Finger Rings From Ancient To Modern Ashmolean Handbooks:

Finger Rings Diana Scarisbrick, Martin Henig, 2003 Few personal possessions have the resonance of finger rings whether they serve as symbols of marriage office status or in some cases as token of hidden political or religious beliefs This attractive volume provides an illustrated catalogue of the rings in the collection of the Ashmolean Museum in Oxford These rings which were worn by both men and women and range from the familiar to the bizarre in type include examples from many different cultures across the centuries including Egyptian Minoan Etruscan Greek Roman and particularly medieval rings All are illustrated with colour photographs with facing description An initial discussion explains the terminology of ring studies and outlines changes in type function and fashion Cosmos and Materiality in Early Modern Prague Suzanna Ivanič, 2021-06-24 Prague in the seventeenth century is known as home to a scintillating imperial court crammed with exotic goods scientists and artisans receiving ambassadors from Persia and also as a city suffering plagues riots and devastating military attacks But Prague was also the setting for a complex and shifting spiritual world At the beginning of the century it was a multiconfessional city but by 1700 it represented one of the most archetypal Catholic cities in Europe Through a material approach *Cosmos and Materiality* pieces together how early modern men and women experienced this transformation on a daily basis *Cosmos and Materiality in Early Modern Prague* presents a bold alternative understanding of the history of early modern religion in Central Europe The history of religion in the early modern period has overwhelmingly been analysed through a confessional lens but this book shows how Prague's spiritual worlds were embedded in their natural environment and social relations as much if not more than in confessional identity in the seventeenth century While texts in this period trace emerging discourses around notions of religion superstition magic and what it was to be Catholic or Protestant a material approach avoids these category mistakes being applied to everyday practice It is through a rich seam of material evidence in Prague spoons glass beakers and amulets as much as traditional devotional objects like rosaries and garnet encrusted crucifixes that everyday beliefs practices and identities can be recovered **Catalogue of the Engraved Gems and Finger Rings: Roman** Ashmolean Museum, John Boardman, Martin Henig, Arthur MacGregor, Victoria Andrews, 1978 This important catalogue of 860 Roman engraved gems and finger rings in the Ashmolean Museum Oxford is the third in the Beazley Archive series *Studies in Gems and Jewellery* The catalogue is themed under the major headings of gods goddesses followers of deities and muses personifications portraits and figure studies children's rings scenes from daily life theatrical subjects animals birds and other natural subjects mythological subjects symbolic subjects astrological subjects magical gems Jewish and Christian subjects inscriptions Overall the items are catalogued with the aim of producing a summary inventory that details the nature of the collection as built up over the years the mechanisms by which the Ashmolean came to acquire the various pieces and the degree to which they survive and can be related to the documentary record Volume I in the series was *A Collection of Classical and Eastern Intaglios Rings and Cameos* 2003 and Volume II
