[American Home Cooking](#) Tim Miller, 2017-07-01 *American Home Cooking* provides an answer to the question of why in the face of all the modern technology we have for saving time Americans still spend time in their kitchens cooking Americans eat four to five meals per week in a restaurant and buy millions of dollars worth of convenience foods Cooking especially from scratch is clearly on its way out However if this is true why do we spend so much money on kitchen appliances both large and small Why are so many cooking shows and cookbooks published each year if so few people actually cook In *American Home Cooking* Timothy Miller argues that there are historical reasons behind the reality of American cooking There are some factors that over the past two hundred years have kept us close to our kitchens while there are other factors that have worked to push us away from our kitchens At one end of the cooking and eating continuum is preparing meals from scratch all ingredients are raw and unprocessed and in extreme cases grown at the home On the other end of the spectrum is dining out at a restaurant where no cooking is done but the family is still fed All dining experiences exist along this continuum and

Miller considers how American dining has moved along the continuum He looks at a number of different groups and trends that have affected the state of the American kitchen stretching back to the early 1800s These include food and appliance companies the restaurant industry the home economics movement of the early 20th century and reform movements such as the counterculture of the 1960s and the religious reform movements of the 1800s And yet the kitchen is still most often the center of the home and the place where most people expect to cook and eat even if they don't *What's to Eat?* Nathalie Cooke, 2009-09-01 How we as Canadians procure produce cook consume and think about food creates our cuisine and our nation of immigrant traditions has produced a distinctive and evolving repertoire that is neither hodgepodge nor smorgasbord Contributors who come from the diverse worlds of universities museums the media and gastronomy look at Canada's distinctive foodways from the shared perspective of the current moment Individual chapters explore food items and choices from those made by Canada's First Nations and early settlers to those made today Other contributions describe the ways in which foods enjoyed by early Canadians have found their way back onto Canadian tables in the twentieth and twenty-first centuries Authors emphasize the expressive potential of food practices and food texts cookbooks are more than books to be read and used in the kitchen they are also documents that convey valuable social and historical information **Baking Powder Wars** Linda Civitello, 2017-05-22 First patented in 1856 baking powder sparked a classic American struggle for business supremacy For nearly a century brands battled to win loyal consumers for the new leavening miracle transforming American commerce and advertising even as they touched off a chemical revolution in the world's kitchens Linda Civitello chronicles the titanic struggle that reshaped America's diet and rewrote its recipes Presidents and robber barons bare knuckle litigation and bold faced bribery competing formulas and ruthless pricing Civitello shows how hundreds of companies sought market control focusing on the big four of Rumford Calumet Clabber Girl and the once popular brand Royal She also tells the war's untold stories from Royal's claims that its competitors sold poison to the Ku Klux Klan's campaign against Clabber Girl and its German Catholic owners Exhaustively researched and rich with detail *Baking Powder Wars* is the forgotten story of how a dawning industry raised Cain and cakes cookies muffins pancakes donuts and biscuits
