Economy Of Ghana The First Twenty Five Years Since Independence:

The Economy of Ghana M. M. Huq, 1989 *The Economy of Ghana Sixty Years after Independence* Ernest Aryeetey, Ravi Kanbur, 2017-02-09 As Ghana approaches its 60th birthday optimism and worries for the future continue to be present in equal measure Economic growth in the last decade has been high by historical standards Indeed recent rebasing of GDP figures has put Ghana over the per capita income threshold into Middle Income Country status However structural transformation has lagged behind Fiscal discipline has also eroded significantly and there is heavy borrowing especially on the commercial market while elements of the natural resource curse from oil have already occurred The question most observers ask is whether the gains from two decades of reforms are being reversed Given this background this volume brings together leading established and young economists from within and outside Ghana to analyze and assess the challenges facing Ghana's economy as it enters its seventh decade and the nation heads towards three quarters of a century of independence The chapters cover the major macroeconomic and sectoral issues including fiscal and monetary policy trade and industrialization agriculture and infrastructure The volume also covers a full range of social issues including poverty and inequality education health gender and social protection The book also examines the implications of the oil boom for Ghanaian development and the role of institutions *The Politics of Reform in Ghana, 1982-1991* Jeffrey Herbst, 2023-04-28

Economic reform was the most pressing question for African and other Third World countries during the 1980s In this first full length examination of the political economy of adjustment in Ghana Jeffrey Herbst describes the causes of Ghana's dramatic economic decline and reviews the politics of reform that began in 1983 Since Ghana was one of the first African countries to adopt a comprehensive reform program and the one that has sustained adjustment longest the Ghanaian experience has profound ramifications for debates regarding stabilization and structural change across the continent Herbst devotes special attention to the interaction between the type of government and the politics of adjustment the reaction of interest groups such as urban labor and the peasantry and the relationship between economic and political change His extended field research and sophisticated knowledge of the issues involved both from the economic and political science literature make this study of importance not only to Africanists political scientists economists and sociologists but also to government and financial leaders wrestling with economic reform in developing countries This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993

Growth and Poverty in Sub-Saharan Africa Channing Arndt, Andy McKay, Finn Tarp, 2016 While the economic growth renaissance in sub Saharan Africa is widely recognized much less is known about progress in living conditions This book comprehensively evaluates trends in living conditions in 16 major sub Saharan African countries corresponding to nearly

75% of the total population A striking diversity of experience emerges While monetary indicators improved in many countries others are yet to succeed in channeling the benefits of economic growth into the pockets of the poor Some countries experienced little economic growth and saw little material progress for the poor At the same time the large majority of countries have made impressive progress in key non monetary indicators of wellbeing Overall the African growth renaissance earns two cheers but not three While gains in macroeconomic and political stability are real they are also fragile Growth on a per capita basis is much better than in the 1980s and 1990s yet not rapid compared with other developing regions Importantly from a pan African perspective key economies particularly Kenya Nigeria and South Africa are not among the better performers Looking forward realistic expectations are required The development process is almost always a long hard slog Nevertheless real and durable factors appear to be at play on the sub continent with positive implications for growth and poverty reduction in future

International Development Studies Andrew Sumner, Michael A Tribe, 2008-04-11 A sure footed and self confident book ambitious in scope authoritative in execution and practical in its implications Simon Maxwell Director Overseas Development Institute London At last a development studies text that encourages self reflection from within the discipline Highly recommended Professor Ray Kiely Chair in International Politics Queen Mary University of London This is the book that academics development researchers and practitioners have been seeking for a long time It addresses the most important issues which development researchers and practitioners cope with each and every day Dr Tran Tuan Director Research and Training Centre for Community Development Hanoi Vietnam An insightful book for both development practitioners and researchers alike Professor K N Nair Director Centre for Development Studies Kerala India This book is about working professionally in Development Studies as a student researcher or practitioner It introduces and addresses the fundamental questions that everyone engaged with development must ask What is development and why do we wish to study it How do the many theoretical methodological and epistemological approaches relate to research and practical studies in development How are development research and practice linked Accessibly written with extensive use of case study material this book is an essential primer for students of development studies who require a concise penetrating overview of its foundations It is also core reading for students and practitioners concerned with the design of studies in the course of policy analysis sector reviews or project formulation management and evaluation

States and Power in Africa Jeffrey Herbst, 2014-12-21 Originally published A2000 With new preface and revised chapter nine by the author

Industrial and Trade Policy Reform in Developing Countries Ramesh Adhikari, Colin H. Kirkpatrick, John Weiss, 1992

Resource Abundance and Economic Development R. M. Auty, 2001-06-28 Since the 1960s the per capita incomes of the resource poor countries have grown significantly faster than those of the resource abundant countries In fact in recent years economic growth has been inversely proportional to the share of natural resource rents in GDP so that the small

mineral driven economies have performed least well and the oil driven economies worst of all Yet the mineral driven resource rich economies have high growth potential because the mineral exports boost their capacity to invest and to import Resource Abundance and Economic Development explains the disappointing performance of resource abundant countries by extending the growth accounting framework to include natural and social capital The resulting synthesis identifies two contrasting development trajectories the competitive industrialization of the resource poor countries and the staple trap of many resource abundant countries The resource poor countries are less prone to policy failure than the resource abundant countries because social pressures force the political state to align its interests with the majority poor and follow relatively prudent policies Resource abundant countries are more likely to engender political states in which vested interests vie to capture resource surpluses rents at the expense of policy coherence A longer dependence on primary product exports also delays industrialization heightens income inequality and retards skill accumulation Fears of Dutch disease encourage efforts to force industrialization through trade policy to protect infant industry The resulting slow maturing manufacturing sector demands transfers from the primary sector that outstrip the natural resource rents and sap the competitiveness of the economy The chapters in this collection draw upon historical analysis and models to show that a growth collapse is not the inevitable outcome of resource abundance and that policy counts Malaysia a rare example of successful resource abundant development is contrasted with Ghana Bolivia Saudi Arabia Mexico and Argentina which all experienced a growth collapse The book also explores policies for reviving collapsed economies with reference to Costa Rica South Africa Russia and Central Asia It demonstrates the importance of initial conditions to successful economic reform

Corruption, Good Governance, and the African State Ganahl, Joseph Patrick, 2014-02-18 African states are often called corrupt indicating that the political system in Africa differs from the one prevalent in economically advanced democracies This however does not give us any insight into what makes corruption the dominant norm of African statehood Thus we must turn to the overly neglected theoretical work on the political economy of Africa in order to determine how the poverty of governance in Africa is firmly anchored both in Africa's domestic socioeconomic reality as well as in the region's role in the international economic order Instead of focusing on increased monitoring enforcement and formal democratic procedures this book combines economic analysis with political theory in order to arrive at a better understanding of the political economic roots of corruption in Sub Saharan Africa

The Economy of Ghana M.M. Huq, 1989-02-06 *Africa South of the Sahara* Robert Stock, Robert F. Stock, 2012-12-01 This authoritative widely adopted text provides a broad introduction to the geography of Africa south of the Sahara The book analyzes the political economic social and environmental processes that shape resource use and development in this large diverse region Students gain a context for understanding current development debates and addressing questions about the nature and sustainability of contemporary changes Timely topics include the rise of foreign investment in Africa the evolving geographies of rural urban linkages the birth of the Republic of South Sudan and advances

in the struggle against HIV AIDS New to This Edition Fully updated to reflect the latest data and trends in development Chapters on development theory cultural and societal diversity the political geography of postindependence Africa economic integration and the geography of poverty Substantially revised coverage of gender dynamics urban living environments mineral and energy resources and many other topics Many of the 200 maps graphs tables and photographs are new or updated Pedagogical Features Include Vignettes in every chapter that provide detailed case studies from a variety of countries and elaborate on key concepts Recommendations for further reading on each topic including print and online sources Downloadable PowerPoint slides of all original figures photos and tables An extensive glossary
