*We are Your Sisters* Dorothy Sterling, 1997 Contains 1000 oral interviews with American black women who lived between 1800 and the 1880s     The American Hereford Record, and Hereford Herd Book ,1919     **A History of Blacks in Kentucky** Marion Brunson Lucas, 2003-06-01 A History of Blacks in Kentucky traces the role of blacks from the early exploration and settlement of Kentucky to 1891 when African Americans gained freedom only to be faced with a segregated society Making extensive use of numerous primary sources such as slave diaries Freedmen s Bureau records church minutes and collections of personal papers the book tells the stories of individuals their triumphs and tragedies and their accomplishments in the face of adversity     *East German Girl* Sigrid Jackson, 2011-09-07 War memories do not have an age requirement They force you to mature and give you no choice but to cope with the realities of the world In this memoir author Sigrid Jackson tells what it was like being a child of war in East Germany before and after World War II In *East German Girl* Jackson describes what it was like to live through the bombing raids food shortages diphtheria communism and being forced to leave her home with her mother and brother to be relocated to a rural farm Using personal anecdotes to illustrate how God has worked in her life Jackson demonstrates the courage that was necessary to escape East Germany to freedom in the west when she was just twelve years old From an alcoholic absentee father to an unsuspecting future husband life continuously threw her curveballs but *East German Girl* narrates an inspirational story of war communism family betrayal and finally resilience     **Interdisciplinary Perspectives on Colorism** Ronald E. Hall, 2022-07-22 This timely and unique book explores the concept of colorism which is discrimination based on the color of a person s skin in a world where arguably light skin is privileged over dark and one s wealth health and opportunities are impacted by skin color sometimes irrespective of one s racial background In the context of our multi cultural and increasingly global society and the historical backdrop of slavery the text takes a unique approach by moving from personal anecdotes to adopting a scientific perspective grounded in empirical evidence Hall explores how skin color is a more effective framework for examining prejudice and discrimination as racial identities become increasingly mixed due to inter racial unions and immigration He argues that racism as discrimination by race is contrived polarizing and non quantifiable and that it is often skin color that is used to identify race often inaccurately With skin color being a visual and physical characteristic with race based prejudices attached to it the author shows how skin color can be a loaded identifier of value and identity In a world where the objective measure of skin color crosses racial boundaries and where race will become increasingly indiscernible over time the ultimate aim of this book is to prepare for the social future of mankind that has already begun to take shape Split into three parts examining historical contemporary and potential future perspectives on colorism this is fascinating reading for students and academics in psychology social work education criminal justice and other social sciences The text will also be useful for providing validation for including colorism into the public domain     **Canadian Shorthorn Herd Book** Canadian Shorthorn
