French,1979 The Scope of Morality was first published in 1980 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The scope of morality Peter A French contends is much narrower than many traditional and contemporary works in ethical theory suggest We trivialize morality if we think it has something to say about everything we do it touches us all but not at all times This essay in philosophical ethics focuses upon the origin purpose and function of the various concepts to be found in a more or less mature morality. The author draws a distinction between moral concepts that arise from an individual s wish to live a worthwhile life and those directed towards the development of virtue in the moral community Moral concepts in his view are subjective creations of human beings rather than laws with an objective basis in nature The ethics of sociobiology of the lifeboat and spaceship models and of game theory all come under his critical eye in this useful and progressive work The Scope of Morality says Hector Neri Castaneda represents a serious effort at discussing the nature of morality taking into account the most important contributions of recent writers Modern Irish Writers Alexander G. Gonzalez, 1997-08-26 While the Irish Literary Revival began around 1885 and ended somewhere between 1925 and 1940 the Irish Renaissance has continued to the present day and shows no sign of abating The period has produced some of the most important and influential figures in Irish literature some of whom are counted among the world's greatest authors The Revival saw a reestablishment of Ireland's literary connections with its Celtic heritage and writers such as William Butler Yeats and Lady Gregory drew heavily on the myths and legends of the past James Joyce boldly reshaped the novel and wrote short fiction of enduring value Contemporary Irish writers continue to be leading figures and include such authors as Brian Frigl Seamus Heaney and Eavan Boland Included in this reference book are alphabetically arranged entries for more than 70 modern Irish writers including Samuel Beckett William Trevor Patrick Kavanagh Medbh McGuckian Sean O Casey J M Synge and Nuala Ni Dhomhnaill Entries are written by expert contributors and reflect a broad range of perspectives Each entry contains a brief biography that summarizes the author's career a discussion of major works and themes an overview of the author's critical reception and a bibliography of primary and secondary works An introductory essay reviews the large and

growing body of scholarship on modern Irish literature while an extensive bibliography concludes the volume
