Ecology Of Care:

The Ecology of Care Didi Pershouse, 2015-12-10 What can Cuban doctors innovative ranchers in Saskatchewan and the microbiome teach us about how to care for people and the Earth at the same time In this richly layered book Didi Pershouse takes us on a fast moving sharp witted journey through her own life from growing up with the neurosurgeon who accidentally discovered the seat of memory in the brain to working in a smoke filled office at New York magazine to her career as an innovative acupuncturist in Vermont and on to a passion for close knit communities grazing cows and soil restoration as solutions to much of what ails us Along the way she unfolds a surprising new take on the story of our time how the germ theory of disease joined with a profit based economy and unwittingly led to a sterilization of medicine agriculture and even our social lives This 150 year detour has brought about the near destruction of our climate as well as a great forgetting of the power of connection By documenting a scientific understanding of the intelligence of the whole Pershouse nudges us awake with a hopeful view and shows us how to reclaim the rich fertile lives we are meant for

Ecology of Care Robert C. Fuller, 1992 Using an interdisciplinary approach to help readers understand the human self and its place within the world Fuller examines how and why the quest for individual gratification must include a willingness to care for the larger environments

Slow Ethics and the Art of Care Ann Gallagher, 2020-05-21 The path to good care giving can be challenging particularly where practices are characterised by crisis moral panic and cultural complexity How can we respond ethically when there is pressure to meet targets work faster and implement quick short term fixes This book offers a solution in the form of slow ethics

Pope Francis and the Transformation of Health Care Ethics Todd A. Salzman, Michael G. Lawler, 2021-06-01 Inspired by the teachings of Pope Francis Salzman and Lawler provide the first extended critical commentary on the 2018 Ethical and Religious Directives for Catholic Health Care Services ERD proposing new ways forward for US Catholic health care ethics that prioritize human dignity as their guiding principle

The Evolution of Parental Care Nick J. Royle, Per T. Smiseth, Mathias Kölliker, 2012-08-09 Parental care includes a wide variety of traits that enhance offspring development and survival This novel book provides a fresh perspective on the current state of the study of the evolution of parental care written by some of the top researchers in the field and taking a broad taxonomic approach

Self-determination in Health Care Leroy C. Edozien, 2016-03-03 It is generally accepted in legal and bioethical discourse that the patient has a right to self determination In practice though this is often not the case Paternalism is waning and it is increasingly recognised that there are values other than medical factors which determine the choices that patients make Unfortunately these developments have not resulted in huge advances for patient self determination which is largely because the consent model has fundamental flaws that constrain its effectiveness This book sets out to offer an alternative model to consent In the property model proposed here the patient's bodily integrity is protected from unauthorised invasion and their legitimate expectation to be provided with the relevant information to make an informed decision is taken to be a

proprietary right It is argued that the property model potentially overcomes the limitations of the consent model including the obstacle caused by the requirement to prove causation in consent cases The author proposes that this model could in the future provide an alternative or complementary approach for the courts to consider when dealing with cases relating to self determination in health care **Oxford Textbook of Public Health Palliative Care** Julian Abel, Allan Kellehear, 2022

Death dying loss and care giving are not just medical issues but societal ones This volume explores the adoption of public health principles to palliative care including harm reduction early intervention health and well being promotion and compassionate communities *Oxford Textbook of Primary Medical Care* Roger Jones (Prof.), 2005 **Organizational Behavior, Theory, and Design in Health Care** Nancy Borkowski, Katherine A. Meese, 2021-03-17

Organizational Behavior Theory and Design Third Edition was written to provide health services administration students managers and other professionals with an in depth analysis of the theories and concepts of organizational behavior and organization theory while embracing the uniqueness and complexity of the healthcare industry Using an applied focus this book provides a clear and concise overview of the essential topics in organizational behavior and organization theory from the healthcare manager s perspective The Third Edition offers New case studies throughout underscore key theories and concepts and illustrate practical application in the current health delivery environment In depth discussion of the industry s redesign of health services offers a major focus on patient safety and quality centeredness and consumerism Current examples reflect changes in the environment due to health reform initiatives And more *A Paradigm of Care* Robert Stake, Merel Visse, 2021-01-01

Remember the pots hammered by spoons from high Manhattan windows and parades of cars and pick up trucks holding dear the medical professionals responding to covid 19 This book is part of that chorus that march to express appreciation for the giving of care And beyond doctors and nurses bless their hearts to mothers caring for their babies for captains for their teams for the soon to be widowers for their wives and teachers for their students but also for the ranchers for their cattle and the contemplative world for our environment This is a book to think more closely of the support for care individual as it so often will be to be woven more closely together in a paradigm of care Care is always prominent Care for others of the family care for those of the tribe care for animals and homes and gardens and properties self care And the purse Even without teaching compensation or legislation care survives but even with these helpings it falls short of the need We live in a crisis of care Thinking explicitly and beyond health care There is no mechanism of state and conscience that delivers care to all the venues of need and seldom in the amounts needed The reservoirs of care are far from empty but at a mark that needs topping up There is need for care advocacy a care ethic a paradigm This book is about that paradigm A care paradigm may bring comfort and recovery more fully to the people and organic creations of the world The paradigm hears the moan of indifference It draws upon the eyes of the heart The paradigm is about how we see the need for care The care paradigm the grand beholding is manifest in how we provide for others how we nurture them give succor how we are disposed and are not

to sacrifice to relieve their hurt It is not only caring for those visibly needing care unable to care for themselves but caring for all It is having a disposition that the hurts large and small that all of us carry arouse concern and appreciation from and for each individual the community and the world Researching Care with Case Studies Robert Stake,Merel

Visse,2025-07-25 Researching Care with Case Studies offers a fresh perspective on the universe of care practices using case studies to illuminate their stretch and complexities Building on Robert Stake s foundational work with qualitative methods and Merel Visse s integrating insights from care studies this book offers a comprehensive approach to understanding care across various fields It bridges the gap between research methodology and professional and personal realities and concerns of care Readers will benefit from insights derived from care ethics and theory which highlight relationality shared responsibility intersubjectivity and vulnerability in dynamic interactions within care settings extending beyond healthcare altogether This practical approach offers an inclusive and adaptable understanding of care case studies Here care is broadly defined as encompassing all that is done to enhance personal and other well being including shared responsibilities responsiveness to evolving needs and the ongoing negotiation of optimal solutions Step by step this book guides both novice and experienced researchers in prioritizing issues and concerns context specific details relationships the richness of lived experiences and personal narratives when studying and advancing care It provides insights into the strengths of case studies in learning about care and supports a more nuanced responsive approach to research in everyday ordinary practices The

New Public Health Theodore H. Tulchinsky,Elena A. Varavikova,2009 Linking classical public health and intervention with evolving healthcare strategies and policies for the 21st century The New Public Health provides a broad perspective on current issues the kinds of solutions expectations needed in the future **Education** Rudolf Steiner,2013-04-16 A social basis for education The spirit of the Waldorf school Educational methods based on anthroposophy The child at play Teaching from a foundation of spiritual insight and education in the light of spiritual science The adolescent after the fourteenth year Science art religion and morality The spiritual grounds of education The role of caring in education The roots of education and the kingdom of childhood Address at a parents evening Education in the wider social context **Encountering**

Artificial Intelligence Matthew J. Gaudet,Noreen Herzfeld,Paul Scherz,Jordan J. Wales,2024-03-15 What does it mean to consider the world of AI through a Christian lens Rapid developments in AI continue to reshape society raising new ethical questions and challenging our understanding of the human person Encountering Artificial Intelligence draws on Pope Francis s discussion of a culture of encounter and broader themes in Catholic social thought in order to examine how current AI applications affect human relationships in various social spheres and offers concrete recommendations for better implementation The document also explores questions regarding personhood consciousness and the kinds of relationships humans might have with even the most advanced AI Through these discussions the document investigates the theoretical and practical challenges to interpersonal encounter raised by the age of AI **Infectious Diseases in Critical Care** Jordi

Rello,2007-03-20 Critical care practitioners are often the initial providers of care to seriously ill patients with infections This book provides clinicians practicing in the intensive care unit with a reference to help guide their care of infected patients It brings together a group of international authors to address important topics related to infectious diseases for the critical care practitioner

Performing care Amanda Stuart Fisher,James Thompson,2020-03-26 This electronic version has been made available under a Creative Commons BY NC ND open access license This edited collection brings together essays presenting an interdisciplinary dialogue between theatre and performance and the fields of care ethics care studies health and social care The book advances our understanding of performance as a mode of care challenging existing debates in this area by re thinking the caring encounter as a performed embodied experience and interrogating the boundaries between care practice and performance Through an examination of a wide range of different care performances drawn from interdisciplinary and international settings the book interrogates how performance might be understood as caring or uncaring careless or careful and correlatively how care can be conceptualised as artful aesthetic authentic or even fake and staged *The Ecology of Medical Care* Kerr L. White,T. Franklin Williams,Bernard G. Greenberg,1996 **Medical Care Review** ,1991

Environment and Children Christopher Day,Anita Midbjer,2007-08-31 How does the built environment affect children their health their behaviour education and development To support them what do we need to consider and what do we need to do Can our surroundings foster environmental and social awareness and responsibility Based on Christopher Day s experiences designing schools and early childhood centres in the United States and Britain this groundbreaking book sets out to answer these questions and to offer solutions Children all too often find themselves living in alien surroundings designed with the needs of adults in mind cut off not just from the natural environment but also childhood itself Society s reaction to cocoon children from the outside world or to resort to drugs to control behaviour fails to address the fundamental causes of problems which lie in the environment not the children themselves One of the world s leading thinkers on the impact of buildings on people Christopher Day s insights offer new light on one of the most important issues for today s society
