

# FAREWELL, PROMISED LAND

WAKING FROM THE CALIFORNIA DREAM

ROBERT DAWSON AND GRAY BRECHIN

# Farewell Promised Land Waking From The California Dream

**William T. Vollmann**

## **Farewell Promised Land Waking From The California Dream:**

**Farewell, Promised Land** Robert Dawson, Gray A. Brechin, 1999-01-01 Don't mistake the message of this sad and powerful book. After 150 years of pillage and pollution, it is time to fight like hell for California. Mike Davis, author of *City of Quartz*, a heart-rendingly splendid book for all who love California. It combines stunning photographic documentation of the trashing of the state with an eloquent melancholy text that still offers guarded hopes for a green future. Ernest Callenbach, author of *Ecotopia*.

**Farewell, Promised Land** Robert Dawson, Gray Brechin, 2023-12-22 Historical accounts of California tell of flocks of birds so dense in the sky that they cast a shadow on the ground and of thunderous rivers of geese, ducks, and swans moving down the state to the lagoons of Mexico and beyond. Today, citizens and travelers in California take for granted skies empty of almost everything but the contrails of airplanes. But far more than wildlife is missing from California today. In text and photographs, *Farewell Promised Land* documents the stark contrast between the California landscape of this past and what it has become as it traces the evolution of the California environment and looks ahead to what the future holds. When writer Gray Brechin and photographer Robert Dawson received the 1992 Dorothea Lange-Paul Taylor Prize from Duke University's Center for Documentary Studies, they began a five-year project of driving and flying around California to record the present state of its environment. This book is the result of that collaboration. In six thematic chapters dealing with Loss, Mining, Farming, Cities, Energy, and Health, the authors provide a sobering look at California's environment. A concluding chapter introduces individuals and organizations now attempting to redeem the state from its present course. *Farewell Promised Land* is a superb vehicle for communicating the causes, context, and seriousness of environmental and social disruptions in California. It is unique in that it successfully documents topics such as energy, health, and cities and brings this information directly to bear on environmental issues. Appealing to the intellect as well as to our sense of aesthetics, Brechin and Dawson provide a timely wake-up call in this brave, honest, and straightforward assessment of California's fate. Historical accounts of California tell of flocks of birds so dense in the sky that they cast a shadow on the ground and of thunderous rivers of geese, ducks, and swans moving down the state to the lagoons of Mexico and beyond. Today, citizens and travelers

**Water and the California Dream** David Carle, 2016-05-01 In the last one hundred years, imported water has transformed the environment of the Golden State and its quality of life with land ownership patterns and real estate boosterism dramatically altering both urban and rural communities. The key to this transformation has been expanded access to water from the Eastern Sierra, the Colorado River, and Northern California rivers. Whoever brings the water brings the people, wrote engineer William Mulholland, under whose leadership the process of growth through irrigation began. Now, using first-person voices of Californians to reveal the resulting changes, author David Carle concludes that it may be time to stop drowning the California dream of the good life with imported water. Using oral histories, contemporary newspaper articles, and autobiographies, Carle explores the historic changes in California, showing how imported water has shaped the

pattern of population growth in the state Because water choices remain the primary tool for shaping California's future Carle also argues that it is possible to improve both the state's damaged environment and the quality of life if Californians will step out of this historic pattern and embrace limited water supplies as a fact of life in this naturally dry region **A Companion to California History** William Deverell, David Igler, 2014-01-28 This volume of original essays by leading scholars is an innovative thorough introduction to the history and culture of California Includes 30 essays by leading scholars in the field Essays range widely across perspectives including political social economic and environmental history Essays with similar approaches are paired and grouped to work as individual pieces and as companions to each other throughout the text Produced in association with the Huntington USC Institute on California and the West Dorothea Lange Linda Gordon, 2010-09-21 Dorothea Lange's photographs define how we remember the Depression generation now an evocative biography defines her creative struggles and enduring legacy We all know Dorothea Lange's iconic photos the Migrant Mother holding her child the gaunt men forlornly waiting in breadlines but few know the arc of her extraordinary life In this sweeping account renowned historian Linda Gordon charts Lange's journey from polio-ridden child to wife and mother to San Francisco portrait photographer to chronicler of the Great Depression and World War II Gordon uses Lange's life to anchor a moving social history of twentieth-century America re-creating the bohemian world of San Francisco the Dust Bowl and the Japanese American internment camps She explores Lange's growing radicalization as she embraced the democratic power of the camera and she examines Lange's entire body of work reproducing more than one hundred images many of them previously unseen and some of them formerly suppressed Lange reminds us that beauty can be found in unlikely places and that to respond to injustice we must first simply learn how to see it Dominion from Sea to Sea Bruce Cumings, 2009-11-17 America is the first world power to inhabit an immense land mass open at both ends to the world's two largest oceans the Atlantic and the Pacific This gives America a great competitive advantage often overlooked by Atlanticists whose focus remains overwhelmingly fixed on America's relationship with Europe Bruce Cumings challenges the Atlanticist perspective in this innovative new history arguing that relations with Asia influenced our history greatly Cumings chronicles how the movement westward from the Middle West to the Pacific has shaped America's industrial technological military and global rise to power He unites domestic and international history international relations and political economy to demonstrate how technological change and sharp economic growth have created a truly bicoastal national economy that has led the world for more than a century Cumings emphasizes the importance of American encounters with Mexico the Philippines and the nations of East Asia The result is a wonderfully integrative history that advances a strong argument for a dual approach to American history incorporating both Atlanticist and Pacificist perspectives *The Pacific Region* Jan Goggans, Aaron DiFranco, 2004-12-30 Robert Penn Warren once wrote West is where we all plan to go some day and indeed images of the westernmost United States provide a mythic horizon to American cultural landscape While the five states California Oregon

Washington Alaska and Hawai i which touch Pacific waters do share commonalities within the history of westward expansion the peoples who settled the region and the indigenous peoples they encountered have created spheres of culture that defy simple categorization This wide ranging reference volume explores the marvelously eclectic cultures that define the Pacific region From the music and fashion of the Pacific northwest to the film industry and surfing subcultures of southern California from the vast expanses of the Alaskan wilderness to the schisms between native and tourist culture in Hawa ii this unprecedented reference provides a detailed and fascinating look at American regionalism along the Pacific Rim The Greenwood Encyclopedia of American Regional Cultures is the first rigorous reference collection on the many ways in which American identity has been defined by its regions and its people Each of its eight regional volumes presents thoroughly researched narrative chapters on Architecture Art Ecology Ethnicity Fashion Film Folklore Food Language Literature Music Religion and Sports Recreation Each book also includes a volume specific introduction as well as a series foreword by noted regional scholar and former National Endowment for the Humanities Chairman William Ferris who served as consulting editor for this encyclopedia

Valley of Heart's Delight Anne Marie Todd, 2022-10-25 This agricultural history explores the transformation of the Santa Clara Valley over the past one hundred years from America s largest fruit producing region into the technology capital of the world In the latter half of the twentieth century the region s focus shifted from fruits such as apricots and prunes to computers Both personal and public rhetoric reveals how a sense of place emerges and changes in an evolving agricultural community like the Santa Clara Valley Through extensive archival research and interviews Anne Marie Todd explores the concepts of place and placelessness arguing that place is more than a physical location and that exploring a community s sense of place can help us to map how individuals experience their natural surroundings and their sense of responsibility towards the local environment Todd extends the concept of sense of place to describe Silicon Valley as a non place where weakened or disrupted attachment to place threatens the environment and community The story of the Santa Clara Valley is an American story of the development of agricultural lands and the transformation of rural regions

Made in California Stephanie Barron, Sheri Bernstein, Ilene Susan Fort, 2000 Unusually inclusive visually intriguing and beautifully produced Made in California will appeal to anyone who has lived in visited or imagined California

Coastal Sage Thomas J. Osborne, 2018 There are moments when we forget how fortunate we are to have the California coast The state is home to 1 100 miles of uninterrupted coastline defined by long stretches of beach and jagged rocky cliffs Coastal Sage chronicles the career and accomplishments of Peter Douglas the longest serving executive director of the California Coastal Commission For nearly three decades Douglas fought to keep the California coast public prevent overdevelopment and safeguard habitat In doing so Douglas emerged as a leading figure in the contemporary American environmental movement and influenced public conservation efforts across the country He coauthored California s foundational laws pertaining to shoreline management and conservation Proposition 20 and the California Coastal Act Many of the political battles to save the coast

from overdevelopment and secure public access are revealed for the first time in this study of the leader who was at once a visionary warrior and coastal sage

**Baseball and the American Dream** Robert Elias, 2016-04-15 A fascinating look at how America's favorite sport has both reflected and shaped social economic and

Field Guide to California Agriculture Paul Starrs, Peter Goin, 2010-07-06 This book brings to life one of the most creative and necessary human endeavors and makes understandable the incredible complexity of California agriculture one of the world's most daring experiments in feeding itself A valuable resource that should be read by everyone not just those of us who farm but all of us who depend on farms Michael Ableman farmer photographer and author of *From the Good Earth On Good Land and Fields of Plenty* No understanding of this state is possible without an understanding of its agriculture that's how important this subject is Gerald Haslam author of *Workin' Man Blues Country Music in California* A fascinating intriguing and sometimes even humorous exploration of California's agriculture from broccoli to marijuana and beyond At long last a book everyday people can read to understand the state's biggest industry Louis Warren University of California Davis

*The Columbia Guide to American Environmental History* Carolyn Merchant, 2005-09-14 How and why have Americans living at particular times and places used and transformed their environment How have political systems dealt with conflicts over resources and conservation This is the only major reference work to explore all the major themes and debates of the burgeoning field of environmental history Humanity's relationship with the natural world is one of the oldest and newest topics in human history The issue emerged as a distinct field of scholarship in the early 1970s and has been growing steadily ever since The discipline's territory and sources are rich and varied and include climactic and geological data court records archaeological digs and the writings of naturalists as well as federal and state economic and resource development and conservation policy Environmental historians investigate how and why natural and human created surroundings affect a society's development Merchant provides a context setting overview of American environmental history from the beginning of the millennium an encyclopedia of important concepts people agencies and laws a chronology of major events and an extensive bibliography including films videos CD Roms and websites This concise first stop reference for students and general readers contains an accessible overview of environmental history a mini encyclopedia of ideas people legislation and agencies a chronology of events and their significance and a bibliography of books magazines and journals as well as films videos CD ROMs and online resources In addition to providing a wealth of factual information *The Columbia Guide to American Environmental History* explores contentious issues in this much debated field from the idea of wilderness to global warming How and why have Americans living at particular times and places used and transformed their environment How have political systems dealt with conflicts over resources and conservation This is the only major reference work to explore all the major themes and debates in the burgeoning field of environmental history Humanity's relationship with the natural world is one of the oldest and newest topics in human history The issue emerged as a distinct field of scholarship in the early 1970s and has been growing steadily

ever since The discipline s territory and sources are rich and varied and include climatic and geological data court records archaeological digs and the writings of naturalists as well as federal and state economic and resource development and conservation policy Environmental historians investigate how and why natural and human created surroundings affect a society s development Merchant provides a context setting overview of American environmental history from the precolonial land use practice of Native Americans and concluding with twenty first concerns over global warming The book also includes a glossary of important concepts people agencies and legislation a chronology of major events and an extensive bibliography including films videos CD ROMs and websites This concise reference for students and general readers contains an accessible overview of American environmental history a mini encyclopedia of ideas people legislation and agencies a chronology of events and their significance and a bibliography of books magazines and journals as well as films videos CD ROMs and online resources In addition to providing a wealth of factual information The Columbia Guide to American Environmental History explores contentious issues in this much debated field from the idea of wilderness to global warming

[A History of California Literature](#) Blake Allmendinger,2015-05-19 This History explores the historical periods literary genres and cultural movements of California

**Deep California** Craig Chalquist,2008-06 California has been invaded by three imperial powers Spain Mexico and the United States Deep California examines in depth the lingering psychological traumas and motifs emanating from that long history of conquest These unhealed events have not been left in the past they recur symbolically again and again growing in intensity as the overbuilt land and its distracted occupiers unconsciously but definitively demonstrate that environmental justice and social justice can no longer be thought of as separate Pacing crusaders and colonizers from county to county along El Camino Real Deep California studies the lingering impact of continuous oppression of people and places as images and themes of displacement and exile filter down into architecture agriculture politics art culture psychology and even folklore and dream Yet within the shadows cast over California also dwell resistance humor irony tragedy and hope for more heartfelt and soulful connections to this story rich land of the sundown sea History is an inadequate term for such a sweeping and deep discovery of how the past informs the present This work deserves to be read widely by all Californians and Americans and taken to heart and the hard lessons applied to all places we inhabit on this stolen land Lesley Thomas author of Flight of the Goose Far Eastern Press 2005 A monumental and much needed study in depth of the conquest occupation traumatization and animation of the mission cities and counties of coastal California places which have worked their way into our unsuspecting psyches Linda Buzzell MA MFT co editor of Ecotherapy Healing with Nature in Mind Sierra Club Books 2009

**Down to Earth** Theodore Steinberg,2019 In this ambitious and provocative text environmental historian Ted Steinberg offers a sweeping history of the United States a history that places the environment at the very center of the narrative Now in a new edition Down to Earth reenvisions the story of America from the ground up It reveals how focusing on plants animals climate and other ecological factors can radically change the way that we think about

the past Examining such familiar topics as colonization the industrial revolution slavery the Civil War and the emergence of consumer culture Steinberg recounts how the natural world influenced the course of human history From the colonists attempts to impose order on the land to modern efforts to sell the wilderness as a consumer good he reminds readers that many critical episodes in U S history were in fact environmental events The text highlights the ways in which Americans have attempted to reshape and control nature from Thomas Jefferson s surveying plan which divided the national landscape into a grid to the transformation of animals crops and even water into commodities

**Managing Water** Dorothy Green,2007-10-09 Dorothy Green has produced a tour de force with her wonderfully clear exposition of the evolution of water management successes and failures in the greater Los Angeles area and much of the state Norris Hundley author of The Great Thirst Californians and Water A History If you have questions about water management in California this book holds the answers Water delivery systems make life possible in California from natural watersheds and rivers to man made aqueducts treatment plants and delivery pipes Dorothy Green s Managing Water uses the Los Angeles area to tell a statewide story of water supply drinking water quality and treatment conservation recycling and future planning How is water kept pure or when polluted made clean again What contaminates lurk in groundwater basins What agency delivers water to your home And how are water policy decisions made that effect your future This is a detailed summary of the complex world of California water management that provides common sense recommendations for the future David Carle author of Introduction to Water in California For students of California water Dorothy Green uses the complexity of water management in the Los Angeles area as the essential classroom This is required reading and a necessary reference for all who participate in southern California s efforts to manage its most limited and threatened resource Jeffrey Mount University of California Davis author of California Rivers and Streams

**Imperial** William T. Vollmann,2009-07-30 From the author of Europe Central winner of the National Book Award a journalistic tour de force along the Mexican American border a finalist for the National Book Critics Circle Award For generations of migrant workers Imperial Country has held the promise of paradise and the reality of hell It sprawls across a stirring accidental sea across the deserts date groves and labor camps of Southeastern California right across the border into Mexico In this eye opening book William T Vollmann takes us deep into the heart of this haunted region exploring polluted rivers and guarded factories and talking with everyone from Mexican migrant workers to border patrolmen Teeming with patterns facts stories people and hope this is an epic study of an emblematic region

**Art of Engagement** Peter Selz,Susan Landauer,2006-01-09 Art of Engagement focuses on the key role of California s art and artists in politics and culture since 1945 The book showcases many types of media including photographs found objects drawings and prints murals painting sculpture ceramics installations performance art and collage

**Tending the Wild** Kat Anderson,2005 This is a highly significant one might argue revolutionary book It and the author s previous research has the potential to completely change the way western land managers relate to the land and the

resources they are trying to regulate Even more it has the power to influence the way that all of us approach Nature and will reinforce the importance of Native Americans and the sophistication of their knowledge Nancy J Turner University of Victoria

Tending the Wild is an enormously rich and highly readable text on the remarkably diverse land management techniques practiced by California Indians over millennia This book serves as an invaluable resource as we strive to conserve California s enormous cultural and biotic heritage in the new century A triumph Michael H Horn California State University Fullerton

Tending the Wild supports the little know fact that Indian groups in California historically practiced a kind of environmental bonsai through their centuries long management activities Kat Anderson s work is timely and will make an important contribution toward a better understanding of the historic ecologies of North America Greg Cajete University of New Mexico

### **Farewell Promised Land Waking From The California Dream Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Farewell Promised Land Waking From The California Dream PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Farewell Promised Land Waking From The California

Dream PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Farewell Promised Land Waking From The California Dream free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### **FAQs About Farewell Promised Land Waking From The California Dream Books**

1. Where can I buy Farewell Promised Land Waking From The California Dream books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
