Go To It The Illustrated History Of The 6th Airborne Division:

"Go to It!" Peter Harclerode,1990-01-01 Om den britiske 6 luftb rne division og bl a om dens luftlands tning ved Arnhem i 1944 **"Go to It!"** Peter Harclerode,2000-01 On 23rd April 1943 the War Office laid down a phased programme for the formation of what was to become one of the most renowned divisions in the history of airborne forces the 6th Airborne Based on a wide variety of sources including eyewitness accounts by former members of the division this superbly and profusely illustrated volume covers in detail the history of this remarkable force and the equally remarkable men who served in it The 6th Airborne Division was one of the most famous fighting formations of the British Army Go To It is the gripping account of a story which has not been told until now **US Airborne Tanks, 1939-1945** Charles C. Roberts,2021-03-23 This book explores the design and deployment of American airborne tanks from the earliest concepts to their actual use From their first introduction at the Battle of the Somme in the First World War tanks proved to be one of the most important military developments in the history of warfare Such was their influence on the battlefield both as infantry support and as an armored spearhead their presence could determine the outcome of any battle Another significant development during the 1930s was that of airborne forces with a number of countries experimenting with air dropped troops Such a concept offered the possibility of inserting soldiers behind the front lines to sow fear and confusion in the enemy s rear However such troops parachuting from aircraft could only be lightly armed thus limiting their effectiveness It is understandable therefore that much thought was given to the practicalities of airlifting tanks that could be dropped or deposited alongside paratroopers Tanks though are heavy cumbersome vehicles and before there could be any thought of carrying them by air much lighter models would have to be produced Charles Roberts fascinating book opens with an investigation into the efforts in the 1930s by Britain the Soviet Union and the USA into the development of or adaptation of light tanks for airborne operations It was inevitably the start of the Second World War which accelerated efforts to produce an airborne tank and the means of delivery The use of conventional powered aircraft to carry the tanks limited their use to existing airfields which negated their employment with airborne troops landing in the open countryside Another method of delivery had to be found and this took the form of the glider which could be landed in a field behind enemy lines The combination of light tank and glider made the aim of airborne forces being supported by armor a realistic proposition and as a result the 28th Airborne Tank Battalion was born This detailed and comprehensive study deals with every aspect of design and deployment of American airborne tanks from the earliest concepts to their actual use by British units on D Day and during Operation Varsity the Rhine crossing

Air War Varsity Martin W. Bowman, 2017-10-30 Here Martin Bowman brings us the first book on Operation Varsity to include both British and US air and ground operations as well as the US British and Canadian paratroop and resupply missions all presented together in one ambitious volume Operation Varsity Plunder the last large scale Allied airborne operation of World War II was certainly no walk over Varsity was the airborne part whilst Plunder represented the British amphibious operations by the British Second Army The airlift consisted of 541 transport aircraft containing airborne troops and a further 1 050 troop carriers towing 1 350 gliders The American 17th Airborne Divisions C 46 Commando transports and Waco gliders joined the British 6th Airborne Division C 54s C 47 transport aircrafts Horsas and Hamilcar gliders to form an immense armada that stretched for more than 200 miles across the sky The successful air attack involved more than 10 000 Allied aircraft and was concentrated primarily on Luftwaffe airfields and the German transportation system The combination of the two divisions in one lift made this the largest single day airborne drop in history In this impressive account Martin Bowman weaves firsthand testimony and a compelling historical narrative together with a variety of photographic illustrations many of which have never been published before in order to create a complete and fascinating record of events as they played out in March 1945

The Rhine Crossings 1945 Ken Ford, 2011-03-15 A highly illustrated account of the crossings of the great river which Churchill called The last great heave of war No invading army had crossed the Rhine since Napoleon s in 1805 and the task fell to Field Marshal Montgomery s 21st Army Group in 1945 Opposing them were the forces of a failing fascist regime including battalions of old men and boys strengthened by several formations of crack troops including paratroopers and Panzer Grenadiers With an elaborate description of the combined Allied attack second in magnitude only to the Normandy invasion this book charts the history of the last great set piece battle of the war that ultimately brought the defeat of Hitler s Nazi regime one step closer

The British Field Marshals, 1736-1997 T. A. Heathcote, 2012-10-24 Whether any advantage or benefit will be drawn from the suspension or effective abolition of the rank of Field Marshal is debatable What is certain however is that Dr Tony Heathcotes idea of compiling a definitive biographical dictionary of holders of this illustrious rank since its introduction by George II in 1736 is opportune and inspired Those readers who anticipate a dry recitation of bare facts and statistics are in for a disappointment A reference work this may be but the author by dint of his depth of knowledge has created a shrewd and highly readable commentary as well As General Sir Charles Guthrie the first soldier to be denied promotion to Field Marshal on appointment to Chief of Defense Staff observes in his Foreword this book embraces the history of the British Army over the last 250 300 years It covers not only the careers of key individuals but provides an understanding of their contribution to the successes and failures of our military past The diversity of personalities who have only the honor of wearing the coveted crossed batons in common is fascinating Alongside the household names of the great strategists and distinguished leaders lie little known

and forgotten figures who gained their exalted rank by either luck accident of birth or diplomatic gesture The British Field Marshals merits a place on the bookshelf of any military historian but is likely to be found on his or her bedside table Whether or not the rank is ever resurrected as it has been in the past and as many will hope it will be again this delightful and useful book will remain the authoritative guide to all those who have held the highest military rank in the British Army

Ever Glorious John Greenacre,2016-08-23 The Crookenden brothers Henry Napier and Spencer were born into a military dynasty Their father Arthur was a renowned Cheshire Regiment officer and had served as a Brigade Major in Gallipoli and on the Western Front during the First World War Napier followed in his father s footsteps becoming an officer in the Cheshire Regiment and saw action during the Arab Revolt in Palestine in 1936 On the outbreak of the Second World War Napier s brothers followed him into the army for war service Henry in the Queen s Westminster Rifles and the King s Royal Rifle Corps and Spencer in the Royal Engineers Spencer and Henry s wartime service took a different course to their brother While Napier languished in a succession of unrewarding posts in Great Britain his brothers fought across North Africa and into Italy Napier desperate to see action joined the new airborne arm and as a Brigade Major arrived in Normandy by glider on D Day Promotion followed rapidly and he took over a parachute battalion before returning to England As the pace of the war increased Napier found himself continually in the front line His battalion fought in the Battle of the Bulge and he parachuted at its head during the Rhine crossing operation Napier pursued the German Army across its homeland reaching the Baltic where he finished the war facing down the Russian Army in Wismar on VE Day With the war over the brothers fortunes once again took different paths Henry and Spencer left with the effects of wounds and illness sustained during the war and returned to civilian life to pursue full careers and lives Napier stayed with the army and saw operational service in Palestine once again and Malaya He retired in 1972 as a three star General *Ever Glorious* is written through the letters exchanged between Henry Napier Spencer and their father Arthur The book takes the reader from Gallipoli to the Baltic North Africa to the Ardennes Normandy to Palestine and from Italy to Malaya Often gripping sometimes amusing and always insightful these letters reveal the experiences thoughts and emotions of a family involved in war across the 20th century

The Paras - The Inside Story of Britain's Toughest Regiment John Parker,2012-08-06 Since their foundation during the Second World War the Parachute Regiment has acquired a formidable reputation as tough fearless soldiers The Red Devils have played a key role in many of the battles of the past sixty years the capture of Sicily the D Day landing the heroic but doomed attempt to capture the bridge at Arnhem In the savage wars of peace since the Second World War the Paras have seen action all over the world from Cyprus Palestine Egypt Borneo and the Falklands to Bosnia For his authoritative book John Parker has gathered together the testimony of numerous veterans of the Parachute Regiment Their first hand accounts of the major events in their history make enthralling reading bringing home the reality and cruelty of combat *Quarterly Review of Military Literature* ,1992 **Men of Steel** Bernd Horn,2010-05-03 Take a trip back in time to the chaos and

destruction of the greatest invasion in military history viewed through the lens of Canadian paratroopers Men of Steel is the exciting story of some of Canada's toughest and most daring soldiers in the Second World War In the dead of night on 5 6 June 1944 hundreds of elite Canadian paratroopers hurled themselves from aircraft behind enemy lines That daring act set the stage for the eventual success of the Allied invasion fleet From aircraft formations striking out from England on a turbulent flight across the English Channel to the tumultuous drop over Occupied Europe and deadly close combat in the Normandy countryside Men of Steel is a detailed account of Canadian paratroopers and their instrumental role in D Day

Fighting Brigadier Peter Harclerode,2010-10-30 In the 1930s James Hill was forced to leave the Army because he was under 26 when he married Recalled to the colors he won his MC with the BEF in 1940 He was one of the first to volunteer for airborne forces and became second in command of 1 PARA He was in the thick of the expansion of Airborne forces in 1941 42 and took command of 1 PARA in North Africa winning his first DSO He converted 10th Bn The Essex Regiment to 9 PARA and later in 1943 took command of 3 Parachute Brigade playing a major role in the D Day Landings Wounded twice his Brigade captured the key Merville Battery The Brigade recovered to England in September 1944 before returning to Europe to contain the German winter Bulge offensive In March 1945 his Brigade played a key role in the Rhine Crossing and raced east to block the Russian advance on Denmark Post war Brigadier Hill was a leading figure in the Parachute Regiment and revered by fellow Paras He died in 2006

D-Day: The First 72 Hours William F Buckingham,2004-05-01 The Allied invasion of occupied France began by delivering three airborne and six infantry divisions onto a 60 mile stretch of the Normandy coast Accomplishing this involved over 1 200 transport aircraft 450 gliders 325 assorted warships and more than 4 000 landing vessels The first 72 hours of the D Day invasion were pivotal from the initial airborne landings in the early hours of Tuesday 6 June 1944 we follow the Allied attackers and their German opponents hour by hour as they fought until fresh units began to take over from Thursday 8 June 1944 William F Buckingham's astounding history finally lays to rest the myths surrounding the Normandy invasion He contradicts the popular perception that the American OMAHA landing force suffered disproportionately In fact the fighting on the British and Canadian beaches GOLD SWORD and JUNO was no less

intense and the cost was much closer to that of OMAHA than is commonly thought The reality of D Day was that a devastating number of men from all sides of the Allied forces who landed on the beaches that day would never set foot on their native soil again

Churchill's Spearhead John Greenacre, 2010-06-19 This book covers the inception growth and employment of Britains airborne forces parachute and glider borne formations between June 1940 and March 1945 It takes a comparative approach and follows tailored lines of development Each of these lines politics and policy equipment and technology personnel and training command and control and concepts and doctrine influence each other The contents include Politics and Policy The political environment within which the major decisions were made concerning the concept of development of Britains airborne forces Churchills personal contribution the effect of inter service rivalry and the influence of other government departments Equipment and Technology The methods and obstacles of procuring and supplying the bespoke equipment required by airborne forces The supply of combat equipment the provision of support aircraft and the procurement of gliders Personnel and Training The effort incurred to man the new force and the effect of different approaches to recruitment and training The selection and recruitment of airborne personnel the individual training of paratroops and glider pilots and the role of collective training prior to operations Command and Control The ability of individuals in key appointments to influence the path of development and the operational and tactical employment of the force The reaction and approach of higher commanders to the new capability the selection and impact of commanders within the airborne force and the influence of the airborne staff Concept and Doctrine Examines the manner in which Britains airborne forces were employed and performed on operations in the Mediterranean and northwest Europe How the development of the airborne concept was influenced by physical constraints equipment and personnel the ideas of higher commanders and the German example The impact of individual commanders and physical limitations
