Wisdom from the Trail Wayne Sheridan, Keith Sheridan, 2018-07-08 When the tragic events of 9 11 struck Keith was in the Shenandoah National Park on the Appalachian Trail AT and I was on a bus to join him that day to hike through the Park It was quite a day getting to him since my bus had been halted short of my stop Thanks to a friend with a car I did join him where the AT crossed a road We decided to continue our hike in spite of the events because the terrorists wanted to disrupt our way of life and we did not want them to succeed Keith later finished the entire AT in Georgia We have hiked many miles together One thing Keith and I have experienced in common is that God has taught us spiritual truths consistent with the Bible while walking the trails Neither Keith nor I are wise on our own Any wisdom that is shared in these devotional stories is from God and the Bible It is our hope that these lessons of wisdom gained on our hikes will be helpful to you as a reader on your own trail of life The inspirational stories in *Wisdom from the Trail* can be meaningful for devotional times for encouragement for wisdom and for message illustrations We pray that God will use these words to become living manna for each reader Wayne Sheridan

Phillips, 2012-05-03 This book examines the century long migration of African Americans who moved within the South after the Civil War and then left to settle permanently in other regions irrevocably altering the political social and cultural history of the United States and considers these movements within the broader historical political and cultural context of the African Diaspora *Daily Life during African American Migrations* focuses attention to the everyday social cultural and political lives of migrants in the United States as they established communities far away from their former homes This book examines blacks labor and urban experiences social and political activism and cultural and communal identities while also considering the specificity of African Americans migration as part of their long struggle for freedom and equality The author merges information from black migration studies

which focus on the internal movement of African American people in the United States with African Diaspora studies which consider peoples of African descent who have settled far from their native homes either voluntarily or through duress to document how these immigrants and their children create new communities while maintaining cultural connections with Africa The stories of the nine million African Americans who collectively left the South between 1865 and 1965 and the millions more who left the Caribbean and Africa not only document this long history of migration but also present compelling human drama
