and to revitalize the epidemic's past in order to remake the present and future of AIDS. Drawing on large institutional archives such as the New York Public Library as well as those developed by small community-based organizations, this work of archival ethnography details how contemporary activists, artists, and curators use these records to build on the cultural legacy of AIDS activism to challenge the conditions of injustice that continue to undergird current AIDS crises. Cifor analyzes the various power structures through which these archives are mediated, demonstrating how ideology shapes the nature of archival material and how it is accessed and used. Positioning vital nostalgia as both a critical faculty and a generative practice, this book explores the act of saving this activist past and reanimating it in the digital age. While many books, popular films, and major exhibitions have contributed to a necessary awareness of HIV and AIDS activism, *Viral Cultures* provides a crucial missing link by highlighting the powerful role of archives in making those cultural moments possible.

[The Conceptual Garment: Volumes on Fashion, Art and Archive \(Vol. V\)](#) By Salar Bil Salar Bil, Vol V The Eternal Garment: Time, Myth, and the Afterlives of Form This final volume is a long essay from the very beginning to the future: part history, part philosophy, part projection. It moves across time, beginning before the word fashion was ever spoken and continuing beyond it toward futures not yet worn. In this closing gesture, Salar Bil asks: What is the lifespan of a garment made to think? What connects the sacred robes of pre-modern rituals to the digital skins of speculative avatars? What persists when fashion is stripped of industry image, even body? What

remains when only the concept is left The Eternal Garment traces conceptual fashion from ancient myth mourning rituals and ceremonial dress through philosophical cloth religious covering protest wear and coded silence into future imaginaries where garments archive memory DNA resistance or data It considers fashion not as an era bound structure but as mythic recursive and immortal a site where past and future blur This essay does not define fashion It listens to what fashion remembers across centuries and what it still imagines beyond its own materiality It is both prologue and epilogue A closing fold in the series unfinished like all garments of meaning
