Economic Policy Towards The Environment:

Reframing Economic Policy towards Sustainability Peter McManners, 2016-11-03 In a globalized world economy delivering the aspirations of sustainability is proving to be difficult Progress is held back by competing objectives within a complex interplay of factors Finding solutions to the wicked problem of sustainability seems to be beyond the reach of policy makers Even if the political will can be found to deal with the prime challenges of the twenty first century ranging from climate change and resource depletion to persistent poverty and increasing inequity what is to be done in terms of real world policy is far from clear Do we need more globalization or has economic globalization gone too far in growing a global economy which will strip the planet bare This book reports twin track research which interweaves the intellectual argument over the future of the world economy intertwined with empirical research into the challenge of sustainability in aviation Discussing the prime challenges of this century through the lens of the intractable policy stalemate in aviation this book leads the reader to the identification of a new way forward Whether the political will is forthcoming will continue to be subject to debate but we now have a clear exposition of how to address the problem The new paradigm presented in this book opens the way to considering radical transformations to make real progress with the sustainability agenda

American Economic Policy in the 1990s Jeffrey A. Frankel, Peter R. Orszag, 2002 An examination of U S economic policy in the 1990s by leading policy makers as well as academic economists Economic Incentives and Environmental Policies J.B. Opschoor, R. K. Turner, 2012-12-06 This book contains a collection of papers on economic incentives and environmental policies which result from the authors joint research work in the program Environment Science and Society conducted under the auspices of the European Science Foundation with whose cooperation the book has been published The work concentrates on the scientific and methodological aspects of the development implementation and evaluation of economic instruments at a national level The research is both theoretical and empirical At a theoretical level attention is given to the dynamics of instrument choice in various political and economic contexts and to the means for evaluating economic instruments in terms of their effectiveness and efficiency At an empirical level the research seeks to investigate the performance of economic instruments in reality and to explore options for new approaches on the interface between technology economy and the environment A subject index complements this first volume in the ESF Environment Science and Society series

Economic Policy in the Age of Globalisation Nicola Acocella, 2005-02-17 In the age of globalisation both domestic and foreign economic policies play an important role in determining firms strategies Understanding such policies is an essential part of the cultural background of managers at all levels of a firm At the same time firms choices have a greater impact on economic policymaking in a global economy as the range of alternatives open to them expands In this textbook Professor Acocella analyses both sides of this relationship Special emphasis is placed on current issues in policymaking on the basis of social choice principles and the normative and positive theory of economic policy and issues

concerning the establishment of international public institutions that can match the global reach of the private institutions markets and firms that generate many of today's economic challenges Broad in scope this book is aimed at students who have completed an introductory course in both micro and macroeconomics **New Instruments for Environmental**

Environmental Sustainability? Emin Tengström,2018-12-20 First published in 1999 this study consists of an empirical analysis of current Danish Dutch and Swedish national transport policies along with some policy options for the near future intended to reduce the present unsustainable character of the national transport systems The study deals only with passenger transport primarily on land rather than freight transport There exists a distinct focus on environmental sustainability along with the role of the automobile in transport systems **A Foreign Economic Policy for the 1970's**

United States. Congress. Joint Economic Committee. Subcommittee on Foreign Economic Policy,1970 Climate Change as Environmental and Economic Hazard Boris Porfiriev,2009-12 The current policy for climate change prioritises mitigation

over adaptation The collected papers of Climate Change as Environmental and Economic Hazard argue that although efforts to reduce greenhouse gas emissions are still vital the new policy paradigm should shift the priority to adaptation with a special focus on disaster risk reduction It should also consider climate change not purely as a hazard and a challenge but as a window of opportunity to shift to a new sustainable development policy model which stresses the particular importance of communities resilience The papers in this volume explore the key issues linked to this shift including Increasing research into the Earth Sciences climate reconstruction and forecasting in order to decrease the degree of uncertainty about the origin development and implications of climate change The introduction of more binding and comprehensive regulation of both greenhouse gas emissions and adaptation measures like that in the United Kingdom Matching climate policy with that for disasters and mainstreaming it into overall development strategies The volume is a valuable addition to previous climate change research and considers a new policy approach to this new global challenge

Economic Policy and Climate Change Paul Koutstaal,1997-01-01 This book deserves to be widely read Brian Garrod Environmental Politics The issues dealt with in Paul Koutstaal s analysis are unquestionably highly topical and of great importance in particular to the fossil fuel energy sector Benito M ller Journal of Energy Literature Economic Policy and Climate Change focuses on the design implementation and consequences of a feasible system of tradable carbon permits to reduce greenhouse gas emissions within the context of the European Union

Projecting Environmental Trends from Economic Forecasts Peter Meyer,Thomas Lyons,Tara Clapp,2017-11-22 This title was first published in 2000 Sustainable development offers visions of the future but implementation of new sustainable policies seems slow This text presents a forecasting method directed to overcome some barriers to the implementation of more sustainable economic policy Using a case study the authors describe how economic and environmental forecasts can be developed that are relevant to the immediate concerns of policy makers and are more likely to lead to policy changes A combination of forecasting methods are shown to evaluate a range of current alternatives in the future Similar techniques have been used in developing countries but here the techniques are applied to an already industrialized economy

Economic Policy for a Social Europe Jörg Huffschnid,2005-09-08 This book poses a critique of neoliberal economic policies in the EU and proposals for alternatives The book argues that the economic weakness of the EU is the result of the very restrictive economic policy of the Union and most member states The book advances from a comprehensive critique of macroeconomic social and structural policies towards a concrete concept for a democratic European social model based on the objectives of full employment welfare social equity and ecological sustainability
