Index to Educational Overhead Transparencies National Information Center for Educational Media,1975 *Index to Overhead Transparencies* National Information Center for Educational Media,1975 Transparency and Surveillance as Sociotechnical Accountability Deborah G. Johnson,Priscilla M. Regan,2014-07-11 Surveillance and transparency are both significant and increasingly pervasive activities in neoliberal societies Surveillance is taken up as a means to achieving security and efficiency transparency is seen as a mechanism for ensuring compliance or promoting informed consumerism and informed citizenship Indeed transparency is often seen as the antidote to the threats and fears of surveillance This book adopts a novel approach in examining surveillance practices and transparency practices together as parallel systems of accountability It presents the house of mirrors as a new framework for understanding surveillance and transparency practices instrumented with information technology The volume centers around five case studies Campaign Finance Disclosure Secure Flight American Red Cross Google and Facebook A series of themed chapters draw on the material and provide cross case analysis The volume ends with a chapter on policy implications *Dear GLOBE Teachers: Globe Program, Teacher's Guide, Globe, 1997 Supplement* ,1997 **Library of Congress Catalogs** Library of Congress,1976
GLOBE Offline ,1998 *Films and Other Materials for Projection* Library of Congress,1974 *International Handbook on Geographical Education* Rod Gerber,2013-03-09 I am very pleased to have been asked by Rod Gerber to provide a preface to such a book Not least because of the twenty four chapters eight are written by former students or colleagues with whom I have worked in the past and whom I still meet at conferences on geographical education It is with a certain pride and joy that I note the progress which has been made in geographical education both in its day to day teaching and in research in the twenty years following the end of my term of office as Chair of the Commission on Geographical Education of the International Geographical Union CGEIUG My successors Joe Stoltman Hartwig Haubrich Rod Gerber and now Lea Houtsonen have done much and are continuing to work hard to foster the development of geographical education This book is proof if proof were needed that the international collaboration in this field is alive and well with contributions coming from all the continents except Antarctica It would be a moribund subject that remained unaffected in one way or another by developments on the great world stage as Fairgrieve 1926 would have put it And as Rod Gerber shows the issues of globalisation of cultural encounters of differing value systems of new technologies of variable economic development and of environmental quality all feature as topics which influence and are influenced by geographical education Globe Off-line ,1999 **Bioscience and the intelligence community** United States. Bioethics Across the Globe Akira Akabayashi,2020-05-19 This open access book addresses a variety of issues relating to

bioethics in order to initiate cross cultural dialogue Beginning with the history it introduces various views on bioethics based on specific experiences from Japan It describes how Japan has been confronted with Western bioethics and the ethical issues new to this modern age and how it has found its foothold as it decides where it stands on these issues In the last chapter the author proposes discarding the overarching term Global Bioethics in favor of the new term Bioethics Across the Globe BAG which carries a more universal connotation This book serves as an excellent tool to help readers understand a different culture and to initiate deep and genuine global dialogue that incorporates local and global thinking on bioethics Bioethics Across the Globe is a valuable resource for researchers in the field of bioethics medical ethics interested in adopting cross cultural approaches as well as graduate and undergraduate students of healthcare and philosophy **Illinois Chemistry Teacher** ,1992 **National Union Catalog** ,1973 *Catalog of Copyright Entries. the fact that the original WEIRD critique was too narrow in scope Rather than a single problem of a lack of diversity among research participants there are at least four overlapping problems Psychology is WEIRD not only in terms of who makes up its participant pool but also in terms of its theoretical commitments methodological assumptions and institutional structures Psychology as currently constituted is a fundamentally WEIRD enterprise Coming to terms with this is necessary if we wish to make psychology relevant for all humanity This title is also available as Open Access on Cambridge Core
