## **Findhorn Community Creating A Human Identity For The 21st Century:**

**The Findhorn Community** Carol Riddell, 1991 The Findhorn Foundation one of the first successful new age communities of present times was founded in 1962 and continues to be an important part of a world wide movement for spiritual transformation What is it like to live in the Findhorn Community today What is the spiritual inspiration behind its existence and how has it changed and evolved over the years How is it organised and managed What kind of people join it and why and what changes do they go through In this book Carol Riddell covers all this and more including the community's development from its early patriarchal basis to its first hesitant steps into spiritual democracy its evolving relationship with the earth and the environment and the new businesses and independent projects springing up around it She both sets the Findhorn Community in its current global context and shows how the process of creating a contemporary spiritual identity can unfold day by day through the ordinary activities of people living and working together Back cover Religion and LGBTQ Sexualities Stephen Hunt, 2016-12-05 This compiled and edited collection engages with a theme which is increasingly attracting scholarly attention namely religion and LGBTQ sexuality Each section of the volume provides perspectives to understanding academic discourse and wide ranging debates around LGBTQ sexualities and religion and spirituality The collection also draws attention to aspects of religiosity that shape the lived experiences of LGBTQ people and shows how sexual orientation forges dimensions of faith and spirituality Taken together the essays represent an exploration of contestations around sexual diversity in the major religions the search of sexual minorities for spiritual safe spaces in both established and new forms of religiosity and spiritual paths formed in reconciling and expressing faith and sexual orientation This collection which features contributions from a number of disciplines including sociology anthropology psychology history religious studies and theology provides an indispensable teaching resource for educators and students in an era when LGBTQ topics are increasingly finding their way onto numerous undergraduate post graduate and profession orientated programmes *Ethnographic Research and Analysis* Tom Vine, Jessica Clark, Sarah Richards, David Weir, 2017-10-19 This book reflects on the contemporary use of ethnography across both social and natural sciences focusing in particular on organizational ethnography autoethnography and the role of storytelling The chapters interrogate and reframe longstanding ethnographic discussions including those concerning reflexivity and positionality while exploring evolving themes such as the experiential use of technologies The open and honest accounts presented in the volume explore the perennial anxieties doubts and uncertainties of ethnography Rather than seek ways to mitigate these inconvenient but inevitable aspects of academic research the book instead finds significant value to these experiences Taking the position that collections of ethnographic work are better presented as transdisciplinary bricolage rather than as discipline specific series each chapter in the collection begins with a reflection on the existing impact and character of ethnographic research within the author's native discipline The book will appeal to all academic researchers with an interest in qualitative methods as well as to

advanced undergraduate and postgraduate students      **Spirituality, Organization and Neoliberalism** Emma Bell, Sorin Gog, Anca Simionca, Scott Taylor, 2020-07-31 This book brings together analyses from across the social sciences to develop an interdisciplinary approach to understanding spiritualities and neoliberalism It traces the lived experience of social actors as they engage with new and alternative spiritualities in neoliberal contexts The purpose of the book is to provide specific insights into how neo liberalism is resisted contested or reproduced through a transformative ethic of spiritual self realization      *Encyclopedia of Community* DAVID LEVINSON, KAREN CHRISTENSEN, 2003-06-30 Click Additional Materials for downloadable materials and samples Incredibly this is the first encyclopedia to focus on community as concept and experience so stands alone in its field as the one title any library must buy to cover this topic Essential for all readerships CHOICEA timely comprehensive and very welcome overview of a rich and rapidly growing field of inquiry Robert D Putnam Professor at Harvard University and author of *Bowling Alone* With every passing minute it becomes more and more apparent that our world is one community The Encyclopedia of Community serves as recognition of this trend and as a needed resource The four volume set not only explains the emerging buzz words of community such as social capital or civic engagement but also tells many stories of community institutions that work such as public libraries Sarah Ann Long Past President 1999 2000 American Library Association As we yearn to connect with our fellow citizens during these uncertain times we have a unique moment to encourage greater participation in our democracy and reinvigorate our communities The Encyclopedia of Community provides a timely diverse array of theories and practices that will help citizens understand the value of engaging together to make the critical choices that enrich the way we live learn work and govern in our local communities The Encyclopedia deserves a prime spot in the libraries homes and offices of all communities that want to invest in a brighter future for their residents and their children Nancy Kranich Past President of the American Library Association whose presidential theme was *Libraries The Cornerstone of Democracy* 2000 2001 American politicians often pair the word community with the word freedom to describe our basic values Yet though used constantly the word community is defined in widely different and contested ways Most people like the idea of community but some intellectuals worry that it might imply collectivism The great value of this new Encyclopedia is that it gives readers a chance to sample the many uses of the term and gain clarity about the issues at stake It is a major contribution to a more coherent understanding of this fundamental idea Robert Bellah Professor of Sociology Emeritus University of California Berkeley and co author of *Habits of the Heart* SAGE Publications is proud to announce the Encyclopedia of Community a major reference work that summarizes the many fascinating and important concepts of a global topic Community itself is a concept an experience and a central part of being human Whether the reader is a student researcher or professional in the field of psychology sociology or even economics this three volume work will provide the necessary definitions of community beyond traditional views Arranged in an A to Z fashion the Encyclopedia can also be viewed topically via a Reader s Guide This allows for interdisciplinary compare and

**Secular Beats Spiritual** Steve Bruce,2017-10-27 The decline of the Christian churches in the West is undeniable but commentators differ in their understanding of what this represents For some it shows a decline in interest in religion as such for others religion has not declined it has only changed its shape Possible candidates for Christianity s replacement are the new religious movements of the late 1960s and what is variously called New Age alternative or contemporary spirituality Secular Beats Spiritual offers a detailed study of the religious and spiritual innovations of the last 50 years It assesses their popularity in the UK and concludes that the not decline just change view cannot be sustained Serious interest in spirituality has grown far less quickly than has the number of us who have no religious or spiritual interest The most popular and enduring movements have been the least religious ones and those that have survived have done so by becoming more this worldly and less patently religious or spiritual Yoga is popular but as a secular exercise programme Transcendental Meditation now markets its meditational technique as a purely secular therapy British Buddhists now offer the secular Mindfulness and the Findhorn Foundation Europe s oldest New Age centre is no longer the germ of a counter cultural communalism but sells its expertise to major corporations Steve Bruce also demonstrates that although eastern religious themes such as reincarnation and karma have become more popular as the power of the Christian churches to stigmatise them has declined such themes have also been significantly altered so that what superficially looks like the easternization of the West might better be described as the westernization of the easternization of the West
