Food in Medieval Times Melitta Weiss Adamson, 2004-10-30 Students and other readers will learn about the common foodstuffs available how and what they cooked ate and drank what the regional cuisines were like how the different classes entertained and celebrated and what restrictions they followed for health and faith reasons Fascinating information is provided such as on imitation food kitchen humor and medical ideas Many period recipes and quotations flesh out the narrative The book draws on a variety of period sources including as literature account books cookbooks religious texts archaeology and art Food was a status symbol then and sumptuary laws defined what a person of a certain class could eat the ingredients and preparation of a dish and how it was eaten depended on a person's status and most information is available on the upper crust rather than the masses Equalizing factors might have been religious strictures and such diseases as the bubonic plague all of which are detailed here *Food and Feast in Premodern Outlaw Tales* Melissa Ridley Elmes, Kristin Bovaird-Abbo, 2021-04-07 In *Food and Feast in Premodern Outlaw Tales* editors Melissa Ridley Elmes and Kristin Bovaird Abbo gather eleven original studies examining scenes of food and feasting in premodern outlaw texts ranging from the tenth through the seventeenth centuries and forward to their cinematic adaptations Along with fresh insights into the popular Robin Hood legend these essays investigate the intersections of outlawry food studies and feasting in Old English Middle English and French outlaw narratives Anglo Scottish border ballads early modern ballads and dramatic works and cinematic medievalism The range of critical and disciplinary approaches employed including history literary studies cultural studies food studies gender studies and film studies highlights the inherently interdisciplinary nature of outlaw narratives The overall volume offers an example of the ways in which examining a subject through interdisciplinary cross geographic and cross temporal lenses can yield fresh insights places canonic and well known works in conversation with lesser known texts to showcase the dynamic nature and cultural influence and impact of premodern outlaw tales and presents an introductory foray into the intersection of literary and food studies in premodern contexts which will be of value and interest to specialists and a general audience alike Holy Feast and Holy Fast Caroline Walker Bynum, 1988-01-07 In the period between 1200 and 1500 in western Europe a number of religious women gained widespread veneration and even canonization as saints for their extraordinary devotion to the Christian eucharist supernatural multiplications of food and drink and miracles of bodily manipulation including stigmata and inedia living without eating The occurrence of such phenomena sheds much light on the nature of medieval society and medieval religion It also forms a chapter in the history of women Previous scholars have occasionally noted the various phenomena in isolation from each other and have sometimes applied modern medical or psychological theories to them Using materials based on saints' lives and the religious and mystical writings of medieval women and men Caroline Walker Bynum uncovers the pattern lying behind these aspects of

women's religiosity and behind the fascination men and women felt for such miracles and devotional practices She argues that food lies at the heart of much of women's piety Women renounced ordinary food through fasting in order to prepare for receiving extraordinary food in the eucharist They also offered themselves as food in miracles of feeding and bodily manipulation Providing both functionalist and phenomenological explanations Bynum explores the ways in which food practices enabled women to exert control within the family and to define their religious vocations She also describes what women meant by seeing their own bodies and God's body as food and what men meant when they too associated women with food and flesh The author's interpretation of women's piety offers a new view of the nature of medieval asceticism and drawing upon both anthropology and feminist theory she illuminates the distinctive features of women's use of symbols Rejecting presentist interpretations of women as exploited or masochistic she shows the power and creativity of women's writing and women's lives

Food and Eating in Medieval Europe Martha Carlin, Joel T. Rosenthal, 1998-07-01 Eating and drinking are essential to life and therefore of great interest to the historian As well as having a real fascination in their own right both activities are an integral part of the both social and economic history Yet food and drink especially in the middle ages have received less than their proper share of attention The essays in this volume approach their subject from a variety of angles from the reality of starvation and the reliance on fast food of those without cooking facilities to the consumption of an English lady's household and the career of a cook in the French royal household All Things Medieval Ruth A. Aguecheek's Beef, Belch's Hiccup, and Other Gastronomic Interjections Robert Appelbaum, 2008-09-15 We didn't always eat the way we do today or think and feel about eating as we now do But we can trace the roots of our own eating culture back to the culinary world of early modern Europe which invented cutlery haute cuisine the weight loss diet and much else besides Aguecheek's Beef Belch's Hiccup tells the story of how early modern Europeans put food into words and words into food and created an experience all their own Named after characters in Shakespeare's Twelfth Night this lively study draws on sources ranging from cookbooks to comic novels and examines both the highest ideals of culinary culture and its most grotesque ridiculous and pathetic expressions Robert Appelbaum paints a vivid picture of a world in which food was many things from a symbol of prestige and sociability to a cause for religious and economic struggle but always represented the primacy of materiality in life Peppered with illustrations and a handful of recipes Aguecheek's Beef Belch's Hiccup will appeal to anyone interested in early modern literature or the history of food

Spice Jack Turner, 2008-12-10 In this brilliant engrossing work Jack Turner explores an era from ancient times through the Renaissance when what we now consider common condiments were valued in gold and blood Spices made sour medieval wines palatable camouflaged the smell of corpses and served as wedding night aphrodisiacs Indispensable for cooking medicine worship and the arts of love they were thought to have magical properties and were so valuable that they were often kept under lock and key For some spices represented Paradise for others the road to perdition but they were potent symbols of wealth and power and the wish to possess them drove explorers to circumnavigate the globe and even to savagery Following spices across continents and through literature and mythology Spice is a beguiling narrative about the surprisingly vast influence spices have had on human desire Includes eight pages of color photographs One of the Best Books

Smith, Gemma L. Watson, 2017-05-15 Historical biography has a mixed reputation at its best it can reveal much not only about an individual but the wider context of their life and society at worst it can result in a narrowly focused work of hagiography or condemnation Yet in spite of its sometimes inferior status amongst academics biography has remained a popular genre and in recent years has developed into new and intriguing areas As the essays in this volume reveal scholars from an array of different disciplines have embraced what biography can offer them expanding the remit of biography from people to things tracing the life of their chosen object from creation to use to disposal to rediscovery The increasing concern with the physicality of manuscripts and books has also meant an awareness of and interest in the lives of these forms of material culture Historians have also become increasingly interested in groups of individuals resulting in prosopographical studies A book on the diversity of biography is therefore very timely exploring the multi disciplinary application of historical biography in the period 500 1700 It presents fourteen case studies offering new approaches to historical biography written by early career researchers from backgrounds in archaeology English art architectural history and history demonstrating different approaches and techniques Overall the collection is a strong and united statement by a group of early career researchers who insist on the vitality of biography as a central concern of

historians across the disciplines of the humanities Contributors believe that the life is a fundamental medium of study for the medieval and early modern periods and thus bolsters the move back towards biography as a primary tool of medieval and early modern scholars as well as a tool for future research for humanities scholars interested in biography **Power and Pleasure** Hugh M. Thomas,2020-11-19 Although King John is remembered for his political and military failures he also resided over a magnificent court Power and Pleasure reconstructs life at the court of King John and explores how his court produced both pleasure and soft power Much work exists on courts of the late medieval and early modern periods but the jump in record keeping under John allows a detailed reconstruction of court life for an earlier period Power and Pleasure Court Life under King John 1199 1216 examines the many facets of John s court exploring hunting feasting castles landscapes material luxury chivalry sexual coercion and religious activities It explains how John mishandled his use of soft power just as he failed to exploit his financial and military advantages and why he received so little political benefit from his magnificent court John s court is viewed in comparison to other courts of the time and in previous and subsequent centuries

Three Squares Abigail Carroll,2013-09-10 We are what we eat as the saying goes but we are also how we eat and when and where Our eating habits reveal as much about our society as the food on our plates and our national identity is written in the eating schedules we follow and the customs we observe at the table and on the go In Three Squares food historian Abigail Carroll upends the popular understanding of our most cherished mealtime traditions revealing that our eating habits have never been stable far from it in fact The eating patterns and ideals we ve inherited are relatively recent inventions the products of complex social and economic forces as well as the efforts of ambitious inventors scientists and health gurus Whether we re pouring ourselves a bowl of cereal grabbing a quick sandwich or congregating for a family dinner our mealtime habits are living artifacts of our collective history and represent only the latest stage in the evolution of the American meal Our early meals Carroll explains were rustic affairs often eaten hastily without utensils and standing up Only in the nineteenth century when the Industrial Revolution upset work schedules and drastically reduced the amount of time Americans could spend on the midday meal did the shape of our modern three squares emerge quick simple and cold breakfasts and lunches and larger sit down dinners Since evening was the only part of the day when families could come together dinner became a ritual as American as apple pie But with the rise of processed foods snacking has become faster cheaper and easier than ever and many fear for the fate of the cherished family meal as a result The story of how the simple gruel of our forefathers gave way to snack fixes and fast food Three Squares also explains how Americans eating habits may change in the years to come Only by understanding the history of the American meal can we can help determine its future
