Fantasies Of Salvation:

Fantasies of Salvation Vladimir Tismaneanu, 1998-01-01 Despite Democratic successes in places such as the Czech Republic and Poland Tismaneanu argues that it would be a mistake for the West to assume that liberalism will always triumph in post Communist Europe *Fantasies of Salvation* is a thought provoking book for both academic and nonacademic readers who wish to understand the forces shaping one of the world's most important and unpredictable regions

Envisioning Eastern Europe Michael D. Kennedy, 1994 Explorations of cultural change in the former Soviet bloc **After the Fall** Noemi Marin, 2007 Noemi Marin analyzes famous writers from the area as critical intellectuals and exiles in order to explore the role of rhetoric and identity in writers' own experiences during the long history of communism Along with examinations of discursive relationships among power culture and resistance in works by George Konrad Andrei Codrescu and Siavenka Drakulic before and after the fall of communism Marin proposes specific dimensions for a rhetoric of exile pertinent to communist Eastern and Central Europe *After the Fall* shows how critical works on identity culture and communist history by the writers studied aid in reconstituting a rhetoric of dissidence identity and legitimation in the public discourse of a changing Europe The book offers a unique perspective on the complex contexts of political transition in which competing public discourse on freedom and democracy intersect with totalitarian regimes unsettled societies and issues of resistance

Religious Separation and Political Intolerance in Bosnia-Herzegovina Mitja Velikonja, 2003 Mitja Velikonja has written a comprehensive survey that examines how religion has interacted with other aspects of Bosnia Herzegovina's history Velikonja sees the former Ottoman borderland as a distinct cultural and religious entity where three major faiths Islam Catholicism and Orthodoxy managed to coexist in relative peace It is only during the past century that competing nationalisms have led to persecution ethnic cleansing and mass murder Emphasizing the importance of religion to nationalism as a symbol of collective identity that strengthens national identity Velikonja notes that religious groups have a tendency to become isolated from one another He believes Bosnia Herzegovina was unique in its *sarlikost* or diversity because while religion defined ethnic communities there and kept them separate it did not create a culture of intolerance Rather than suppressing one another the region's ethno religious groups learned to cooperate and mediate their differences useful behavior in an area that served as buffer between East and West for most of its history Velikonja believes that Bosnians went beyond tolerance to embrace synthetic eclectic religious norms with each religious group often borrowing customs and rituals from its rivals Rather than the extreme orthodoxy evident elsewhere in Europe Bosnia became the home of heterodoxy Sadly nationalism changed all that and the area became the scene of systematic persecution forced conversion and mass slaughter Velikonja considers the misfortunes suffered by the Bosnians during the 1990s as largely the result of actions by their neighbors and local militants and inaction by the international community But he also sees the tragedy that unfolded as the result of the exploitation of ethno religious differences and myths by Serbian chauvinists and Croatian

nationalists Despite the tragedy that overwhelmed Bosnia Herzegovina *The Psychology of Death in Fantasy and History* Jerry Piven, 2004-03-30 This volume investigates the impact of death consideration on such phenomena as Buddhist cosmology the poetry of Rilke cults and apocalyptic dreams Japanese mythology creativity and even psychotherapy Death is seen as a critical motivation for the genesis of artistic creations and monuments of belief systems fantasies delusions and numerous pathological syndromes Culture itself may be understood as the innumerable ways that societies defend themselves against helplessness and annihilation how they mould and recreate the world in accordance with their wishes and anxieties the social mechanisms employed to deny annihilation and death Whether one speaks of the construction of massive burial tombs magical transformations of death into eternal life afterlives or resurrections the need to cope with death and deny its terror and effect are the sine qua non of religion culture ideology and belief systems in general *Christ Plays in Ten Thousand Places* Eugene H. Peterson, 2008-01-29 Lamenting the vacuous often pagan nature of contemporary American spirituality Peterson firmly grounds spirituality once more in Trinitarian theology and offers a clear practical statement of what it means to actually live out the Christian life *The Aesthetics of Populism: Political Struggle and the Aesthetics Experience in Poland after 1989*, 2025-08-28 Do populists and liberal democrats recognizably differ in their lifestyles clothes eating habits or reading preferences Do the supporters of populism and liberal democracy look at the past from different perspectives How do their aesthetic choices influence their political engagement You will find these and similar questions addressed and answered by the contributors to this collection The volume owes its special place in the literature on political aesthetics to its interdisciplinarity It combines theoretical explorations of the ways aesthetics can be used to analyze political developments and empirical research that comprehensively illuminates the relevance of aesthetics to political struggle

Entangled Evolutions Peter Gross, 2002-05-08 The revolutions of 1989 swept away Eastern Europe's communist governments and created expectations on the part of many observers that post communist media would lead the liberated societies in establishing and embracing democratic political cultures Peter Gross finds that it was utopian to hold such expectations of the media in societies in transition On the one hand those countries media professionals had all learned their

jobs under the communist regimes and could not instantly transform themselves into guides for a politically enabled populace. Gross argues. On the other hand newcomers to the media world even those who were notable literary figures viewed themselves as social and political leaders rather than mere informers and facilitators of the resocialization required to form new democracies. The news media have remained highly politicized and partisan. So how are the media civil society and political culture related in societies in transition? And can changes in these relationships be anticipated? To address these questions *Entangled Evolutions* examines media in post 1989 Eastern Europe. It studies the effects of privatization of the media, journalists' relations to political figures, institutional structures such as media laws, professional journalistic culture, and the media's relation to their market. Sources include interviews with journalists and politicians, sociological and political data from national surveys and media audience studies. *Fantasies of Salvation*, 1998. **Eat No Evil** Roy Masters, 1987. Roy Masters in his delightfully shocking book *Eat No Evil* quickly dispels all of the myths surrounding our fascination with food. Rather than offer the public another health food diet, he bypasses the mumbo jumbo of the experts and strikes straight to the heart of the matter, unearthing for the first time the hidden cause of our cravings. If you had been born say two thousand years ago, you wouldn't need this book. You would be sustaining yourself naturally by eating all the right foods. But alas, you were born in the twentieth century, as if in a cage, a bleak environment of steel and concrete and supermarket processed food. Need I say more about the devitalized bran stripped junk you are eating? So now it behooves you to thread your way back through the maze of food traumas and conditioning to discover what God intended you to do with the natural bounty he provided. Food is to the intestines what truth is to the spirit. In both cases we must keep a clean house. The problem is that a wrong person cannot possibly eat right food. You will see that the primary emphasis is on the spiritual weaknesses that led you into temptation in the first place. Bear in mind that you must get right to eat right. *Aristophanes' ^IFrogs^R* Mark Griffith, 2013-05-13. Aristophanes is widely credited with having elevated the classical art of comedy to the level of legitimacy and recognition that only tragedy had hitherto achieved. This book provides an invaluable companion to one of Aristophanes' most cherished works *Frogs*. **Facing the East in the West** Barbara Korte, Eva Ulrike Pirker, Sissy Helff, 2010. Over the last decade, migration flows from Central and Eastern Europe have become an issue in political debates about human rights, social integration, multiculturalism, and citizenship in Great Britain. The increasing number of Eastern Europeans living in Britain has provoked ambivalent and diverse responses, including representations in film and literature that range from travel writing, humorous fiction, mockumentaries, musicals, drama, and children's literature to the thriller. The present volume discusses a wide range of representations of Eastern and Central Europe and its people as reflected in British literature, film, and culture. The book offers new readings of authors who have influenced the cultural imagination since the nineteenth century, such as Bram Stoker, George Bernard Shaw, Joseph Conrad, and Arthur Koestler. It also discusses the work of more contemporary writers and film directors, including Sacha Baron Cohen, David Cronenberg, Vesna Goldsworthy, and Kapka.

Kassabova Marina Lewycka Ken Loach Mike Phillips Joanne K Rowling and Rose Tremain With its focus on post Wall Europe Facing the East in the West goes beyond discussions of migration to Britain from an established postcolonial perspective and contributes to the current exploration of new European identities Ukrainian Intelligentsia in Post-Soviet L'viv Eleonora Narvselius,2012-01-01 Intelligentsia assumes the right to speak in the name of the entire nation and to extrapolate its own tastes values and choices to it Therefore intelligentsia's voices have been in many ways decisive in the discussions about Ukrainian national identity which gained momentum in the post Soviet Ukrainian society The historical and cultural cityscape of L'viv is an especially apt site for investigation of the nexus intelligentsia nation not only in the Ukrainian but in the East Central European context This borderline city while not being a remarkable industrial administrative or political centre has acquired the reputation of a site of unique cultural production and a principal center of the Ukrainian nationalist movement throughout the twentieth century Here the popular conceptions of intelligentsia have been elaborated at the intersection of various cultural historical and political traditions This study addresses Ukrainian speaking intelligentsia and intellectuals in L'viv both as a discursive phenomenon and as the social category of cultural producers who in the new circumstances both articulate the nation and are articulated by it **The Devil in History** Vladimir Tismaneanu,2012-09-28 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author's personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century's experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus François Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness Enemies of Hope R. Tallis,2016-04-30 Over the last few years Raymond Tallis has published widely acclaimed critiques of influential trends in contemporary thought for example Not Saussure described as one of the most brilliant and effective of all rebuttals of post Saussurean theory In Defence of Realism

and *The Explicit Animal* which demonstrated the baselessness of contemporary accounts of consciousness *Enemies of Hope* takes the story further identifying the themes common to anti humanist twentieth century thought and challenging the cult of pessimism that pervades our age Tallis teases out the many strands of the comfortable self congratulatory cynicism of modernist and postmodernist cultural critics exposing their self contradictions and their wilful blindness to the distinctive mystery of human nature The pathologisers of culture and the marginalisers of consciousness are shown to be the enemies of hope the hope of progress based upon the rational conscious endeavours of humankind Perceptive passionate and often controversial Raymond Tallis's latest debunking of *Kulturkritik* explores a host of ethical and philosophical issues central to contemporary thought raising questions we cannot afford to ignore After reading *Enemies of Hope* those minded to misrepresent mankind in ways that are almost routine amongst humanist intellectuals may be inclined to think twice By clearing away the hysterical anti humanism of the twentieth century *Enemies of Hope* frees us to start thinking

constructively about the way forward for humanity in the twenty first **China In The Post-utopian Age** Christopher J. Smith, 2019-04-11 *China in the Post Utopian Age* is an interdisciplinary book about China in the post utopian age focusing on the transformations that have occurred during the leaderships of Deng Xiaoping and Jiang Zemin throughout the 1980s and 1990s **Driven to Change** Antoaneta L. Dimitrova, 2004 Will joining the European Union help achieve prosperity stability and democracy in Central and Eastern Europe This book addresses this question by analysing how the European Union has approached this enlargement Specifically the book shows how in its enlargement to the East the European Union has tried to guide the post communist states of Central and Eastern Europe towards new institutions and changing rules In addressing the little explored link between post communist transformations and enlargement the book presents the effects of

enlargement governance extended by the EU on domestic processes of reform and transformation With its rich empirical overview of the reform challenges to various sectors the author presents various scenarios of the interaction of EU rules with post communist reform In contrast to other books on enlargement this one relies on the perspective of scholars from Eastern Europe to illustrate the importance of the accession process to reform *Religious and National Discourses* Hanna

Acke, Silvia Bonacchi, Charlotta Seiler Brylla, Ingo H. Warnke, 2023-08-07 The editors of this volume have combined their expertise in discourse contradiction minority and diversity studies to suggest a change of perspective from categorisations into societal minorities and majorities towards an analysis of marginalising and centralising discourses For this purpose we have gathered interdisciplinary minded authors from linguistics literary and religious studies political and historical sciences Their contributions focus on contradictions of religious and national belonging as well as intersections of religion and nation in many different regions of the world from the 18th century until today While illustrating the diversity and contradictions of religious and national belonging across time and space the chapters of the book contribute to an understanding of the dynamics of questions of belonging and the associated constant renegotiations of power within these discursive processes
