**Finland** ,1967      **Vignette from Finland** Annie Margaret Clive Bayley,1895      **Helsinki** Neil Kent,2014-07-30

Helsinki is one of the world's most northerly capitals but it is by no means a city frozen in northern wastes. Situated along the southern shore of the Gulf of Finland, magnificent lakes and forests reach into Helsinki's urban heart, a rare event in today's world of suburban sprawl. The city's natural beauty, emphasized by parks and islands, is matched by an extraordinary cultural richness, the result of fruitful foreign influences and home-grown creativity. The Finnish capital offers a spectacular display of architecture and design, from the neoclassical magnificence imposed by a Russian Czar to the modernist chic of Nordic functionalism. Neil Kent explores the history and culture of the Daughter of the Baltic, a small fishing village that became a powerhouse of design and technology. Tracing its dramatic past of conflict and conflagration, he explores the evolution of a national and urban identity through architecture, art, and writing. Through such differing cultural phenomena as saunas, railway stations, and tango, he explains why Helsinki is a distinctive mix of tradition and innovation. The city of architects and designers, Engel Czar Alexander I and the creation of an imperial metropolis, Alvar Aalto and the birth of the modern functionalism and high-tech innovation. The city of music and the arts, Sibelius, the national composer, conductors, and performers, art galleries, and installations. National Romanticism and the Nordic aesthetic. The city of hospitality, Art Nouveau hotels, and cafes, sauna culture, famous visitors, and refugees, Lenin and Hitler, multicultural Helsinki, and a history of migration.

**Vestal Fire** Stephen J. Pyne, 2012-04-01. Stephen Pyne has been described as having a consciousness composed of equal parts historian, ecologist, philosopher, critic, poet, and sociologist. At this time in history, when many people are trying to understand their true relationship with the natural environment, this book offers a remarkable contribution, breathtaking in the scope of its research and exhilarating to read. Pyne takes the reader on a journey through time, exploring the terrain of Europe and the uses and abuses of its lands, as well as through migration and conquest, many parts of the rest of the world. Whether he is discussing the Mediterranean region, Russia, Scandinavia, the British Isles, central Europe, or colonized islands, whether he is considering the impact of agriculture, forestry, or Enlightenment thinking, the author brings an unmatched insight to his subject. Vestal Fire takes its title from Vesta, Roman goddess of the hearth and keeper of the sacred fire on Mount Olympus. But the book's title also suggests the strengths and limitations of Europe's peculiar conception of fire and, through fire, of its relationship to nature. Between the untamed fire of the wilderness and the tended fire of the hearth lies a never-ending dialectic in which human beings struggle to control natural forces and processes that, in fact, can sometimes be directed but never wholly dominated or contained.      **Burton Holmes Travelogues: Norway.
