**Globes, Maps and Skyways : a Text for High School Students**, 1943 ... *Globes, Maps, and Skyways* Hubert Anton Bauer, 1942 ... *Globes, Maps, and Skyways* Hubert Anton Bauer, 1942 *TO FILL SKIES W/PILOTS PB* PISANO DOMINICK A, 2001-03-17 Launched in 1939 the Civilian Pilot Training Program CPTP was one of the largest government sponsored vocational education programs of its time In *To Fill the Skies with Pilots* Dominick A Pisano explores the successes and failures of the program from its conception as a hybrid civilian military mandate in peacetime through the war years and into the immediate postwar period As originally conceived the CPTP would serve both war preparedness goals and New Deal economic ends Using the facilities of colleges universities and commercial flying schools the CPTP was designed to provide a pool of civilian pilots for military service in the event of war The program also sought to give an economic boost to the light plane industry and the network of small airports and support services associated with civilian aviation As Pisano demonstrates the CPTP s multiple objectives ultimately contributed to its demise Although the program did train tens of thousands of pilots who later flew during the war mostly in noncombat missions military leaders faulted the project for not being more in line with specific recruitment and training needs After attempting to adjust to these needs the CPTP then faced a difficult and ultimately unsuccessful transition back to civilian purposes in the postwar era By charting the history of the CPTP Pisano sheds new light on the politics of aviation during these pivotal years as well as on civil military relations and New Deal policy making *The Contours of America's Cold War* Matthew Farish, 2010 *The Biology of Flight (a Text for High School Students)*. **To Fill the Skies with Pilots** Dominick Pisano, 1993 This book examines an area of Franklin D Roosevelt s aviation policy the Civilian Pilot Training Program CPTP Extending from 1939 to 1946 the CPTP was the first government attempt to use American colleges and universities as settings for training large numbers of pilots More important the CPTP was a multipurpose program conceived by Robert H Hinckley head of the Civil Aeronautics Authority to serve as a New Deal economic panacea for private flying then a neglected segment of the aviation industry and as a bulwark in the national

defense by providing trained pilots On another level it was a means of preparing American youth for the emerging air age Dominick Pisano traces the sometimes colorful always interesting story of the program from its initial stage of satisfying expectations based largely on civilian goals through criticism that it was not contributing to military objectives before World War II to censure by the Army Air Force during the war for not meeting agreed on training quotas Ironically the CPTP trained thousands of military pilots during the war then languished and died for lack of funding a victim of ill defined expectations     **More Books** Boston Public Library, 1943
