Leadership is not just reserved for a select few individuals at the top of a business, church, political party, or school. Rather, it is something that is obtainable by everyone who works hard for it. Whenever you are guiding other people or directing their actions, thoughts, and opinions, you are really leading them. Those who are being guided are considered to be followers at that particular moment. In order to guide followers consistently over time, an individual must learn to develop the skills necessary to become a special type of leader: a life leader. A life leader is someone who leads in every aspect of his or her own life so effectively that others, when they come into contact with him or her, are motivated to action and inspired to follow. The key to becoming a life leader is to work on every aspect of one's own life, first using a holistic approach. The important parts that are dependent upon each other to make up the holistic approach are the spiritual, emotional, mental, physical, and social aspects. You will learn how to develop these five aspects as well as find your passion in order to become a life leader that others want to follow.

Exploring Great Leadership R. Lynn Wilson, 2012-11 Just like you don't have to be a CEO to be a great leader, you don't have to be a great leader to achieve personal success. I have said that income, wealth, position, and status are not measures of great leadership. They are not measures of personal success either. Personal success is achieved through honoring and

respecting those around you including family friends fellow employees and others always being ethical at work and in your personal life channeling your motivation and desires toward specific career and personal goals which are compatible with your mental being and being willing to pay the price of achieving those goals through sacrifice and hard work Those who do that will find their niche for success and achieve it Another significant point I want to make is the importance of enthusiasm and a positive attitude to achieve that success especially when things are not going exactly as you envisioned or planned which will inevitably happen Most leadership books share ten steps for success five things to never forget and other such formulas Someone who wants to become a great leader must truly understand the psychology and practice of great leadership Leadership ability is obtained by having the necessary psychological makeup knowing one's self love of work honoring others personal sacrifice and having fun in the workplace Ignoring minimizing or mismanaging the human side of management creates suspicion fear and failure in the workplace Take a practical look at leadership from the inside of an organization and discover how to build positive and effective relationships Whether you're a great leader striving to be better someone wanting to be a great leader or an individual seeking to achieve your personal and professional dreams in life you can find the inspiration to accomplish your goals through Exploring Great Leadership Leadership Unlocked Yan Maschke, 2021-02 Overview Even with the best intentions business leaders find it difficult to make measurable behavior changes to create effective long term growth In this book award winning executive coach Yan Maschke declares that the most effective leaders use more than just the Mind to reach their full potential They embrace Embodied Leadership a leadership approach that actively integrates the holistic intelligence of the Body and Mind to increase leadership effectiveness impact and fulfillment Drawing on 25 years of experience as a corporate executive management consultant executive coach and strategic advisor Maschke uses her cross cultural life experience to bring an integrative Mind Body approach that delivers proven results By working with the Body and Mind in cultivating their BEING inner game leaders can deepen self awareness By working with the Body and Mind in cultivating their DOING outer game leaders can accelerate real change Details This book offers practical applications to address real life leadership challenges while referencing modern neuroscience and ancient wisdom In her engaging story telling style Maschke highlights eight case studies of successful leaders enhancing their Embodied Leadership She shows how they used the leadership strategies and practices to become better leaders and happier people Leaders learn how to connect with their authentic self develop emotional intelligence enhance executive presence drive change learn impulse control listen powerfully think and act strategically and lead through delegation Each case study is followed by an Embodied Leadership Practice that can be put into use right away Filled with artistic illustrations this easy to read business book is designed to delight the eye and can be read in a single sitting though the concepts and practices will remain with the reader for the rest of her career This book is for leaders who are tired of the same old tools and are interested in creative yet proven ways to achieve better leadership results while feeling whole
