by Ford, Glyn

Fascist Europe The Rise Of Racism And Xenophobia

Paul Hainsworth

Fascist Europe The Rise Of Racism And Xenophobia:

Fascist Europe Glyn Ford,1992 This book examines the new framework of ideas since 1989 which will inform our understanding on how development in the old Third World should be understood **Fascist Europe** Glyn Ford,1992 **The Routledge Companion to Fascism and the Far Right** Peter Davies,Derek Lynch,2005-08-16 The Routledge Companion to Fascism and the Far Right is an engaging and accessible guide to the origins of fascism the main facets of the ideology and the reality of fascist government around the world In a clear and simple manner this book illustrates the main features of the subject using chronologies maps glossaries and biographies of key individuals As well as the key examples of Hitler s Germany and Mussolini s Italy this book also draws on extreme right wing movements in Latin America Eastern Europe and the Far East In a series of original essays the authors explain the complex topics including the roots of fascism fascist ideology fascism in government and opposition nation and race in fascism fascism and society fascism and economics fascism and diplomacy *Interpretations of Fascism* A. James Gregor,2017-07-05 This volume constitutes a survey of social science efforts to explain the fascist phenomenon Attempts to adequately interpret fascism have involved an inordinate number of social researchers and historians for an inordinate amount of time over the past half century For all that we still find ourselves without a compelling account of the entire complex sequence Fascism constitutes a significant concern for students of contemporary politics To develop an intellectually defensible explanation of the nature origins and development of Italian Fascism and German Nazism remains a responsibility still outstanding *Interpretations of Fascism* provides a review of the efforts that have been made to date to interpret and explain the phenomenon It addresses itself specifically to those efforts undertaken to provide a social science explanation of Mussolini s Fascism Dealing with the special application of social science methods to a specific problem the book provides a special angle to examine this ubiquitous system in a comparable context The book should be useful for college courses in political theory comparative politics democracy and dictatorship economic and political change and modern European history The new edition is graced by a provocative lengthy new essay reviewing the literature from 1973 through 1996 As such it is an up to date examination of fascism in our times Professor Gregor is careful to emphasize that fascist movements can thrive in confines far beyond Italy and Germany It has found fertile soil from Russia to Africa In short Gregor argues that this makes fascism a movement that extends through political space no less than historical time The documentation of the book is now very rich with a bibliographic review that can serve experts and generalists alike Stanley G Payne credits Gregor with clearing away useless obfuscatory theoretical debris claiming that Gregor s book serves the study of fascist politics very well indeed And Giuseppe Prezzolini introduced the Italian language edition by noting that *Interpretations of Fascism* is rich in information and scientifically precise in style a reflection of an intelligence that operates beyond passions *The Search for Neofascism* A. James Gregor,2006-03-27 Publisher description *Racist Violence in Europe* Rob Witte,Tore Bjorgo,2016-07-27 All over Europe asylum seekers

immigrants and minorities are increasingly finding themselves under violent attack Who are the perpetrators What are their motives To what extent are right wing or neo Nazi organizations involved How do the authorities and the police respond What are the roles of the media the public opinion and anti racist movements What can be done to stop the violence These are questions addressed in this volume by some of Europe s leading experts on racism and racist violence

Marxism, Fascism, and Totalitarianism A. James Gregor, 2008-10-08 This work traces the changes in classical Marxism the Marxism of Karl Marx and Friedrich Engels that took place after the death of its founders It outlines the variants that appeared around the turn of the twentieth century one of which was to be of influence among the followers of Adolf Hitler another of which was to shape the ideology of Benito Mussolini and still another of which provided the doctrinal rationale for V I Lenin s Bolshevism and Joseph Stalin s communism This account differs from many others by rejecting a traditional left right distinction a distinction that makes it difficult to understand how totalitarian political institutions could arise out of presumably diametrically opposed political ideologies Marxism Fascism and Totalitarianism thus helps to explain the common features of left wing and right wing regimes in the twentieth century

The European Union, Antisemitism, and the Politics of Denial R. Amy Elman, 2015-02-01 Copublished with the Vidal Sassoon International Center for the Study of Antisemitism this study asks if the European Union EU has the capacity or the will to counter antisemitism The desire to counter antisemitism was a significant impetus toward the formation of the EU in the twentieth century and now prejudice against Jews threatens to subvert that goal in the twenty first The European Union Antisemitism and the Politics of Denial offers an overview of the circumstances that obliged European political institutions to take action against antisemitism and considers the effectiveness of these interventions by considering two seemingly dissimilar EU states Austria and Sweden This examination of the European Union s strategy for countering antisemitism discloses escalating prejudice within the EU in the aftermath of 9 11 R Amy Elman contends that Europe s political actors have responded to the challenge and provocation of antisemitism with only sporadic rhetoric and inconsistent commitment this halfhearted strategy for countering anti Semitism exacerbates skepticism toward EU institutions and their commitment to equality and justice This exposition of the insipid character of the EU s response simultaneously suggests alternatives that might mitigate the subtle and potentially devastating creep of antisemitism in Europe The author offers a new approach insofar as scholarly considerations of the EU s attempts to combat racism rarely focus on antisemitism while scholarship on antisemitism rarely considers the political context of the European Union

Confronting Right Wing Extremism and Terrorism in the USA George Michael, 2003-09-02 This book examines the response to right wing extremism in the US from both the government and non governmental organisations It provides a detailed portrait of the contemporary extreme right in the US including interviews with several of the movement s leading figures from groups such as the Ku Klux Klan Militias American Renaissance and the White Aryan Resistance The author also explains how the activities of these racist groups have been curbed due to the

campaigning efforts of anti racist and anti fascist watchdogs who have helped to shape and influence government policy

The Impact of Radical Right-Wing Parties in West European Democracies M. Williams,2006-09-02 This book contends that far right parties play pivotal roles in setting the tone of political debates shaping the political party system and structuring government policy Increasingly as national governments attempt to cope with new realities of greater global migration strained welfare states and threats of foreign terror opportunities have opened for parties of the far right to position themselves strategically

The Extreme Right Aurel Braun,2018-02-12 This book offering a historical sociological account of right wing extremist movements in American history seeks to identify threats to freedom and security assess the responses to such threats and suggest some means of dealing with the potential dangers

Patterns of Social Inequality Huw Beynon,Pandeli Glavanis,2014-06-06 Written by a group of the UK s leading Sociologists this book covers in one volume all of the themes central to an understanding of contemporary British Society Essays provide an historical overview of such topics as class gender work ethnicity and community but also make a theoretical and substantive contribution to current debates

EU: Beyond the Crisis Nikolaos Papakostas,Nikolaos Pasamitros,2016-03-15 Though crises arise organically in all political systems this volume treats the current challenges facing the EU as a unique situation It takes stock of its losses gains and opportunities and what constitutes a viable solution to the EU s current predicament By envisioning the EU as an evolving rather than static body this collection zeroes in on the conceptual weaknesses that destabilized the EU and the factors that will help the organization rethink its place and purpose This book clarifies aspects of EU parliamentarism within the context of the unfolding crisis and addresses political cohesion and institutional integration It ultimately stresses the role of perception and image on the future of the EU s social and political integration

Who are the Europeans Now? Edward Moxon-Browne,2016-12-05 Challenging the orthodox view that European integration is eroding national identity this groundbreaking volume links identity citizenship and democratic legitimacy in a unique way by focusing on key themes the suggestion that the EMU project is much more than an economic enterprise it will invade national sovereignty and destroy cherished national symbols relating assertive regional and ethnic identities to evolving concepts of EU citizenship and a European identity the danger the whole European project may be in if a genuine EU level citizenship is not created The role of frontiers in the integration process is ambiguous and double edged Frontier zones once had a life of their own and ironically integration emphasizes frontiers in a new way Written by authors of different nationalities and disciplines this timely volume is accessible for readers from many backgrounds and will lead them to a clearer understanding of the

metamorphosing New Europe

The Populist Challenge Jens Rydgren,2004-06-01 During the last decade and a half a new political party family the extreme Right wing populist ERP parties has established itself in a variety of West European democracies These parties represent a monist politics based on ethnic nationalism and xenophobia as well as an opposition against the political establishment Being the prototypic ERP party the French Front National FN has been a model for ERP

parties emerging elsewhere in Western Europe This study presents a theoretically based explanation that combines the macro and the micro level as well as the political supply and the demand side More specifically this study shows that it is necessary to consider both opportunity structures created by demand and supply side factors as well as the ability of the FN to take advantage of the available opportunities Of particular interest is the author s analysis of the sociology and attitudes of the FN voters

The Politics of the Extreme Right Paul Hainsworth,2016-10-06 Fascist authoritarian anti Semitic and extremist movements made a powerful and devastating contribution to the 20th century While the experiences of the 1930s and 1940s served to delegitimise such forces contemporary Europe and the USA have witnessed the resurgence of extreme right wing politics Rapid socio economic change the appeal of nationalism the failures of mainstream political parties and intense campaigning around issues such as immigration security and unemployment have all fuelled the phenomenon This book a sequel to *The Extreme Right in Europe and the USA* provides a comprehensive analysis of the nature and prevalence of extreme right movements in Europe both West and East and in the USA at the turn of the millennium The authors reveal the uneven process of extreme right wing revival which has varied from country to country depending on specific political cultures and circumstances with some movements confined to the margins while others have moved towards the political mainstream They examine the ideas policies personalities organizations voters and reasons for the success of extreme right wing movements in a range of countries as well as providing a more general examination of the nature and politics of the extreme right

Phoenix A. James Gregor,2017-10-23 A great deal of effort has been expended by Anglo American scholars in an attempt to isolate past and contemporary fascisms neofascisms cryptofascisms and latent fascisms in the modern world A James Gregor s *Phoenix Fascism in Our Time* is an insightful history of the intellectual rationale for Benito Mussolini s fascism offered by major Italian intellectuals The book provides a list of recurrent features that helps to identify the generic phenomenon This lucid account reviews seriously neglected aspects of intellectual history describing the socioeconomic and political conditions that precipitate and sustain fascism Gregor shows that Italian fascism was supported by a responsible and credible rationale His account of that rationale permits us to understand the appeal fascism as an ideal has exercised over elites and masses in the 20th century Gregor offers a credible list of traits in showing how instances of fascism can be identified when they first appear The last chapters of the work are devoted to a case study of the newly emergent post Soviet Russian nationalism and its affinities with historic fascism Gregor discusses the implications of the rise of generic fascism in the former Soviet Union and post Maoist China This timely volume offers an alternative to conventional interpretations of the major historical events of the 20th century *Phoenix* is must reading for scholars and policymakers dealing with European history between the two world wars and should will be instructive for anyone interested in the fascist ideology in a new millennium

Living with Globalization Paul Hopper,2006-03-01 The term globalization generally refers to the homogenization of cultures across the world due to Western encroachment However as this book explains the

process is far more subtle complex and uneven Taking as its starting point the fundamental question of whether globalization exists Living with Globalization provides a lively discussion of one of the most used and abused concepts in the twenty first century If globalization is a valid construct it manifests itself in lived experience not in abstract theories Examining the ways in which globalization is contributing to patterns of conflict Living with Globalization explores a variety of case studies ranging from 9 11 to identity formation The book reveals the complex ramifications of globalization on society government and everyday lives

The Legitimization of Violence David E. Apter, 2016-07-27 Violence is a more and more ubiquitous phenomenon While a great deal of attention has been paid to certain aspects terrorism for example it has not been studied as a political phenomenon in and of itself In The Legitimization of Violence eight well known specialists explore various types of violence from ideological to fundamentalist movements within a framework of comparative theory

Understanding Equal Opportunities and Diversity Barbara Bagilhole, 2009-04 This book challenges the official discourse that shapes the debates on Equal Opportunities and Diversity EO D at national regional and European level and will be a key text for students and researchers of EO D in many fields
