The Other Argentina Larry Sawers, 2018-02-07 In the early part of this century Argentina was one of the most affluent nations in the world. Since then the Argentine economy has experienced long periods of stagnation and recession. Larry Sawers links the country's economic failure to the backwardness of the interior which comprises 70 percent of the area of the country and in which nearly one third of the population resides. The interior's poverty, according to Sawers, is caused by the scarcity of agricultural resources and by serious inequalities in the distribution of those resources. The region's poorly endowed land has been degraded through abuse and overuse and most farmers work tiny unproductive plots. Moreover, most of the products of the interior are produced for highly protected domestic markets and face stiff competition and falling prices in world markets. Recent reforms in Argentina have dramatically aggravated the economic crisis of the interior. Sawers shows how the poverty of the interior has contributed to the dismal performance of the Argentine economy as a whole. He emphasizes the deleterious effects of extensive emigration from the interior to the major urban areas that are unable to absorb the human tide. Additionally, the national government has taxed the more prosperous regions in order to subsidize the interior, placing a severe drain on the federal government budget and worsening inflation. The effects of the interior's poverty on the nation are also political. Sawers argues that the backward political system in the interior exacerbates the worst features of the national political culture and governance which in turn pose profound obstacles to economic progress.

Challenging Inequities in Health Timothy Evans, Margaret Whitehead, Finn Diderichsen, Abbas Bhuiya, Meg Wirth, 2001-05-31 There is a growing sense that the health gap between socioeconomic groups is getting worse in many countries. To address this gap, conceptual clarity and empirical evidence are needed along with a greater focus on equity in policy making. This book is designed to present cutting edge research and policy analysis to a wide non-specialist readership of students, professionals and policy makers. It brings together in one volume new perspectives on the conceptual foundations of health equity, empirical evidence on the scale and nature of the inequities in health in twelve countries around the world and assessments of the associated policy developments and their implications for the future. It aims to help build global capacity to measure, monitor and interpret developments in health equity at a national and international level. The in-depth country analyses draw on epidemiology, demography, economics and other fields to approach health inequalities from several different angles. The topics covered range from adolescent livelihoods in Tanzania to the health burden of indigenous peoples in Mexico, from health equity in Japan to the gender gap in life expectancy in Russia. The book is a unique demonstration of global cooperation in bringing together and giving equal weight to work on health equity carried out in the southern and northern hemispheres.

Economía ecológica: reflexiones y perspectivas Santiago Álvarez Cantalapiedra, Óscar (ed.) ...y otros Carpio, 2009-03-09 La

economía ecológica proporciona una visión de las relaciones entre la economía y la biosfera y se alía a la tensión que existe entre la escala que ha alcanzado la actividad económica y la conservación de la naturaleza. Este enfrentamiento entre la evolución expansiva de la economía y el medio ambiente da lugar a conflictos distributivos de carácter eco-social. Toda decisión económica viene precedida de una pugna distributiva y el desarrollo posterior de cualquier actividad tiene implicaciones en el reparto no sólo del valor económico sino también de los costes sociales y ambientales asociados a ese proceso. En este sentido los problemas ambientales son el fruto de una desigualdad en la apropiación del espacio ambiental y en la toma de decisiones. Están quienes en función de su posición social y de las tareas que desempeñan gestionan de los ámbitos cultural, financiero, político y militar tienen posibilidad de tomar decisiones que afectan a todos y hay también una amplia mayoría desposeída de la capacidad de alterar las decisiones de los primeros. Por ello las responsabilidades en el deterioro ambiental no son equiparables como tampoco son comparables los efectos que sobre los diferentes grupos de población se derivan de ese deterioro.

Atención médica frente a la economía y la diversidad Salinas Gabiña, Irene, 2015-05-14. Querer beneficiar a los inmigrantes de un trato equivalente a los españoles en materia de asistencia sanitaria e intentar no perjudicar el derecho a la prevención de la salud a los que poseen una garantía constitucional efectiva son las dos fuentes que generan toda la acción legislativa de la equidad. Si no se tiende a la igualdad de derechos sanitarios para los residentes extranjeros estaremos generando anomalías en la democracia. El marco normativo existente en España en el momento actual respecto a la salud del inmigrante proporciona unas condiciones de acceso a la asistencia sanitaria de los extranjeros condicionadas por problemas de difícil solución respecto a los criterios de interpretación basados en los principios de universalidad e igualdad. Irene Salinas Gabiña 1969. Licenciada en Medicina y Cirugía por la Universidad Autónoma de Madrid. Especialista en Medicina Intensiva. UCI Hospital Universitario del Henares. Máster en Derechos Fundamentales, especialidad en Derechos Humanos y Bioética.

Economía, derecho y empresa ante una nueva era: digitalización, IA y competitividad en un entorno global, 2024-07-08. Nos enfrentamos a un entorno marcado por un acelerado desarrollo tecnológico, volatilidad económica, transición energética, inestabilidad política y conflictos geoestratégicos. Un entorno desde el más cercano hasta el global en el que surgen nuevos escenarios con cambios inesperados e inestables, consecuencias impredecibles, multitud de factores interconectados y un cierto y extendido desconocimiento de las reglas de juego. Todo ello sin duda nos conduce a un periodo de gran incertidumbre e inestabilidad tanto a nivel económico como social e institucional.

Economía, complejidad y vida Caro Ramírez, Edgar Ernesto, 2021-05-11. Economía, complejidad y vida es el primer libro sobre el tema en lengua española. La tesis que sostiene es que la economía debe ponerse al servicio de la vida y no al revés. Los ejes que tejen a este libro oscilan como una especie de contrapunteo musical entre la obra de Morin y la de Maldonado, entre el pensamiento complejo y las ciencias de la complejidad. He aquí un trabajo cuidadoso, sincero, honesto y bien intencionado que abre una nueva perspectiva acerca de las relaciones entre economía y sociedad. Un texto que da qué hablar y permitir nuevos desarrollos.
