Frank Leslie, 1896 The history of Russia Ruben Ygua, 2025-08-20 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That's how we have been educated The time has come to simplify and show respect for our ancestors striving to know

what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections [An Encyclopedia of Battles](#)

The Allure of Battle Cathal Nolan, 2017-01-02 History has tended to measure war's winners and losers in terms of its major engagements battles in which the result was so clear cut that they could be considered decisive Cannae Konigsberg Austerlitz Midway Agincourt all resonate in the literature of war and in our imaginations as tide turning But these legendary battles may or may not have determined the final outcome of the wars in which they were fought Nor has the genius of the so called Great Captains from Alexander the Great to Frederick the Great and Napoleon play a major role Wars are decided in other ways Cathal J Nolan's *The Allure of Battle* systematically and engrossingly examines the great battles tracing what he calls short war thinking the hope that victory might be swift and wars brief As he proves persuasively however such has almost never been the case Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side's defences Massive conflicts the so called people's wars beginning with Napoleon and continuing until 1945 have consisted of and been determined by prolonged stalemate and attrition industrial wars in which the determining factor has been not military but material Nolan's masterful book places battles squarely and mercilessly within the context of the wider conflict in which they took place In the process it help corrects a distorted view of battle's role in war replacing popular images of the battles of annihilation with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers Accessible provocative exhaustive and illuminating *The Allure of Battle* will spark fresh debate about the history and conduct of warfare

The 5 Biggest Civil War Battles Charles River Editors, 2025-05-02 Of all the Civil War battles fought and of all the victories achieved by Robert E Lee at the command of the Confederate Army of Northern Virginia the Battle of Chancellorsville is considered the most tactically complex and ultimately the most brilliant Confederate victory of the war In

early May 1863 the Army of the Potomac was at the height of its power as it bore down on Robert E Lee's Army of Northern Virginia near Fredericksburg where the Confederates had defeated them the previous December The Union behemoth had spent most of the winter season being reorganized and drilled by Fighting Joe Hooker an aggressive commander who had fought hard at places like Antietam With an army nearing 130 000 men Hooker's Army of the Potomac was twice the size of the Army of Northern Virginia With that advantage Hooker proposed a daring and aggressive two pronged attack that aimed to keep Lee's army occupied in front of Fredericksburg while marching around its left Meanwhile a cavalry raid well in the rear was intended to cut Lee's lines of supplies and possibly retreat Hooker's plan initially worked perfectly with the division of his army surprising Lee At the end of May 1 Lee was outnumbered 2 to 1 and now had to worry about threats on two fronts Incredibly Lee once again decided to divide his forces in the face of the enemy sending Stonewall Jackson to turn the Union army's right flank while the rest of the army maintained positions near Fredericksburg The Battle of Chancellorsville is one of the most famous of the Civil War and the most famous part of the battle was Stonewall Jackson's daring march across the Army of the Potomac's flank surprising the XI Corps with an attack on May 2 1863 Having ignored warnings of Jackson's march the XI Corps was quickly routed The surprise was a costly success however as Jackson was mortally wounded after being mistakenly fired upon by his own men The names of history's most famous battles still ring in our ears today their influence immediately understood by all Marathon lent its name to the world's most famous race but it also preserved Western civilization during the First Persian War Saratoga won by one of the colonists most renowned war heroes before he became his nation's most vile traitor Hastings ensured the Normans success in England and changed the course of British history Waterloo which marked the reshaping of the European continent and Napoleon's doom has now become part of the English lexicon In Charles River Editors Greatest Battles in History series readers can get caught up to speed on history's greatest battles in the time it takes to finish a commute while learning interesting facts long forgotten or never known Without question the most famous battle of the American Civil War took place outside of the small town of Gettysburg Pennsylvania which happened to be a transportation hub serving as the center of a wheel with several roads leading out to other Pennsylvanian towns From July 1-3 Robert E Lee's Confederate Army of Northern Virginia tried everything in its power to decisively defeat George Meade's Union Army of the Potomac unleashing ferocious assaults that inflicted nearly 50 000 casualties in all Day 1 of the battle would have been one of the 25 biggest battles of the Civil War itself and it ended with a tactical Confederate victory But over the next two days Lee would try and fail to dislodge the Union army with attacks on both of its flanks during the second day and Pickett's Charge on the third and final day Meade's stout defense held barely repulsing each attempted assault handing the Union a desperately needed victory that ended up being one of the Civil War's turning points
