[Dictionary of Minor Planet Names](#) Lutz Schmadel, 2003-08-05 Dictionary of Minor Planet Names Fifth Edition is the official reference for the field of the IAU which serves as the internationally recognised authority for assigning designations to celestial bodies and any surface features on them The accelerating rate of the discovery of minor planets has not only made a new edition of this established compendium necessary but has also significantly altered its scope this thoroughly revised edition concentrates on the approximately 10 000 minor planets that carry a name It provides authoritative information about the basis for all names of minor planets In addition to being of practical value for identification purposes this collection provides a most interesting historical insight into the work of those astronomers who over two centuries vested their affinities in a rich and colorful variety of ingenious names from heavenly goddesses to more prosaic constructions The fifth edition serves as the primary reference with plans for complementary booklets with newly named bodies to be issued every three years

Lyric Poetry and Space Exploration from Einstein to the Present Margaret Greaves, 2023-05-23 Poetry and astronomy often travel together in the political sphere from Milton's meeting with Galileo under house arrest to NASA's practice of launching poems into space Anchored in the post war period but drawing on a long history of poetry and science Lyric Poetry and Space Exploration from Einstein to the Present charts the surprising connection between poetry and extra terrestrial space In an era defined by the vast scales of globalization environmental disaster and space travel poets bring the small scales of lyric intimacy to bear on cosmic immensity While outer space might seem the domain of more popular genres lyric poetry has ancient and enduring associations with cosmic inquiry that have made it central to post war space culture As the Cold War played out in space American institutions and media from NASA to Star Trek enlisted poetry to present space exploration as a peaceful mission on behalf of humankind Meanwhile poets from across the globe have turned to the cosmos to contest American imperialism challenging conventional ideas about lyric poetry in the process Poets including Elizabeth Bishop Adrienne Rich Seamus Heaney Derek Walcott Agha Shahid Ali and Tracy K Smith invoke the extra terrestrial to interrogate national histories alongside their craft Dazzled by the aesthetics of astronomy but wary of its imperial uses poets employ astronomical figures and methods to imagine how we might care for both ourselves and others on a shared planet
