of two sided legitimation may be at stake: religious actors will need to provide evidence for the legality of their religious interpretations to strengthen their legitimacy and international law itself may benefit from religious actors fostering its legitimacy in different cultural contexts.

**Politicizing Gender and Democracy in the Context of the Istanbul Convention** Andrea Krizsán, Conny Roggeband, 2021-09-13. This book examines opposition to the Council of Europe s Istanbul Convention and its consequences for the politics of violence against women in four countries of Central and Eastern Europe. Krizsán and Roggeband discuss why and how successful anti gender mobilizations managed to obstruct ratification of the Convention or push for withdrawal from it. They show how resistance to the Convention significantly redraws debates on violence against women and has consequences for policies, women s rights advocacy and gender equal democracy.

**The Conscience Wars** Michel

Rosenfeld, Susanna Mancini, 2018-07-05 Explores the multifaceted debate on the interconnection between conscientious objections religious liberty and the equality of women and sexual minorities **Reproduction Policy in the Twenty-First Century** Hannah Zagel, 2024-11-08 This is an Open Access title available under the terms of a CC BY NC ND 4.0 License It is free to read download and share on ElgarOnline thanks to generous funding support from the WZB Berlin Social Science Center and the Leibniz Open Access Monograph Publishing Fund This pertinent book investigates how governments are involved in human reproduction Adopting a multidisciplinary approach the book provides crucial insights from the fields of sociology law political science and demography to better understand reproduction policy in the twenty first century **Born Again** Jennifer S. Butler, 2006-08-20 The Christian Right wields massive political power in the United States and beyond This is the first book to reveal the growing influence of the Christian Right within the United Nations This book reveals how Christian conservative groups are able to shape policy in every corner of the world Drawing on interviews with religious leaders it reveals how today's most powerful Christian Right organisations are building interfaith coalitions connecting Catholic Mormon and Muslim allies to advance a conservative agenda The US under Bush Jr has given them a significant voice in shaping US policy on issues including women's rights reproductive health human cloning children's rights and AIDS In short the Christian Right is globalising a phenomenon that promises to challenge progressive social policy on a world wide scale as well as transform the Christian Right itself *The Foreign Policy Discourse in the United Kingdom and the United States in the "New World Order"* Lori Maguire, 2009-01-14 The goal of this book is to examine some of the major foreign policy debates in the United Kingdom and the United States in the period from 1992 to 2008 from the end of the Cold War and the aftermath of the first Gulf War to the 2008 American presidential election The first President Bush spoke in 1991 of a new world order which seemed to mean an American hegemony The United States was now the world's only superpower although a superpower afflicted with weaknesses especially economic ones But by 2008 the new world order did not seem so new or so strongly American The period saw the terrorist attacks against the US of 11 September 2001 military problems for the superpower in Afghanistan and Iraq and by the summer of 2008 near economic collapse In all of these developments Britain shared to a lesser or a greater extent It is hoped that this book will shed an important light both on each nation and on the so called special relationship between the two Furthermore this book is also not specifically concerned with policy or how policy is made but with the debate around policy and the rhetoric used to present different points of view The Special Relationship between the US and Britain remains an enigmatic ever changing but still very powerful factor in world politics As an examination of their foreign policy discourses reveals from the perspective of culture and values few Western countries are as different as the United Kingdom and the US With very few exceptions the foreign policies of Gladstone and Tony Blair and Churchillian rhetoric unmatched by his supremely realpolitical politics British governments abhor talking about values and ideals The British cultural peculiarity is to dismiss ideology and values as packaging only to be caught by surprise time

and again that they cannot do business with Herr Hitler or that people kill each other for their values religions constructed identities and ideologies Most American governments by contrast have had ideological and moral crusades embroidered on their banners in their foreign policy There is a convergence with Britain when both proclaim that all they are doing is in their self interest but the Americans unashamedly assume that what is good for America is good for the world while the British discourse with the UK's decline since 1945 rarely goes that far As an analysis of their discourses reveals the Special Relationship is thus clearly founded on something either deeper or more superficial than shared culture or values this volume sheds light on this surprising fact in most illuminating ways and Lori Maguire's achievement in bringing together these examinations is praiseworthy indeed Prof Beatrice Heuser University of Reading
