The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil s Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

The Ends of Meter in Modern Japanese Poetry Scott Mehl, 2022-01-15 In *The Ends of Meter in Modern Japanese Poetry* Scott Mehl analyzes the complex response of Meiji era Japanese poets and readers to the challenge introduced by European verse and the resulting crisis in Japanese poetry Amidst fierce competition for literary prestige on the national and international stage poets and critics at the time recognized that the character of Japanese poetic culture was undergoing a fundamental transformation and the stakes were high the future of modern Japanese verse Mehl documents the creation of new Japanese poetic forms tracing the first invention of Japanese free verse and its subsequent disappearance He examines the impact of the acclaimed and reviled shintaishi a new poetic form invented for translating European language verse and eventually supplanted by the

reintroduction of free verse as a Western import The Ends of Meter in Modern Japanese Poetry draws on materials written in German Spanish English and French recreating the global poetry culture within which the most ambitious Meiji era Japanese poets vied for position *The Three Perfections: Japanese Poetry, Calligraphy, and Painting* John T. missionaries who worked hard to learn the native languages of China and Japan were the first to introduce new cultural elements to these countries The universal scope and vision of the Christian faith enabled both missionaries and native believers to overcome narrow nationalism or xenophobia and turned them into cross cultural mediators **Sino-Japanese Reflections** Joshua A. Fogel,Matthew Fraleigh,2022-05-09 Sino Japanese Reflections offers ten richly detailed case studies that examine various forms of cultural and literary interaction between Japanese and Chinese intellectuals from the late Ming to the early twentieth century The authors consider efforts by early modern scholars on each side of the Yellow Sea to understand the language and culture of the other to draw upon received texts and forms and to contribute to shared literary practices Whereas literary and cultural flow within the Sinosphere is sometimes imagined to be an entirely unidirectional process of textual dissemination from China to the periphery the contributions to this volume reveal a more complex picture highlighting how literary and cultural engagement was always an opportunity for creative adaptation and negotiation Examining materials such as Chinese translations of Japanese vernacular poetry Japanese engagements with Chinese supernatural stories adaptations of Japanese historical tales into vernacular Chinese Sinitic poetry composed in Japan and Japanese Sinology the volume brings together recent work by literary scholars and intellectual historians of multiple generations all of whom have a strong comparative interest in Sino Japanese studies **Massachusetts MTEL English (07)** Audrey A. Cinema Illuminating Reality Victor Fan, 2022-03-29. A new critical approach to cinema and media based on Buddhism as a philosophical discourse. How can a philosophical discourse generated in Asia help us reframe and renew cinema and media theory? *Cinema Illuminating Reality* provides a possible way to do this by using Buddhist ideas to examine the intricate relationship between technicity and consciousness in the cinema. The resulting dialogue between Buddhism and Euro-American philosophy is the first of its kind in film and media studies. Victor Fan examines cinema's ontology and ontogenetic formation and how such a formational process produces knowledge, political agency, and in aesthetics, Buddhism allows Fan to deconstruct binary thinking and reimagine media as an ecology, rethinking cinema in relational terms between the human and the machine. Along the way, Fan considers a wide variety of case studies from around the globe while paying special attention to how contemporary Tibeto-Sinophone filmmakers have adopted relational thinking to detail ways of rebuilding a world that appears to be beyond repair. From Chinese queer cinema to a reexamination of Japanese master Ozu's work and its historical reception to Christian Petzold's 2018 existential thriller *Transit*, *Cinema Illuminating Reality* forges a remarkable path between Buddhist studies and cinema studies, casting vital new light on both of these important subjects. *Key Terms*
