 representation of fashion in the light of modern society and postmodern culture this book argues that contemporary fashion
 should be regarded as a performative conceptual turn in the very core of body iconograms The text presents a theoretical
 perspective of the phenomenon of fashion within fashion theory as establishing a new approach from visual semiotics
 Through this lens fashion therefore emerges as a visual code of contemporary societies and cultures in the networked
 matrices of hyperreality and visions of that coming time that will determine the combination of cybernetics fetishism and
