Mitias, 2025-09-05 How should I live How should I love How should I die These three questions stream into human consciousness from the womb of a more urgent question What makes my life worth living or justifiable What if one stands at the last frontier of their life and casts a look at the way they lived it Can they leave the world with a feeling of inner peace and pride in the way they lived it The author of this book argues that a life worth living should originate from the depth of the

human essence from the power that makes us human How This question demands an urgent answer because first human life is a thrust into the future which we cannot predict and second it is short Should we not care about the way we live since it is the most valuable possession we have in this world How many people regret the way they lived when they reach the end of their lives Should we not wonder why we exist and how we should live our lives An inquiry into his question is an inquiry into the foundation of a life worth living What are the building blocks of this foundation The author further argues that living this kind of life is an art He draws a parallel between artistic creation and self creation An authentic or fulfilled life is an art of human living In what sense is the human being a self created being Under what conditions can one learn this art
