Something Old, Something Bold Beth Montemurro,2006 Contemporary weddings in the United States can be extravagant highly ritualized and costly affairs From the intricate details of the wedding dress to the painstaking selection of flowers to the festively packaged favors offered to guests they are often the culmination of months of fastidious planning and preparations In *Something Old Something Bold* sociologist Beth Montemurro takes a fresh look at the wedding process offering a perspective not likely to be found in the slew of planning books and magazines readily available to the modern bride Focusing on two events bachelorette parties and bridal showers Montemurro draws upon years of ethnographic research and interviews to explore what these prenuptial events mean to women participants and what they tell us about the complexity and ambiguity of gender roles The innovation of the bachelorette party a celebration of the bride to be s premarital sexual identity and the addition of men to the domestically oriented shower have often been thought to indicate gender convergence and a more progressive attitude toward power relations between men and women But Montemurro suggests that this is not always the case her friends and family who present elaborate and exaggerated scenarios that demonstrate both what she is sacrificing and what she is gaining Ultimately Montemurro argues prenuptial rituals contribute to the stabilization of gender inequalities that American society at the turn of the twenty first century is still very much married to tradition and traditional conceptions of masculinity and femininity *A Companion to Sport* David L.

The Cost of Inclusion Blake R. Silver, 2020-07-17 Young people are told that college is a place where they will find themselves by engaging with diversity and making friendships that will last a lifetime This vision of an inclusive diverse social experience is a fundamental part of the image colleges sell potential students But what really happens when students arrive on campus and enter this new social world The Cost of Inclusion delves into this rich moment to explore the ways students seek out a sense of belonging and the sacrifices they make to fit in Blake R Silver spent a year immersed in student life at a large public university He trained with the Cardio Club hung out with the Learning Community and hosted service events with the Volunteer Collective Through these day to day interactions he witnessed how students sought belonging and built their social worlds on campus Over time Silver realized that these students only achieved inclusion at significant cost To fit in among new peers they clung to or were pushed into raced and gendered cultural assumptions about behavior becoming the cool guy the nice girl the funny one the leader the intellectual or the mom of the group Instead of developing dynamic identities they crafted and adhered to a cookie cutter self one that was rigid and two dimensional Silver found that these students were ill prepared for the challenges of a diverse college campus and that they had little guidance from their university on how to navigate the trials of social engagement or the pressures to conform While colleges are focused on increasing the diversity of their enrolled student body Silver s findings show that they need to take a hard look at how they are failing to support inclusion once students arrive on campus

Introducing Sociology Using the Stuff of Everyday Life Josee

Johnston, Kate Cairns, Shyon Baumann, 2017-01-06 The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm. Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners. This is not an issue of pandering to students or otherwise seeking the lowest common denominator. On the contrary, it is a question of again making the practice of sociological thinking meaningful, rigorous, and relevant to today's world of undergraduates. This comparatively concise, highly visual, and affordable book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist's teaching arsenal: the familiar stuff in students' everyday lives throughout the world—the jeans they wear to class, the coffee they drink each morning, or the phones their professors tell them to put away during lectures. A focus on consumer culture, seeing the strange in the familiar, is not only interesting for students; it is also the authors' suggested pedagogically superior to more traditional approaches. By engaging students through their stuff, this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking. It moves beyond describing what sociology is so that students can practice what sociological thinking can do. This pedagogy also posits a relationship between teacher and learner that is bi-directional. Many students feel a sense of authority in various areas of consumer culture, and they often enjoy sharing their knowledge with fellow students and with their instructor. Opening up the sociology classroom to discussion of these topics validates students' expertise on their own life worlds. Teachers in turn gain insight from the goods, services, and cultural expectations that shape students' lives. While innovative, the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester. A map on pages ii–iii identifies core sociological concepts covered so that a traditional syllabus, as well as individual lectures, can easily be maintained. Theory, method, and active learning exercises in every chapter constantly encourage the sociological imagination, as well as the doing of sociology.

Youth Engagement Jessica K. Taft, Sandi Kawecka Nenga, 2013-03-08 This volume critically examines the multiple and contested meanings of ideal citizenship and reveals how children and youth craft active citizenship as they encounter and respond to the various institutions and organizations designed to encourage their civic and political development.

Driving after Class Rachel Heiman, 2015-01-16 A paradoxical situation emerged at the turn of the twenty-first century: the dramatic upscaling of the suburban American dream even as the possibilities for achieving and maintaining it diminished. Having fled to the suburbs in search of affordable homes, open space, and better schools, city-raised parents found their modest homes eclipsed by McMansions, local schools and roads overburdened and underfunded, and their ability to keep up with the pressures of extravagant consumerism increasingly tenuous. How do class anxieties play out amid such disconcerting cultural, political, and economic changes? In this incisive ethnography, set in a New Jersey suburb outside New York City, Rachel Heiman takes us into people's homes, their community meetings where they debate security gates and school redistricting, and even their cars to offer an intimate view of the tensions and uncertainties.

of being middle class at that time With a gift for bringing to life the everyday workings of class in the lives of children youth and their parents Heiman offers an illuminating look at the contemporary complexities of class rooted in racialized lives hyperconsumption and neoliberal citizenship She argues convincingly that to understand our current economic situation we need to attend to the subtle but forceful formation of sensibilities spaces and habits that durably motivate people and shape their actions and outlooks Rugged entitlement is Heiman s name for the middle class s sense of entitlement to a way of life that is increasingly untenable and that is accompanied by an anxious feeling that they must vigilantly pursue their own interests to maintain and further their class position Driving after Class is a model of fine grained ethnography that shows how families try to make sense of who they are and where they are going in a highly competitive and uncertain time

Youthful Preaching Richard Voelz, 2016-01-21 What if adolescents aren t bored with preaching What if they have and are interacting with preaching in complex various ways that have escaped the attention of adult listeners and preachers What if their own preaching informed the ways adults think about Christian faith and theories practices of preaching While much recent discussion in preaching revolves around underrepresented groups the relationship between adolescent youth and preaching remains largely unexplored Youthful Preaching brings youth into contemporary conversations about preaching by listening to their voices and by advocating for communities of faith and practice to seek ways to reimagine renew and strengthen the relationships between youth adults and preaching
