**Heroines in History** Katie Pickles, 2022-07-21 Heroines in History A Thousand Faces moves beyond stories of individual heroines taking a thematic synthesising and global in scope approach to challenge previous understandings of heroines in history Responding to Joseph Campbell's Hero with a Thousand Faces Katie Pickles explores the idea of a transcultural heroine archetype that recurs through time Each chapter addresses an archetypal theme important for heroines in history The volume offers a new consideration of the often awkward position of women in history and embeds heroines in the context of their times as well as interpreting and analysing how their stories are told re told and represented at different moments To do so it recovers and compares some women now forgotten along with well known recent heroines and brings together a diversity of women from around the world Pickles looks at the interplay of gender race heredity status class and politics in different ways and chronicles the emergence of heroines as historical subjects valued for their substance and achievements rather than as objects valued for their image and celebrity In an accessible and original way the book builds upon developments in women's and gender history and is essential reading for anyone interested in this field Women's History at the Cutting Edge Karen Offen, Chen Yan, 2020-06-04 This book considers the promise of women's and gender history for

revolutionizing our understanding of the past while also acknowledging the current national political financial and other contextual realities that can and do constrain or promote the possibilities for researching and writing women's history. The editors assert that the promise of women's and gender history is a cutting edge field of research a revolutionary development in the politics of historical scholarship essential for understanding the human past. Further they argue for the inseparability of women's history and gendered analytical approaches. The contributors to the volume address questions including what have been the achievements of women's and gender history over the past two decades. To what extent has it succeeded in making women's history an integral part of historical study rather than an optional specialist area. What impact has the study of manhood masculinities and men's gendered power had on our understanding of women's lives. What is the relationship between gender studies and new critical histories of colonialism and empire contact zones cross cultural encounters and racialization. How is new work on cultural geography and spatial categories impacting on our historical understandings of bodily difference. This book was originally published as a special issue of the *Women's History Review*. **Women's History in Global Perspective** Bonnie G. Smith, 2004. The American Historical Association's Committee on Women Historians commissioned some of the pioneering figures in women's history to prepare essays in their respective areas of expertise. It examines women in ancient civilizations including women in China Japan and Korea women and gender in South and South East Asia Medieval women women and gender in Colonial Latin America and the history of women in the US to 1865. Authors included are Sarah Hughes and Brady Hughes Susan Mann Barbara N Ramusack Judith M Bennett Ann Twinam and Kathleen Brown.
