World Politics on Screen Mark Sachleben, 2014-01-29 Few American military figures are more revered than General John J Black Jack Pershing 1860 1948 who is most famous for leading the American Expeditionary Forces in World War I The only soldier besides George Washington to be promoted to the highest rank in the U S Army General of the Armies Pershing was a mentor to the generation of generals who led America s forces during the Second World War Though

Pershing published a two volume memoir *My Experiences in the World War* and has been the subject of numerous biographies few know that he spent many years drafting a memoir of his experiences prior to the First World War *In My Life Before the World War 1860-1917* John T Greenwood rescues this vital resource from obscurity making Pershing's valuable insights into key events in history widely available for the first time Pershing performed frontier duty against the Apaches and Sioux from 1886-1891 fought in Cuba in 1898 served three tours of duty in the Philippines and was an observer with the Japanese Army in 1905 during the Russo Japanese War He also commanded the Mexican Punitive Expedition to capture Pancho Villa in 1916-1917 *My Life Before the World War* provides a rich personal account of events people and places as told by an observer at the center of the action Carefully edited and annotated this memoir is a significant contribution to our understanding of a legendary American soldier and the historic events in which he participated **TV Guide**, 1992 *The Golden Age of Science Fiction* John Wade, 2020-11-12 A detailed look at the British world of science fiction in the 1950s John Wade grew up in the 1950s a decade that has since been dubbed the golden age of science fiction It was a wonderful decade for the genre but not so great for young fans With early television broadcasts being advertised for the first time as unsuitable for children and the inescapable barrier of the X certificate in the cinema barring anyone under the age of sixteen the author had only the radio to fall back on and that turned out to be more fertile for the budding SF fan than might otherwise have been thought Which is probably why as he grew older rediscovering those old TV broadcasts and films that had been out of bounds when he was a kid took on a lure that soon became an obsession For him the super accuracy and amazing technical quality of today's science fiction films pale into insignificance beside the radio early TV and B picture films about people who built rockets in their back gardens and flew them to lost planets or tales of aliens who wanted to take over if not our entire world then at least our bodies This book is a personal account of John Wade's fascination with the genre across all the entertainment media in which it appeared the sort of stuff he reveled in as a young boy and still enjoys today Not only a well researched book grounded in hundreds of sources but also an unmistakable labor of love *New York Journal of Books*
