The Illicit Joyce of Postmodernism Kevin J. H. Dettmar,1996 For nearly three quarters of a century the modernist way of reading has been the only way of reading James Joyce useful yes and powerful but like all frameworks limited This book takes a leap across those limits into postmodernism where the pleasures and possibilities of an unsuspected Joyce are yet to be found Kevin J H Dettmar begins by articulating a stylistics of postmodernism drawn from the key texts of Roland Barthes Mikhail Bakhtin and Jean Fran ois Lyotard Read within this framework *Dubliners* emerges from behind its modernist facade as the earliest product of Joyce s proto postmodernist sensibility Dettmar exposes these stories as tales of mystery not mastery despite the modernist earmarks of plentiful symbols allusions and epiphanies *Ulysses* too has been inadequately served by modernist critics Where they have emphasized the work s ingenious Homeric structure Dettmar focuses instead upon its seams those points at which the narrative willfully joyfully overflows its self imposed bounds Finally he reads *A Portrait of the Artist* and *Finnegans Wake* as less playful less daring texts the first constrained by the precious would be poet at its center the last marking a surprising retreat from the constantly evolving vertiginous experience of *Ulysses* In short *The Illicit Joyce of Postmodernism* explores what happens when the extra literary pronouncements of Eliot Pound and Joyce as well as Joyce s early critics are set aside and a new unauthorized Joyce is allowed to appear This postmodern Joyce more willful and less easily compartmentalized stands as a counterpoint to the modernist Joyce who has perhaps become too familiar

newly commissioned essays by some of the top scholars in the field Explores Joyce's distinctive cultural place in Irish British and European modernism and the growing impact of his work elsewhere in the world A comprehensive and timely Companion to current debates and possible areas of future development in Joyce studies Offers new critical readings of several of Joyce's works including *Dubliners* *A Portrait of the Artist as a Young Man* and *Ulysses* **Joyce's Messianism** Gian Balsamo, 2004 In his study of negative existence and how it affects James Joyce's principal characters Gian Balsamo joins the ongoing debate about the Irish writer's relationship to Dante and considers the centrality of messianism to that relationship Finding in Dante a negative poetics that becomes a model for Joyce Balsamo suggests that the inception and cessation of life two occurrences that conventionally are deemed impossible to experience personally and directly typically frame the existential experiences of Joyce's main characters Balsamo perceives Stephen Leopold and Shem as messianic figures because they rebel against this convention clustering their lives around the very events of inception and burial Balsamo traces the engagement of each of the three characters in a negative existence immune from the rules and limitations of ordinary experience Each struggles to express rather than exorcise the fecundity of his own mortality each reinvents his biography as involving the pivotal transaction of one death be it a mother's a son's or even that of his own body in return for catharsis Drawing on the writings of Giambattista Vico Saint Augustine Emile Durkheim and Noam Chomsky Balsamo challenges the current debate by identifying the messianic thread that ties together the biographies of Joyce's three characters Faced with the fissure between history and poetic vocation Stephen embraces the sacrificial poetry of silence Faced with the domestic squalor provoked by the loss of his son Leopold renews at every meal the cathartic exchange of food and semen Faced with a destiny of death and decomposition Shem reenacts the tradition of the medieval cycle drama stretching his own body like a parchment on a cross and then rubricating it like a sacred manuscript **Fionn mac Cumhail** James MacKillop, 1985-12-01 The Gaelic hero Fionn mac Cumhaill often known in English as Finn MacCool has had a long life First cited in Old Irish chronicles from the early Christian era he became the central hero of the Fenian Cycle which flourished in the high Middle Ages Stories about Fionn and his warriors continue to be told by storytellers in Ireland and in Gaelic Scotland to this day This book traces the development of Fionn's persona in Irish and Scottish texts and constructs a heroic biography of him As aspects of the hero are borrowed into English and later world literature his personality undergoes several changes Seen as less than admirable he may become either a buffoon or a blackguard Somehow these contradictions exist side by side Among the writers in English most interested in Fionn are James Macpherson the translator of *The Poems of Ossian* 1760-1 William Carleton the first great fiction writer of nineteenth century Ireland and Fiann O'Brien the multifaceted author of *At Swim Two Birds* Aspects of Fiann appear as far apart as Mendelssohn's *Hebrides* or Fingal's *Cave Overture* and a contemporary rock opera But the most complex use of Fionn's story in modern literature is James Joyce's *Finnegans Wake* **Genèse et métamorphoses du texte joycien** Claude

Jacquet,1985 **Charting space** Elize Mazadiego,2023-10-10 By the late 1960s cartographic formats and spatial information had become a regular feature in many conceptual artworks This volume offers a rich study of conceptualisms mapping practices that includes more expanded forms of spatial representation The book presents twelve in depth case studies that address artists engagement with matters of space at a time when space was garnering new significance in art theory and culture The chapters shed fresh light on an evident spatial turn that took place from the postwar to the contemporary period revealing how it was influenced by larger historical social and cultural contexts In addition to raising questions about conceptualism s relationship to the world the contributors illustrate how artists cartographies served as critical sites for formulating their politics upsetting prevailing systems and graphing new heterogenous spaces
