early twentieth century has been hindered by perceptions of the repertory as insular in its references and backward in its
style and syntax escaping the modernity that surrounded its composers Recent research has begun to break down these
perceptions and has found intriguing links between British music and modernism This book brings together contributions
from scholars working in analysis hermeneutics reception history critical theory and the history of ideas Three overall themes

Rowlandson,1977 Dispossessed Lives Marisa J. Fuentes,2016-05-26 In the eighteenth century Bridgetown Barbados was
heavily populated by both enslaved and free women Marisa J Fuentes creates a portrait of urban Caribbean slavery in this
colonial town from the perspective of these women whose stories appear only briefly in historical records Fuentes takes us
through the streets of Bridgetown with an enslaved runaway inside a brothel run by a freed woman of color in the midst of a
white urban household in sexual chaos to the gallows where enslaved people were executed and within violent scenes of
enslaved women s punishments In the process Fuentes interrogates the archive and its historical production to expose the
ongoing effects of white colonial power that constrain what can be known about these women Combining fragmentary
sources with interdisciplinary methodologies that include black feminist theory and critical studies of history and slavery
Dispossessed Lives demonstrates how the construction of the archive marked enslaved women s bodies in life and in death
By vividly recounting enslaved life through the experiences of individual women and illuminating their conditions of
confinement through the legal sexual and representational power wielded by slave owners colonial authorities and the
archive Fuentes challenges the way we write histories of vulnerable and often invisible subjects *Rowlandson the*
