**The Changing Identity of Rural India** Elisabetta Basile, Ishita Mukhopadhyay, 2009-07-01 The book explores the pattern of rural development in contemporary India from a multidisciplinary and historical perspective. The essays overcome the limits of disciplinary approaches to provide a comprehensive analysis of the processes of change and growth at work in the Indian countryside and to review the social and cultural dynamics that have led to the contemporary situation. Providing an analysis of the economic, political and social changes experienced in rural India, they examine the interactions between actors and institutions at different levels. Some contributions focus on the impact of state policies on rural development and on the rationale of capitalistic expansion in the Indian countryside while others analyse how the changes are promoted, adopted and resisted at the local level. The general issue raised in the book refers to the assessment of the nature and working of contemporary Indian rural economy. In order to analyse the complexity of the rural economy and the forms it takes in different Indian contexts, this issue has been deconstructed considering in turn the process of rural change, the impact of rural growth on working and living conditions and finally the categories of the inhabitants of rural areas and the construction of their identities in colonial and post colonial rural India.

**Researching Educational Governance: Realizing UN 2030 Agenda and Beyond** H.C. Pokhriyal, B.S. Nagi, M.C. Sati, Padmakar Mishra, R.P. Juyal and A.S. Khullar, 2023-01-01 Achieving the lofty Goal 4 of the UNSDGs which aims to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all will require the entire education system to be reconfigured, a fact as aptly underlined in the National Education Policy 2020 of India. This would essentially entail putting in place a very effective educational governance devised and formulated on the basis of cutting edge research outputs. Three Volumes of the present book is a modest yet maiden attempt to comprehend and unfold the blending of diverse research methodologies and amply demonstrate through empirical findings that innovative policies and interventions curated on the basis of this approach of research can ensure quality education. Governance emerges as one of the core areas for research. Therefore Volume I provides a wide canvas of governance in general and educational governance in particular for research along with a unique opportunity to elaborate both the theory and practice of Quantitative, Qualitative and Participatory Methodologies in researching governance that is the frontier challenge looking

for suitable answers Volume II uniquely comprehends multiple aspects of quality in dynamic and wider perspectives as perceived by the primary stakeholders including community Refreshing insight into the quality perspectives of educational governance will facilitate the researchers to explore innovative interventions in respective areas of human development Community is the third constituent of governance along with the state and the market Therefore Volume III explores a futuristic vision of community governance leading to quality education Also an attempt has been made to critically appraise the provisioning of community governance including the local self governments as well as free and compulsory elementary education The Book is a live comprehension of the conceptual framework of research and methods along with handling of research problems at the ground It is like explaining how to by giving suitable case studies conducted by the authors on educational governance It is hoped that the three Volumes will be an exciting learning experience that would enable us to address researching challenges over which the public policy makers researchers development administrators planners and students may build their concepts logical structures and planned interventions facilitating the achievement of effective educational governance at micro level ensuring quality education in the coming decades
