Economic Growth And Employment In China:

Economic Growth and Employment in China Thomas G. Rawski, 1979 Investigating the relation between growth and employment in China this report shows that over the past two decades the world's largest developing nation made significant strides towards the goal of full employment of its labor force by the ability of the agricultural sector to absorb the unemployed

Employment and Economic Growth in Urban China 1949-1957 Christopher Howe, 1971-07-02 A study of China's urban employment problems between 1949 and 1957 Its main objectives are to analyse the size and determinants of urban employment change and to trace the evolution both of Chinese thinking about employment and the institutions of labour control that reflected this thinking in day to day administration

China's Labor Market Performance and Challenges Mr. Ray Brooks, Tao Ran, 2003-11-01 A more market oriented labor market has emerged in China in the past twenty years with growing importance of the urban private sector as state owned enterprises have downsized Despite the progress on reforms a sizable surplus of labor still exists in the rural sector and state owned enterprises The main challenge facing China's labor market in coming years is to absorb the surplus labor into quality jobs while adjusting to World Trade Organization WTO accession This paper estimates that if annual GDP growth averages 7 percent and the employment elasticity is one half urban unemployment could double to about 10 percent over the next three to four years These pressures would be limited by stronger economic growth especially in the private sector and more labor intensive service industries which have generated the most jobs in recent years Therefore policy should focus on encouraging private sector development while reducing barriers to labor mobility improving worker skills upgrading job search services and strengthening the social safety net

The Turning Point in China's Economic Development Ross Garnaut, Ligang Song, 2006-08-01 Focuses on China's long term pattern of growth and employment demographic shifts and rural urban migration its agricultural trade and local elections China's banking sector reform and its fiscal sustainability its environmental concerns and much more

China's Remarkable Economic Growth John Knight, Sai Ding, 2012-04-12 China's economy has been growing at ten per cent per annum for the last three decades This book considers one of the biggest questions facing contemporary economists why and how is the Chinese economy growing so fast

China's Economic Development Cai Fang, 2022-10-20 Cai Fang is one of China's most distinguished economists This book elucidates the worldwide significance of China's economic development over the past 70 years from the perspectives of economic history and growth theory The Chinese economy has undergone an unprecedented period of growth and development since the reform and opening up in the late 1970s a process which the hallmarks of neoclassic economic theory have often proved inadequate to explain Examining the Chinese economy in the light of Chinese history and the development of the world economy as a whole the book charts the milestones and critical reforms of China's economic development providing insights into unique attributes as well as more generic patterns The discussion covers multiple hot topics in the field including the so called Great Divergence dual sector economic

development real world experience of the reform and opening up rural reform urbanization economic reform poverty reduction the latter day slowdown of China's economic growth and China's role in and response to globalization global supply domination and other headwinds The book will be a must read for students scholars and general readers interested in the Chinese economy economic development political economy and development economics Economic Growth and Income Distribution in the Development of China's Dual Economy Wang Dihai, 2023-02-28 Since the start of the process of economic reform in 1978 China has maintained the structure of a dual economy with concurrent development of the agricultural and industrial sectors This book explores the key issues of China's economic growth and income distribution in this context Pivoting on analysis of China's real GDP and growth rate the first part of the book analyzes the evolution of economic growth and characteristics of economic structural changes across a period of forty years scrutinizing the different determinants that contribute to growth Then chapters in the second part of the volume study the relationship between China's economic growth and economic development elucidating the mechanism of interaction between the former and key factors of the latter including investment housing education and healthcare The final chapters center on the development and current landscape of income distribution providing explanation for sharpening income inequalities and advancing suggestions and feasible solutions to the problem of income gap This book is targeted at scholars students and policymakers interested in China's economy income distribution and economic growth **Macro-control and Economic Development in China** Jiagui Chen, 2016-09-01 This book together with Economic Development and Reform Deepening in China is a collection of papers written in recent years about maintaining economic growth managing inflation the relationship between growth and structural adjustment control of price growth maintaining stable economic development and other relevant aspects of macro control economic development and deepening reform Chinese government adopts many of the recommendations put forward by the book **China's Employment Challenges and Strategies After the WTO Accession** Douglas Zhihua Zeng, 2005 Although China has made impressive progress in economic development and improving social well being it is facing many daunting challenges while transforming toward a knowledge and service based economy and further opening up to international competition after its WTO accession in the context of knowledge revolution One of the biggest challenges is how to create 100 300 million new jobs in the coming decade to absorb the millions of laid offs rural emigrants and newly added labor force China has been successful in building high technology parks and information and communications technology ICT industries but they are limited in terms of employment generation while most of the traditional labor intensive industries are losing competitiveness due to low productivity To combat the unprecedented employment challenge China must implement a systemic and sustained strategy Cover verso **ECONOMIC GROWTH AND INDUSTRIAL STRUCTURE EVOLUTION** LIU WEI, 2019-12-09 The book Economic Growth and Industrial Structure Evolution China's Experience since the Beginning of Reform and Opening up discusses the connection and quantitative relationship between

the economic aggregate and industrial structure and is to explore the impact of the institutional reform and government's macro decision on China's economic growth and industrial structure evolution through the analysis of the industrial structure changes during the process of China's economic growth and reform over the past 30 years This book is collected by the National Achievements Library of Philosophy and Social Sciences of China in 2015 This study is divided into seven chapters respectively the judgements for economic growth level and development stage new changes new imbalances and new policies under the new normal the overall imbalances and macro control of economic growth the upgrading of industrial structure in economic growth the upgrading of industrial structure and growth efficiency the imbalances of industrial structure and distortions of primary income distribution and the upgrading of industrial structure adjustment of economic structure and the supply side reform

China's Economic Growth and Transition Clement Allan Tisdell, C. H. Chai, 1997 Contains updated papers from an international conference held in Brisbane Australia centering on China's economic reforms and economic growth regional issues and property rights in China environmental issues and land use and science and technology policies Specific topics include China's market reforms and its new forms of scientific and business alliances sustainable land use in the Three Gorges area and inter village income inequality in China Annotation copyrighted by Book News Inc Portland OR

Chinese Research Perspectives on Population and Labor, Volume 6 Juwei ZHANG, Weiguo YANG, Wenshu GAO, 2020-08-17 This translated volume is based on the Chinese publication Green Book of Population and Labor No 18 It focuses on the new era of economic growth fueled primarily by innovation and entrepreneurship and corresponding developments in China's employment landscape Chapter one offers an overview of China's new economy Chapter two examines emerging trends in both the labor and the job markets Changes to labor relations under the new economy are discussed in chapter three followed by two chapters that look closely at the role China's largest online ride hailing service provider has played in shaping the workforce and in job creation The final chapter reports on current policy support for innovative industries and makes recommendations

Economic Growth, Transition, and Globalization in China Yanrui Wu, 2006-01-01 This book addresses a number of important topics and issues associated with China's economic transition growth and global integration The chapters by a distinguished group of scholars provide a timely assessment of recent developments in the Chinese economy The authors employ contemporary economic theory and the latest statistics to analyze the sources and spillover effects of China's growth to investigate the relationship between growth and business cycle and to shed light on China's growth prospects in the coming decade In the context of growth transition and globalization the chapters also cover issues such as labour economics urban efficiency banking and macroeconomic management Economic Growth Transition and Globalization in China is a highly focused and unique work of direct policy relevance and is aimed at an international audience It is an invaluable combination of rigorous theoretical work and empirical material This timely book should be an important reference for researchers and students of Asian studies and the Chinese economy in particular It will

also appeal to business analysts Demographic Perspective of China's Economic Development Fang Cai,2020-05-17 China is historically famous for its high demographic dividend and its huge working population and this has driven tremendous economic growth over the past few decades However that population has begun to shrink and the Lewis turning point whereby surplus rural population has been absorbed into manufacturing is also approaching leading to great change in the Chinese labor market Will this negatively affect China s economic growth Can the Middle Income Trap be avoided What reforms should be made on the labor supply side This book tackles these key questions This book is a collection of 14 papers presenting the author s observations analysis and opinions of China s long term economic development from the demographic perspective while analysing real economic problems from the past and including policy recommendations It provides a critical reference for scholars and students interested in Chinese economic development and demographic perspectives on economic development **China and the Challenge of Economic Globalization** Hung-Gay Fung,Pei Changhong,Kevin H. Zhang,2017-07-28 First Published in 2006 *Economic Growth and Employment in Vietnam* David Lim,2014-03-21 Vietnam has enjoyed significant economic success since the implementation of its doi moi reforms including rapid growth in GDP exports and foreign and domestic investment and a shedding of poorly performing state owned enterprises Despite this however the economic situation for many ordinary people in Vietnam is fragile with income only just above the poverty line and high unemployment especially among the young In addition inflation is high and the state owned sector is still large much of it still performing badly This book provides a comprehensive overview of the current economic situation in Vietnam It outlines the state of the economy paying special attention to employment discusses government policies including on trade and integration with the global economy and concludes by assessing the key challenges facing Vietnam s economy going forward **China's Economic Growth: Towards Sustainable Economic Development and Social Justice** John Joshua,2017-01-09 This two volume book addresses the economic transformation occurring in China at present The author investigates China s domestic and international policies the impact of these policies on economic growth and their effect on the quality of life for the people of China In the first volume the author distinguishes between economic growth and sustainable economic development and discusses China s current and past economic policies towards growth Chapters also explore the structural transformation of China s economy and its increasingly consumer oriented nature The second volume looks more specifically at the result of domestic policies on the quality of life for people living in China The author examines the distribution of income the alleviation of poverty the Chinese education system and the environmental cost of economic growth These volumes will be of particular interest to researchers and scholars concerned with China s emerging economic power *China's New Urbanization Strategy* China Development Research Foundation,2013 Urbanization is one of the major challenges facing China Of China s 1.3 billion people around half still live in rural areas There has been huge migration from rural areas to cities in recent years a trend that is likely to continue strong for some

time The strains that this vast migration puts on China's cities are enormous This book makes available for the English speaking reader the results of a large group of research projects undertaken by CDRF one of China's leading think tanks into the details of rural urban migration the resulting urban growth and the problems associated with all this The book goes on to put forward a new strategy which aims to ensure that China's urbanization proceeds in an orderly manner and that people and their needs are put at the centre of the strategy Key parts of the strategy include that city clusters should become the main form of urbanization that these should be arranged geographically in a pattern of two horizontal lines and three vertical lines that industrial and employment structures should highlight regional features and diversity that urban public services should be more equitably distributed that there should be new forms of urbanization management and city governance to accelerate urbanization and ensure harmonious social development and that the whole process should be conducted in an ecological green way

Transforming Economic Growth and China's Industrial Upgrading Qizi Zhang, 2018-09-01

This book examines suitable approaches to and makes policy suggestions on China's industrial upgrading according to the requirements of the transformation of economic growth It is divided into two major parts the first of which provides an in depth analysis of the impact that transforming economic growth will have on industrial development particular regarding export policy adjustments the rise of labor wages and the development of a low carbon economy offering valuable insights into the difficulties entailed by the transformation process In turn Part II discusses the paths chosen for China's industrial upgrading examines its past failures and current orientation and puts forward corresponding policy suggestions for the future
