**A Farm Boy in the Foreign Service** Harry H. Kendall, 2003-08 *Tales of Travel, Love, and Survival in the Foreign Service* Hope Gander Goodwin, 2018-11-16 Living and working in twenty developing countries is no small challenge especially when six children are involved in every move and transition As *Tales of Travel Love and Survival in the Foreign Service* reveals Hope Gander Goodwin proved to be up to the task during forty five years of being an inspiration and active partner to her husband Joe whose foreign service career included the United States Agency for International Development university contracts and private sector positions in economic development Tours of duty were in Africa Asia Eastern Europe and Central and South America The Goodwin family endured many sacrifices and experienced dangerous situations On the other hand the benefits derived far outweigh the negative side of life abroad Helping those in need to help themselves is a gift and a blessing While attempting to sincerely make a difference in the world their accomplishments far exceed disappointments These parents are most proud of their legacy in producing compassionate productive broad minded world citizens Diplomacy endless love strength and survival prevail in this inspiring autobiography *The Conference on Training for Foreign Service* Anna Tolman Smith, Chester Deacon Jarvis, United States. Office of Education, 1917 [Foreign Service Journal](#), 2010 *Operation Moonglow* Teasel Muir-Harmony, 2020-11-24 The moon landing was an important moment in history but many forget what was happening behind the scenes discover the groundbreaking political history of the Apollo program in this riveting exploration of America's space missions Since July 1969 Neil Armstrong's first step on the Moon has represented the pinnacle of American space exploration and a grand scientific achievement Yet as Smithsonian curator Teasel Muir-Harmony argues in *Operation Moonglow* its primary purpose wasn't advancing science Rather it was part of a political strategy to build a global coalition Starting with President John F Kennedy's 1961 decision to send astronauts to the Moon to promote American freedom over Soviet tyranny Project Apollo was central to American foreign relations From that perspective the critical event did not just take place on the lunar surface it took place in homes public squares palaces and schools around the world as Apollo captured global attention like never before After the Moon landing the Apollo astronauts and President Richard Nixon traveled the world to amplify the sense of participation and global unity shared by billions of people who followed the flight Drawing on a rich array of untapped archives and firsthand interviews with Apollo astronauts *Operation Moonglow* paints a riveting picture of the intersection of spaceflight geopolitics propaganda and diplomacy during the Cold War **The First Resort of Kings** Richard T. Arndt, 2011 A landmark study of the most neglected tool of U S foreign policy [American Diplomacy's Public Dimension](#) Bruce Gregory, 2024-01-12 This is the first book to frame U S public diplomacy in the broad sweep of American diplomatic practice from the early colonial period to the present It tells the story of how change agents in practitioner communities foreign service officers cultural diplomats broadcasters citizens soldiers covert operatives democratizers and presidential aides revolutionized traditional government to government

diplomacy and moved diplomacy with the public into the mainstream This deeply researched study bridges practice and multi disciplinary scholarship It challenges the common narrative that U S public diplomacy is a Cold War creation that was folded into the State Department in 1999 and briefly found new life after 9 11 It documents historical turning points analyzes evolving patterns of practice and examines societal drivers of an American way of diplomacy a preference for hard power over soft power episodic commitment to public diplomacy correlated with war and ambition an information dominant communication style and American exceptionalism It is an account of American diplomacy s public dimension the people who shaped it and the socialization and digitalization that today extends diplomacy well beyond the confines of embassies and foreign ministries
