Forced Saving Hazel Bateman, Geoffrey Kingston, John Piggott, 2001-11-20 Forced Saving first published in 2001 offers an analysis of pension policy from an economic perspective It begins with an overview of the problem of population ageing around the world and then provides a framework within which policy responses may be consistently assessed It focuses on the mandating approach to retirement income policy in which governments are compelling individuals or their employers to take on this responsibility

at least in part The role of government becomes limited to one of mandating contributions from wages along with regulating private fund managers to a greater or lesser extent The authors explore the implications of introducing such a policy reform They argue that while there is no universal agreement on the relative costs and benefits of this policy approach there are often some advantages to moving at least some distance down the mandating path *Is There a Positive Incentive Effect from Privatizing Social Security* Truman Packard, 2001 Introducing individual retirement accounts has a positive incentive effect that increases the share of the economically active population contributing to the reformed pension system But this effect occurs only gradually as employers and workers become familiar with the new set of social insurance institutions put in place by reform **Keeping the Promise of Social Security in Latin America** Indermit S. Gill, Truman G.

Packard, Juan Yermo, 2004-10-25 Empirical analysis of two decades of pioneering pension and social security reform in Latin America and the Caribbean shows that much has been achieved but that critical challenges remain In tackling this unfinished agenda a great deal can be learned from the reform experience of countries in the region Keeping the Promise produced by the chief economist's office for the Latin America and Caribbean region at the World Bank evaluates policy reforms in 12 countries points to successes and shortcomings and proposes priorities and options for future reform *Market-Based Governance* John D.
