Fashion and Its Social Agendas Diana Crane, 2012-06-12 It has long been said that clothes make the man or woman but is it still true today If so how has the information clothes convey changed over the years Using a wide range of historical and contemporary materials Diana Crane demonstrates how the social significance of clothing has been transformed Crane compares nineteenth century societies France and the United States where social class was the most salient aspect of social identity signified in clothing with late twentieth century America where lifestyle gender sexual orientation age and ethnicity are more meaningful to individuals in constructing their wardrobes Today clothes worn at work signify social class but leisure clothes convey meanings ranging from trite to political In today's multicode societies clothes inhibit as well as facilitate communication between highly fragmented social groups Crane extends her comparison by showing how nineteenth century French designers created fashions that suited lifestyles of Paris elites but that were also widely adopted outside France By contrast today's designers operate in a global marketplace shaped by television film and popular music No longer confined to elites trendsetters are drawn from many social groups and most trends have short trajectories To assess the impact of fashion on women Crane uses voices of college aged and middle aged women who took part in focus groups These discussions yield fascinating information about women's perceptions of female identity and sexuality in the fashion industry An absorbing work *Fashion and Its Social Agendas* stands out as a critical study of gender fashion and consumer culture Why do people dress the way they do How does clothing contribute to a person's identity as a man or woman as a white collar professional or blue collar worker as a preppie yuppie or nerd How is it that dress no longer denotes social class so much as lifestyle Intelligent and informative this book proposes thoughtful answers to some of these questions Library Journal

Classifying Fashion, Fashioning Class Katherine Appleford, 2020-10-14 Drawing together theoretical ideas from across the social sciences *Classifying Fashion Fashioning Class* examines how the fashion class association has developed and using the experiences of middle and working class British women demonstrates how this relationship operates today Though increasingly academics argue that contemporary class distinctions are made through cultural practices and tastes few have fully explored just how individual s fashion choices mobilise class and are used in class evaluations Yet an individual s everyday dress is perhaps the most immediate marker of taste and thus an important means of class distinction This is particularly true for women as their performances of respectability femininity and motherhood are embodied by fashion and shaped by class In unpacking this fashion class relationship the book explores how fashion is used by British women to talk about class It offers important insights into the ways fashion mobilises class differences in understandings of dressing up performance and public space It considers how class identity shapes women s attitudes concerning fashion trends and classic styles and it draws attention to the pivotal role mothers play in cultivating these class distinctions The book will be of interest to students in sociology fashion studies cultural studies human geography and consumer behaviour **Inside**

marketing from the 1960s to the 1990s During this time young men began manipulating their identities by taking on the mannerisms culture and fashion of the working class and poor These style choices had contradictory meanings At once they were acts of rebellion by middleclass young men against their social stratum and its rules of masculinity and also examples of the privilege that allowed them to try on different identities for amusement or as a rite of passage Starting in the 1960s advertisers and marketers looking for new ways to appeal to young people seized on the idea of identity as a choice creating the field of lifestyle marketing Mary Rizzo traces the development of the concept of lifestyle marketing showing how marketers disconnected class identity from material reality focusing instead on a person s attitudes opinions and behaviors The book includes discussions of the rebel of the 1950s the hippie of the 1960s the white suburban hip hop fan of the 1980s and the poverty chic of the 1990s *Class Acts* illuminates how the concept of lifestyle particularly as expressed through fashion has disconnected social class from its material reality and diffused social critique into the opportunity to simply buy

Ageing, Corporeality and Embodiment Chris Gilleard, Paul Higgs, 2014-11-01 Ageing Corporeality and Embodiment outlines and develops an argument about the emergence of a new ageing during the second half of the twentieth century and its realisation through the processes of embodiment The authors argue that ageing as a unitary social process and agedness as a distinct social location have lost much of their purchase on the social imagination Instead this work asserts that later life has become as much a field for not becoming old as of old age The volume locates the origins of this transformation in the cultural ferment of the 1960s when new forms of embodiment concerned with identity and the care of the self arose as mass phenomena Over time these new forms of embodiment have been extended changing the traditional relationship between body age and society by making struggles over the care of the self central to the cultures of later life

James E. Katz, 2017-09-08 In this timely volume James E Katz a leading authority on social consequences of communication technology analyzes the way new mobile telecommunications affect daily life both in the United States and around the world *Magic in the Air* is the most wide ranging analysis of mobile communication to date Katz investigates the spectrum of social aspects of the cell phone's impact on society and the way social forces affect the use, display and re-configuration of the cell phone Surveying the mobile phone's current and emerging role in daily life Katz finds that it provides many benefits for the user and that some of these benefits are subtle and even counter intuitive He also identifies ways the mobile phone has not been entirely positive After reviewing these he outlines some steps to ameliorate the mobile phone's negative effects Katz also discusses use and abuse of mobile phones in educational settings where he finds that their use is eroding students' participation in class even as it is helping them to cheat on exams and cut class Parents no longer object to their children having mobile phones in class in a post Columbine and 9/11 era instead they are pressing schools to change their rules to allow students to have their phones available during class And mobile phone misbehavior is by no means limited to students Katz finds that teachers are increasingly taking calls in the middle of class even interrupting their own lectures to answer what they claim are important calls In keeping with the book's title Katz explores the often overlooked psychic and religious uses of the mobile phone an area that has only recently begun to command scholarly interest *Magic in the Air* will be essential reading for communications specialists sociologists and social psychologists *Sweet and Clean?* Susan

North, 2020-03-26 *Sweet and Clean* challenges the widely held beliefs on bathing and cleanliness in the past For over thirty years the work of the French historian George Vigarello has been hugely influential on early modern European social history describing an aversion to water and bathing and the use of linen underwear as the sole cleaning agent for the body However these concepts do not apply to early modern England *Sweet and Clean* analyses etiquette and medical literature revealing repeated recommendations to wash or bathe in order to clean the skin Clean linen was essential for propriety but advice from medical experts was contradictory Many doctors were convinced that it prevented the spread of contagious diseases but others recommended flannel for undergarments and a few thought changing a fever patient's linens was dangerous The methodology of material culture helps determine if and how this advice was practiced Evidence from inventories household accounts and manuals and surviving linen garments tracks underwear through its life cycle of production making wearing laundering and final recycling Although the material culture of washing bodies is much sparser other sources such as the Old Bailey records paint a more accurate picture of cleanliness in early modern England than has been previously described The contrasting analyses of linen and bodies reveal what histories material culture best serves Finally what of the diseases plague smallpox and typhus that cleanliness of body and clothes were thought to prevent Did following early modern medical advice protect people from these illnesses *Urban Nightlife* Reuben A. Buford May, 2014-09-02 Sociologists have long been curious about the ways in which city dwellers negotiate urban public space How do they manage myriad interactions in the

shared spaces of the city In *Urban Nightlife* sociologist Reuben May undertakes a nuanced examination of urban nightlife drawing on ethnographic data gathered in a Deep South college town to explore the question of how nighttime revelers negotiate urban public spaces as they go about meeting socializing and entertaining themselves May's work reveals how diverse parties define these spaces in particular the ongoing social conflict on the streets in bars and nightclubs and in the various public spaces of downtown To explore this conflict May develops the concept of integrated segregation the idea that diverse groups are physically close to one another yet rarely have meaningful interactions rather they are socially bound to those of similar race class and cultural backgrounds May's in depth research leads him to conclude that social tension is stubbornly persistent in part because many participants fail to make the connection between contemporary relations among different groups and the historical and institutional forces that perpetuate those very tensions structural racism remains obscured by a superficial appearance of racial harmony Through May's observations *Urban Nightlife* clarifies the complexities of race class and culture in contemporary America illustrating the direct influence of local government and nightclub management decision making on interpersonal interaction among groups Watch a video with Reuben A Buford May Watch video now <http://www.youtube.com/watch?v=VCs1xExStPw>
