The Aesthetics of Emotion Gerald C. Cupchik,2016-07-28 Gerald C Cupchik builds a bridge between science and the humanities arguing that interactions between mind and body in everyday life are analogous to relations between subject matter and style in art According to emotional phase theory emotional reactions emerge in a perfect storm whereby meaningful situations evoke bodily memories that unconsciously shape and unify the experience Similarly in expressionist or impressionist painting an evocative visual style can spontaneously colour the experience and interpretation of subject matter Three basic situational themes encompass complementary pairs of primary emotions attachment happiness sadness assertion fear anger and absorption interest disgust Action episodes in which a person adapts to challenges or seeks to realize goals benefit from energizing bodily responses which focus attention on the situation while providing feedback in the form of pleasure or pain regarding success or failure In high representational paintings style is transparent making it easier to fluently identify subject matter

The Sleep of Reason Frances S. Connelly,1999 **The Engine of Visualization** Patrick Maynard,2018-08-06 In the first philosophical book wholly about photography Patrick Maynard dispels some basic persistent confusions by treating photography as a technology a way to enhance and filter human power Once photography is understood as a kind of technology Maynard argues insights about technology may be applied to provide the general perspective on photography that has been missing

Envisioning Worlds in Late Antique Art Anna Cecilia

Olovsson, 2018-12-17 It has long been an accepted assumption that the abstracted mode of visual representation that emerged in late antiquity reflected a collective shift from the outer directed and material world view of classical antiquity to an inner directed spiritual mentality informed by Christianity the purpose of this volume is to offer a more nuanced and diverse image of the nature and meanings of abstraction and symbolism in late antique and early medieval art beyond normative interpretation models and from a number of different methodological and interpretative perspectives In ten chapters ten authors specialised in various fields of late antique and Byzantine art explore the historiographical background of the spiritual interpretation paradigm neuroscientific and theological dimensions of Christian visual aesthetics meanings and motive factors behind apparently wholly abstract and aniconic compositions symbolic motifs and schemes for visualising cosmic order and the cosmic state of Christ and the re use of symbolic Greco Roman themes in Christian contexts The result is a multi focal image of late antique abstraction and symbolism that illuminates the heterogeneity and complexity of the phenomena and of their study

Living in Words Garry L. Hagberg, 2023 Garry Hagberg investigates the role that literature plays in the constitution of a human being and the connection between the language we see at work in imaginative fiction and the language we develop to describe ourselves He asks whether self descriptive or autobiographical language itself plays an active role in shaping our identities

Modernism, Magazines, and the British avant-garde Faith

Binckes, 2010-05-20 This book is a re examination of the fertile years of early modernism immediately preceding the First World War During this period how where and under whose terms the avant garde in Britain would be constructed and consumed were very much to play for It is the first study to look in detail at two little magazines marginalised from many accounts of this competitive process Rhythm and the Blue Review By thoroughly examining not only the content but the interrelated networks that defined and surrounded these publications Faith Binckes aims to provide a fresh and challenging perspective to the on going reappraisal of modernism Founded in 1911 and edited by John Middleton Murry with assistance from Michael Sadleir and subsequently from Katherine Mansfield Rhythm and The Blue Review featured a series of pivotal moments Rhythm was the arena for a challenge to Roger Fry s vision of Post Impressionism for the introduction of Picasso to a British audience for early short stories and reviews by Lawrence and for Mansfield s discovery of a voice in which to frame her breakthrough writing on New Zealand A further context for many of these experiments was the extended and acrimonious debate Rhythm conducted with A R Orage s New Age in which issues of the proper gender generation and formulation of modernity were debated month by month However reading magazines as vehicles for avant garde development can only provide half the story The book also pays close attention to their dialogic reproductive and periodical nature and explores the strategies at work within the terminology of the new Crucially it argues that they offer compelling material evidence for the consistently mobile and multiple boundaries of the modern and puts forward a compelling case for focusing upon the specificity of magazines as a medium for literary and artistic innovation

The Destruction of Art Dario

Gamboni,2013-06-01 Last winter a man tried to break Marcel Duchamp's Fountain sculpture The sculpted foot of Michelangelo's David was damaged in 1991 by a purportedly mentally ill artist With each incident intellectuals must confront the unsettling dynamic between destruction and art Renowned art historian Dario Gamboni is the first to tackle this weighty issue in depth exploring specters of censorship iconoclasm and vandalism that surround such acts Gamboni uncovers here a disquieting phenomenon that still thrives today worldwide As he demonstrates through analyses of incidents occurring in nineteenth and twentieth century America and Europe a complex relationship exists among the evolution of modern art destruction of artworks and the long history of iconoclasm From the controversial removal of Richard Serra's Tilted Arc from New York City's Federal Plaza to suffragette protests at London's National Gallery Gamboni probes the concept of artist's rights the power of political protest and how iconoclasm sheds light on society's relationship to art and material culture Compelling and thought provoking *The Destruction of Art* forces us to rethink the ways that we interact with art and react to its power to shock or subdue

Daumier and Exoticism Elizabeth C. Childs,2004 Best known as a satirist of Parisian politics and daily life Honor Daumier 1808-1879 was a prolific caricaturist This book is the first to examine the role of exoticism in his art and to offer a detailed history of the journal *Le Charivari* in which the lithographs appeared These satires of China Haiti the United States Africa and the Middle East not only target the theater of international politics but also draw on a broad range of physical stereotypes supported by contemporary ideas about race and cultural difference In an art of comic inversion Daumier used the exotic to expose the foibles and pretensions of the Parisian bourgeoisie A pacifist and a Republican Daumier also satirized the non-European world in order to covertly attack the imperialism of Napoleon III in an age of press censorship Idealistic as well as pragmatic he used humor to stage political critique as well as to envision a more unified and compassionate world

Seeing from Above Mark Dorrian,Frédéric Pousin,2013-10-03 The view from above or the bird's eye view has become so ingrained in contemporary visual culture that it is now hard to imagine our world without it It has risen to pre-eminence as a way of seeing but

important questions about its effects and meanings remain unexplored More powerfully than any other visual modality this image of everywhere supports our idea of a world view yet it is one that continues to be transformed as technologies are invented and refined This innovative volume edited by Mark Dorrian and Frederic Pousin offers an unprecedented range of discussions on the aerial view covering topics from sixteenth century Roman maps to the Luftwaffe s aerial survey of Warsaw to Google Earth Underpinned by a cross disciplinary approach that draws together diverse and previously isolated material this volume examines the politics and poetics of the aerial view in relation to architecture art film literature photography and urbanism and explores its role in areas such as aesthetics and epistemology Structured through a series of detailed case studies this book builds into a cultural history of the aerial imagination *Diva* Angela Dalle Vacche,2008-03-15 Animated by a luminous goddess at its center the diva film provided a forum for denouncing social evils and exploring new models of behavior among the sexes Dalle Vacche offers the first authoritative study of this important film genre of the cinema that preceded the First World War Contrasting the Italian diva with the Hollywood vamp Theda Bara and the famous Danish star Asta Nielsen Dalle Vacche shows how the diva oscillates between articulating Henri Bergson s vibrant life force and representing the suffering figure of the Catholic mater dolorosa Cover **The Triumph of Modernism** Hilton Kramer,2013-12-09 Widely acknowledged as the most authoritative art critic of his generation Hilton Kramer advanced his comments and judgments largely in the form of essays and short pieces Thus this first collection of his work to appear in twenty years is a signal event for the art world and for criticism generally The Triumph of Modernism not only traces the vicissitudes of the art scene but diagnoses the state of modernism and its vital legacy in the postmodern world Mr Kramer bracingly updates his incisive critique of the artists critics institutions and movements that have formed the basis for modern art Appearing for the first time in greatly expanded form is his consideration of the foundations of modern abstract painting and the future of abstraction The aesthetic intelligence that Mr Kramer brings to bear on certain tired assumptions about modernism many of them derived from methodologies and politics that have little to do with art helps rescue the artwork itself and its appreciation from the very institutions such as the art museum and the academy that purport to foster it Always clear eyed and vastly illuminating Hilton Kramer s art criticism remains among the very finest written in the past hundred years Readers of The Triumph of Modernism will be treated to an exhilarating experience **"Painted Men in Britain, 1868-1918"** Jongwoo Jeremy Kim,2017-07-05 An original and overdue exploration of the representation of masculinity in British academic art in the late nineteenth and early twentieth centuries Painted Men in Britain 1868 1918 analyzes transgressions of gender and sexuality as represented in paintings by Leighton Sargent Tuke and their contemporaries in the Royal Academy This volume treats paintings as eloquent objects no narratives of which are too elusive to be traced and challenges conventional binaries of masculine versus feminine or heterosexual versus homosexual Consulting not only the paintings themselves but also newspapers journals criticism novels and poetry of the day Painted Men argues against the

misconception of British academic art as merely reactionary and even blind to the dynamism of its own time. Instead, this art is shown to engage with broader social attitudes and contemporary sexual debates. As the book reveals the complexities of specific paintings, it illuminates different and competing attitudes toward masculinity and modernity in British art of the period.

Street Photography Clive Scott, 2020-09-14

Street photography is perhaps the best loved and most widely known of all photographic genres, with names like Cartier Bresson, Brassai, and Doisneau familiar even to those with a fleeting knowledge of the medium. Yet what exactly is street photography? From what viewpoint does it present its subjects, and how does this viewpoint differ from that of documentary photography? Looking closely at the work of Atget, Kertész, Bovis, René Jacques Brassai, Doisneau, Cartier Bresson, and more, this elegantly written book, extensively illustrated with both well-known and neglected works, unpicks Parisian street photography's affinity with Impressionist art, as well as its complex relationship with parallel literary trends and authors from Baudelaire to Philippe Soupault. Clive Scott traces street photography's origins, asking what really happened to photography when it first abandoned the studio and brought to the fore fascinating questions about the way the street photographer captures or frames those subjects—traders, lovers, entertainers—so beloved of the genre. In doing so, Scott reveals street photography to be a poetic, even picturesque form, looking not to the individual but to the type, not to the reality of the street but to its romance.
