## **Farewell Promised Land Waking From:**

**Farewell, Promised Land** Robert Dawson, Gray A. Brechin, 1999-01-01 Don't mistake the message of this sad and powerful book. After 150 years of pillage and pollution it is time to fight like hell for California. Mike Davis, author of *City of Quartz*. A heart-rendingly splendid book for all who love California. It combines stunning photographic documentation of the trashing of the state with an eloquent melancholy text that still offers guarded hopes for a green future. Ernest Callenbach, author of *Ecotopia*.

*Farewell, Promised Land* Robert Dawson, Gray Brechin, 2023-12-22 Historical accounts of California tell of flocks of birds so dense in the sky that they cast a shadow on the ground and of thunderous rivers of geese, ducks and swans moving down the state to the lagoons of Mexico and beyond. Today citizens and travelers in California take for granted skies empty of almost everything but the contrails of airplanes. But far more than wildlife is missing from California today. In text and photographs *Farewell Promised Land* documents the stark contrast between the California landscape of this past and what it has become as it traces the evolution of the California environment and looks ahead to what the future holds. When writer Gray Brechin and photographer Robert Dawson received the 1992 Dorothea Lange Paul Taylor Prize from Duke University's Center for Documentary Studies they began a five-year project of driving and flying around California to record the present state of its environment. This book is the result of that collaboration. In six thematic chapters dealing with Loss, Mining, Farming, Cities, Energy and Health the authors provide a sobering look at California's environment. A concluding chapter introduces individuals and organizations now attempting to redeem the state from its present course. *Farewell Promised Land* is a superb vehicle for communicating the causes, context and seriousness of environmental and social disruptions in California. It is unique in that it successfully documents topics such as energy, health and cities and brings this information directly to bear on environmental issues. Appealing to the intellect as well as to our sense of aesthetics Brechin and Dawson provide a timely wake-up call in this brave, honest and straightforward assessment of California's fate. Historical accounts of California tell of flocks of birds so dense in the sky that they cast a shadow on the ground and of thunderous rivers of geese, ducks and swans moving down the state to the lagoons of Mexico and beyond. Today citizens and travelers

**A Cultural History of the Radical Sixties in the San Francisco Bay Area** Anthony Ashbolt, 2015-10-06 The San Francisco Bay Area was a meeting point for radical politics and counterculture in the 1960s. Until now there has been little understanding of what made political culture here unique. This work explores the development of a regional culture of radicalism in the Bay Area, one that underpinned both political protest and the counterculture.

**Valley of Heart's Delight** Anne Marie Todd, 2022-10-25 This agricultural history explores the transformation of the Santa Clara Valley over the past one hundred years from America's largest fruit-producing region into the technology capital of the world. In the latter half of the twentieth century the region's focus shifted from fruits such as apricots and prunes to computers. Both personal and public rhetoric reveals how a sense of place emerges and changes in an evolving agricultural community like the Santa Clara Valley.

Through extensive archival research and interviews Anne Marie Todd explores the concepts of place and placelessness arguing that place is more than a physical location and that exploring a community's sense of place can help us to map how individuals experience their natural surroundings and their sense of responsibility towards the local environment Todd extends the concept of sense of place to describe Silicon Valley as a non place where weakened or disrupted attachment to place threatens the environment and community The story of the Santa Clara Valley is an American story of the development of agricultural lands and the transformation of rural regions

**After the Ruins, 1906 and 2006** Mark Klett, Michael Lundgren, Philip L. Fradkin, Rebecca Solnit, Karin Breuer, Legion of Honor (San Francisco, Calif.), 2006 How has San Francisco's urban landscape changed in the hundred years since the earthquake and cataclysmic firestorms that destroyed three quarters of the city in 1906 For this provocative rephotography project photographer Klett has gone to the same locations pictured in 45 photographs taken in the days following the 1906 earthquake and fires and precisely duplicated each photograph's vantage point The result is a powerful comparison that challenges our preconceptions about time history and culture Features an essay by noted environmental historian Philip Fradkin on the events surrounding and following the 1906 earthquake which he describes as the equivalent of an intensive three day bombing raid Publisher description

*Field Guide to California Agriculture* Paul Starrs, Peter Goin, 2010-07-06 This book brings to life one of the most creative and necessary human endeavors and makes understandable the incredible complexity of California agriculture one of the world's most daring experiments in feeding itself A valuable resource that should be read by everyone not just those of us who farm but all of us who depend on farms Michael Ableman farmer photographer and author of *From the Good Earth On Good Land and Fields of Plenty* No understanding of this state is possible without an understanding of its agriculture that's how important this subject is Gerald Haslam author of *Workin' Man Blues Country Music in California* A fascinating intriguing and sometimes even humorous exploration of California's agriculture from broccoli to marijuana and beyond At long last a book everyday people can read to understand the state's biggest industry Louis Warren University of California Davis

**Storming the Gates of Paradise** Rebecca Solnit, 2007-06-18 Rebecca Solnit has made a vocation of journeying into difficult territory and reporting back as an environmentalist antiglobalization activist and public intellectual Storming the Gates of Paradise an anthology of her essential essays from the past ten years takes the reader from the Pyrenees to the U S Mexican border from San Francisco to London from open sky to the deepest mines and from the antislavery struggles of two hundred years ago to today's street protests The nearly forty essays collected here comprise a unique guidebook to the American landscape after the millennium not just the deserts skies gardens and wilderness areas that have long made up Solnit's subject matter but the social landscape of democracy and repression of borders ruins and protests She ventures into territories as dark as prison and as sublime as a broad vista revealing beauty in the harshest landscape and political struggle in the most apparently serene view Her introduction sets the tone and the book's overarching themes as she describes Thoreau leaving the jail cell where he had been confined for

refusing to pay war taxes and proceeding directly to his favorite huckleberry patch In this way she links pleasure to politics brilliantly demonstrating that the path to paradise has often run through prison These startling insights on current affairs politics culture and history always expressed in Solnit s pellucid and graceful prose constantly revise our views of the otherwise ordinary and familiar Illustrated throughout Storming the Gates of Paradise represents recent developments in Solnit s thinking and offers the reader a panoramic world view enriched by her characteristically provocative inspiring and hopeful observations
