A Life in Our Times John Kenneth Galbraith, 2019-07-31 In his memoirs John Kenneth Galbraith recalls amusingly even brilliantly the important and low moments in his life the men and women he met who were great only interesting entertaining or even absurd Galbraith studied agriculture in his native Canada and agricultural economics at UC Berkeley He taught at the University of California served briefly in FDR's administration and went on to Harvard In Cambridge England he discovered the new economics of John Maynard Keynes During World War II in Washington he held the key job of organizing and administering the system of wartime price controls After the war Galbraith directed the survey that interrogated former Nazi leaders to assess the effects of the air war on the German economy He then worked for the State Department as administrator for economic affairs in the occupied countries and served as an editor of Fortune when the magazine employed some of the best writers around Galbraith returned to Harvard in 1948 and wrote three of the most influential books on economics of his time The Affluent Society The New Industrial State and Economics and the Public Purpose In these lively memoirs the author relates all of this and more his two major political campaigns with Adlai E Stevenson for whom he was adviser and speech writer and John F Kennedy for whom he campaigned across the country his years as ambassador in India and his long opposition to the Vietnam war And he shares the lessons learned from these experiences On every subject Mr Galbraith is succinct and witty The book is full of strong opinion and proceeds by the vehicle of anecdote The serious business of the book is to trace the

steps of its author's astonishingly varied and useful life. Mr Galbraith's vigor of expression as well as an account of a period of gloom and psychotherapy prevents the writing from ever sounding impersonal. That serious business is also to set the record straight on what his books were about and how he evolved his theory of *The Affluent Society* and *The New Industrial State* as two of his most important works were named on why the bombing of Germany during World War II was less than useless why it was patently unnecessary to wage atomic warfare on Japan and why he came to be a dissenter on the war in Vietnam. On inflation. On the secular priesthood that once presided at the State Department. And enchantingly on such movers and shakers he came to know well as the New Dealer Leon Henderson, Paul Baran, the most interesting economist I have ever known, Bernard M. Baruch, Adlai E. Stevenson, John F. Kennedy and Lyndon B. Johnson. Christopher Lehmann Haupt, *The New York Times*. As a raconteur and a literary stylist, Galbraith stands with the best. As entertainment, the book is a total success. Its charm comes from the combination of Mr Galbraith's smooth comic timing and his not always charitable wit. James Fallows, *The New York Times*. Galbraith ranks with the most entertaining and provocative political writers in America in this century. Without Galbraith, the political literature of our time would be far drearier. Gaddis Smith, *Foreign Affairs*. Galbraith has assembled a well-nigh complete record of what he has been up to professionally at least since leaving his family's Ontario farm. The account is fascinating. The narrative consistently holds the distinctive Galbraith style that makes all his books read like a nippy breeze. Geoffrey Colvin, *Christian Science Monitor*. Absorbing and irresistible. *The New Yorker*. An enjoyable book full of fun, full of wisdom and full of rare insights into the history of our times. *The New Republic*. A delightfully teeming book. Galbraith's comic voice is a distinctive and durable literary achievement. *Atlantic Monthly*. A highly perceptive commentary on all our yesterdays, anecdotal, amusing, animated and above all illuminating. John Barkham, *Reviews*. *The Crisis of Our Time*. John Carvalho, 2014-07-15. Dr John Carvalho, former Harvard academician and winner of the United States National Research Service Award, is no stranger to the word crisis. As a scientist, scholar and statesman, he has spent decades working on the front lines of biomedical and theoretical exploration, global health and the worldwide human rights movement. *The Crisis of Our Time* is the astonishing partial memoir and discourse regarding his life's career and philosophy concerning the planet's most pressing problems. Written in a way accessible to everyone, Carvalho begins with his passionate poetic and provocative first chapter, challenges us to discover that the disastrous external crises of our lives emanate from the unity of our conscious and subconscious experiences. Indeed, the great troubles afflicting humanity—war, infectious disease, economic recession, terrorism, family discord, psychological trauma, human rights violations—dilemmas that appear unsolvable actually originate when, without truthful self-reflection, we glorify mediocrity rather than strive to excel. Employing cutting-edge scientific information, keen historical insight, extensive cultural experience and profound philosophical analysis, Carvalho dissects our crises to elucidate why they perpetuate. In so doing, he introduces his theory of causal circular systems to reveal how causes feed off and exacerbate effects which in turn reinforce those same causes. Furthering his views, he explores global

health the example par excellence as well as economics political history planetary climate change and the most central crisis of all Being or Nothingness the fears of the Self the dread of our mortality Ultimately this short but eye opening book creates epic meaning while using an artistic literary style that is virtually unseen in nonfiction Anyone who genuinely seeks excellence over mediocrity truth over falsity meaning over purposelessness and resolution over despair should read Crisis

Economics and the Good Life Bertrand de Jouvenel, 2017-10-19 Bertrand de Jouvenel 1903 1987 was known in the United States primarily as a political scientist His best known works On Power Sovereignty and The Pure Theory of Politics all made distinctive contributions to our understanding of the modern state and to the creation of a political science capable of civilizing that state His work in the field of economics is relatively unknown in the United States but like many writers in the contemporary field of political economy de Jouvenel is not interested in expanding the claims of economy at the expense of polity On the contrary his thinking is governed by the oldest and most fundamental of political concerns the definition of the good life The good life is not a product of the marketplace but of deliberate and collective decision that is a task for thoughtful citizens and statesmen and not simply the sum of millions of separate and amoral consumer preferences De Jouvenel is well known for his opposition to the distended state but he was no anarchist His eloquent warnings to keep the state in its proper sphere were accompanied by a richly sophisticated discussion of what the proper sphere is an aspect of his work that comes through very clearly in this volume Written between 1952 and 1980 the essays range from a discussion of technology to reflections on such fundamental economic concepts as amenity and welfare They include the deeply theoretical as well as the practical and the concrete All are informed by de Jouvenel s insistence that a science which seeks to understand the production and distribution of goods must be concerned in the first place with the good itself Economics and the Good Life is a companion volume to The Nature of Politics Selected Essays of Bertrand de Jouvenel Like the earlier volume this collection is
