Early High Christology Christopher M Blumhofer, Diane G Chen, Joel B Green, 2024-10 Over the past forty years scholarship on John's Gospel has explored its theological vision and literary coherence Marianne Meye Thompson's scholarship has contributed richly to this field of study Here some of today's top scholars advance our understanding of the Fourth Gospel by studying its relationships to other biblical texts The Beethoven Collection of Sacred Music, comprising themes from the works of Beethoven ... and original Tunes, Chants and Anthems ... harmonized by E. Ives, W. Alpers, and H. C. Timm. New edition E. Ives, 1855 *The Church in a World of Religions* Tom Greggs, 2021-12-16 In this collection of essays Tom Greggs explores the nature of the church in a world of many religions Greggs' writings on the Church and on other religions emphasize the importance of attentiveness to Christ and the Holy Spirit and both are simultaneously generous and particularist The first part of the book addresses the Church as it is brought into being by the Spirit in glorifying God celebrates the sacraments respects the authority of the creeds is generously Catholic and critiques its own religion The second part looks at the church in a pluralist context as it engages in interfaith dialogue expresses both particularism and universalism speaks of Christ with many names and reads scripture and understands the many covenants found there Greggs offers a programmatic conclusion setting an agenda for theologies of the church and of other religions and their simultaneous relationality *The Second Epistle to the Corinthians* Paul Barnett, 1997-04-17 This statement reflects the underlying purpose of The New International Commentary on the New Testament Begun in the late 1940s by an international team of New Testament scholars the NICNT series has become recognized by pastors students and scholars alike as a critical yet orthodox commentary marked by solid biblical scholarship within the evangelical Protestant tradition While based on a thorough study of the Greek text the commentary introductions and expositions contain a minimum of Greek references The NICNT authors evaluate significant textual problems and take into account the most important exegetical literature More technical aspects such as grammatical textual and historical problems are dealt with in footnotes special notes and appendixes Under the general editorship of three outstanding New Testament scholars first Ned Stonehouse Westminster Theological Seminary Philadelphia then F F Bruce University of Manchester England and now Gordon D Fee Regent College Vancouver British Columbia the NICNT series has continued to develop over the years In order to keep the commentary new and conversant with contemporary scholarship the NICNT volumes have been and will be revised or replaced as necessary The newer NICNT volumes in particular take into account the role of recent rhetorical and sociological inquiry in elucidating the meaning of the text and they also exhibit concern for the theology and application of the text As the NICNT series is ever brought up to date it will continue to find ongoing usefulness as an established guide to the New Testament text **The Works of John Owen** John Owen, 1851 **The Christian Observer**, 1814 **The Cross of Christ** John Stott, 2006-08-31 Why should the cross an object of Roman distaste and Jewish disgust be the emblem of our worship and the axiom of our

faith And what does it mean for us today In this thoughtful comprehensive study of Scripture tradition and the modern world John R W Stott brings you face to face with the centrality of the cross in God s plan of redemption **The Parable of the Ten Virgins, Opened and Applied** Thomas Shepard,1797 *Christ All, and in All; Or, Several Significant Similitudes by which the Lord Jesus Christ is Described in the Holy Scriptures ...* Ralph Robinson (Puritan Divine.),1868 **Dissertation of the end for which God created the world. relevance to the modern world these struggles range from the ancient past to the present day and span the globe many times over Some of the battles in this book are familiar to us all Bunker Hill which prevented the American Revolution from being stillborn and Marathon which kept the world s first democracy alive Others may be less familiar the naval battle at Diu on the Indian Coast which led to the ascendancy of Western Civilization and the discovery of America and Yarmuk which made possible the spread of Islam from Morocco to the Philippines With remarkable accounts of both famous and lesser known clashes 50 Battles That Changed the World provides impressive insight into the battles that shaped civilization as we know it
