The Dark Places of Business Enterprise Pietro Frigato, Francisco J. Santos-Arteaga, 2019-04-05 This book considers Thorstein Veblen's central preoccupation with the dark places of business enterprise an integral part of the old institutional economics Combining the contributions made by Karl William Kapp and Philip Mirowski it proposes the systematization of an adjoined institutional theory of social costs of business enterprise useful for the analysis of contemporary crises *The Dark Places of Business Enterprise* explores the research potential of the theory of social costs for the analysis of actual business behavior in the current globalized privatization regime It begins with a detailed outline of Veblen's critique of business enterprise and market competition before illustrating the methodical enrichment of this approach through Kapp's work Finally it concludes by proposing the integration of the Veblenian Kappian approach with Mirowski's theory of markets and business doubt manufacture The resulting theory of social costs will shed light on the ubiquitous business control of society under the now dominant computer based technological infrastructure This interdisciplinary foundation of the theory of social costs encompassing knowledge from computer science and engineering to natural sciences provides the tools required to analyze this great transformation **The Economics of Business Enterprise** Leonard A.
