The Primal Wound John Firman, Ann Gila, 1997-04-25 Argues that a primal wounding of the human spirit occurs in earliest human life that disrupts fundamental relationships and leads to anxiety loneliness and alienation and shows how this wounding can be redeemed through therapy and through living one s life differently To many of us modern life is a headlong rush to avoid dark feelings that threaten to disrupt our lives at every turn In order to block the surging tide of this hidden level of experience we become enthralled with violence sex and mass media and addicted to alcohol drugs and power and we compulsively strive for romance success and control All of this according to the authors can be traced to the primal wound a dark specter of isolation abandonment and alienation haunting human life The primal wound is the result of a violation we all suffer in various ways beginning in early childhood and continuing throughout life Because we are treated not as individual unique human beings but as objects our intrinsic authentic sense of self is annihilated This primal wounding breaks the fundamental relationships that form the fabric of human existence the relationship to oneself to other people to the natural world and to a sense of transpersonal meaning symbolized in concepts such as the Divine the Ground of Being and Ultimate Reality In this book Firman and Gila apply object relations theory self psychology transpersonal psychology and psychosynthesis to the issues of psychological wounding healing and growth and show how this wounding can be redeemed through therapy and through changing one s way of living Firman and Gila integrate important material from diverse schools of psychology and then expand it with their personal touch The Primal Wound presents a scholarly yet understandable to the educated lay person description of some of the important dynamics of psychological wounding from a broad perspective while also going deep into the soul and even exploring our relationship to God There is little available on this topic and in the area of trauma psychology Charles Whitfield

M D author of Memory and Abuse Remembering and Healing the Wounds of Trauma I believe this book s central thesis to be highly provocative and important Its strength is that it uses the idea of the primal wound as a focus for a diverse collection of ideas from various sectors of the psychological and transpersonal literature This kind of integrative scholarly work is very valuable John Suler author of Contemporary Psychoanalysis and Eastern Thought John Firman and Ann Gila are teachers authors and psychotherapists in private practice in Palo Alto California Both were trained in psychosynthesis in the early 1970s and Firman trained with its founder Roberto Assagioli They are adjunct faculty members at the Institute of
