Fire Movement Bargain Basement Warfare:

Fire and Movement: Bargain-basement Warfare in the Far East Jac Weller, 1967 **The Small Wars of the United States, 1899-2009** Benjamin R. Beede, 2012-08-06 The Small Wars of the United States 1899 2009 is the complete bibliography of works on US military intervention and irregular warfare around the world as well as efforts to quell insurgencies on behalf of American allies The text covers conflicts from 1898 to present with detailed annotations of selected sources In this second edition Benjamin R Beede revises his seminal work bringing it completely up to date including entries on the current conflicts in Iraq and Afghanistan An invaluable research tool The Small Wars of the United States 1899 2009 is a critical resource for students and scholars studying US military history **Empire's Violent End** Thijs Brocades Zaalberg, Bart Luttikhuis, 2022-07-15 In Empire s Violent End Thijs Brocades Zaalberg and Bart Luttikhuis along with expert contributors present comparative research focused specifically on excessive violence in Indonesia Algeria Vietnam Malaysia Kenya and other areas during the wars of decolonization In the last two decades there have been heated public and scholarly debates in France the United Kingdom and the Netherlands on the violent end of empire Nevertheless the broader comparative investigations into colonial counterinsurgency tend to leave atrocities such as torture execution and rape in the margins The editors describe how such comparisons mostly focus on the differences by engaging in guilt ranking Moreover the dramas that have unfolded in Algeria and Kenya tend to overshadow similar violent events in Indonesia the very first nation to declare independence directly after World War II Empire s Violent End is the first book to place the Dutch Indonesian case at the heart of a comparison with focused thematic analysis on a diverse range of topics to demonstrate that despite variation in scale combat intensity and international dynamics there were more similarities than differences in the ways colonial powers used extreme forms of violence By delving into the causes and nature of the abuse Brocades Zaalberg and Luttikhuis conclude that all cases involved some form of institutionalized impunity which enabled the type of situation in which the forces in the service of the colonial rulers were able to use extreme violence **A Companion to the Vietnam War** Marilyn B. Young, Robert Buzzanco, 2008-04-15 A Companion to the Vietnam War contains twenty four definitive essays on America s longest and most divisive foreign conflict It represents the best current scholarship on this controversial and influential episode in modern American history Highlights issues of nationalism culture gender and race Covers the breadth of Vietnam War history including American war policies the Vietnamese perspective the antiwar movement and the American home front Surveys and evaluates the best scholarship on every important era and topic Includes a select bibliography to guide further research **Guerrilla Warfare** Anthony J. A Historical Perspective on Light

Infantry Scott Ray McMichael, 1987 This study seeks to clarify the nature of light infantry General characteristics of light infantry forces are identified and an analysis of how light forces operate tactically and how they are supported is presented In the process the relationship of the light infantry ethic to its organization is evaluated and the differences between light infantry and conventional infantry is illuminated For the purpose of this study the term conventional infantry refers to modern day motorized and mechanized infantry and to the large dismounted infantry forces typical of the standard infantry divisions of World War II the Korean War and the Vietnam War The study concludes that light infantry is unique and distinct A light infantry ethic exists and manifests itself in a distinctive tactical style in a special attitude toward the environment in a freedom from dependence on fixed lines of communication and in a strong propensity for self reliance The study is based on a historical analysis of 4 light infantry forces employed during and since World War II The Chindits in the 1944 Burma campaign against the Japanese The Chinese communist Forces during the Korean War British operations in Malaya and Borneo 1948 66 and the First Special Service Force in the mountains of Italy 1942 44 Page 2 of cover

Fighting

Machines Dan Saxon, 2021-12-03 Lethal autonomous weapons are weapon systems that can select and destroy targets without intervention by a human operator Fighting Machines explores the relationship between lethal autonomous weapons LAWS the concept of human dignity and international law Much of this analysis speaks to three fundamental and related problems When a LAWS takes a human life is that killing a violation of human dignity Can states and non state actors use LAWS in accordance with international law And are there certain responsibilities of human decision making during wartime that we should not delegate to machines In the book Dan Saxon argues that the use of LAWS to take human life constitutes a violation of human dignity Rather than concentrating on the victims of the use of lethal force Saxon instead focuses on the technology and relevant legal principles and rules to advance several propositions First as LAWS operate at increasingly greater speeds their use will undermine the opportunities for and the value of human reasoning and judgment Second by transferring responsibility for reasoning and judgment about the use of lethal force to computer software the use of LAWS violates the dignity of the soldiers commanders and law enforcement officers who historically have made such decisions and therefore breaches international law Third weapon designs that facilitate teamwork between humans and autonomous systems are necessary to ensure that humans and LAWS can operate interdependently so that individuals can fulfil their

obligations under international law including the preservation of their own dignity and ensure that human reasoning and judgment are available for cognitive functions better suited to humans than machines Fighting Machines speaks to the fields of international humanitarian law human rights criminal law and legal philosophy It will also be of interest to non lawyers especially military officers government policy makers political scientists and international relations scholars as well as roboticists and ethicists

America and Guerrilla Warfare Anthony James Joes, 2021-05-11 From South Carolina to South Vietnam America's two hundred year involvement in guerrilla warfare has been extensive and varied *America and Guerrilla Warfare* analyzes conflicts in which Americans have participated in the role of on the side of or in opposition to guerrilla forces providing a broad comparative and historical perspective on these types of engagements Anthony James Joes examines nine case studies ranging from the role of Francis Marion the Swamp Fox in driving Cornwallis to Yorktown and eventual surrender to the U S support of Afghan rebels that hastened the collapse of the Soviet Empire He analyzes the origins of each conflict traces American involvement and seeks patterns and deviations Studying numerous campaigns including ones staged by Confederate units during the Civil War Joes reveals the combination of elements that can lead a nation to success in guerrilla warfare or doom it to failure In a controversial interpretation he suggests that valuable lessons were forgotten or ignored in Southeast Asia The American experience in Vietnam was a debacle but according to Joes profoundly atypical of the country's overall experience with guerrilla warfare He examines several twentieth century conflicts that should have better prepared the country for Vietnam the Philippines after 1898 Nicaragua in the 1920s Greece in the late 1940s and the Philippines again during the Huk War of 1946-1954 Later during the long Salvadoran conflict of the 1980s American leaders seemed to recall what they had learned from their experiences with this type of warfare Guerrilla insurgencies did not end with the Cold War As America faces recurring crises in the Balkans sub-Saharan Africa the Middle East and possibly Asia a comprehensive analysis of past guerrilla engagements is essential for today's policymakers

Raiders or Elite Infantry? David W. Hogan, 1992-12-10 How have the U S Army Rangers acted as special operations forces in military operations since 1942 Hogan's study examines the nature and purpose of the Rangers over the past fifty years and shows how they have served as scouts raiders assault troops and elite infantry They have spearheaded amphibious landings raided enemy prison camps patrolled behind enemy lines in Korea served alongside Green Berets in Vietnam and carried out special missions in Grenada Professional officers military historians students and general readers will find this a fascinating history This analytical account opens with a short description of the origins of the Ranger legend in America and then moves to a discussion of their use in World War II as commandos in 1942 then as spearheaders in 1943 and 1944 as line infantry in Europe and as special operations forces in the Pacific This provocative assessment also traces the development of Ranger raider units in Korea the special training and use of Green Berets as Rangers in Vietnam and the shifting of Ranger roles into more complex and varied types of operations in Vietnam and Grenada and in a world of increasing terrorism and changing

combat situations Illustrations maps and a lengthy bibliography add to the usefulness of the study The British Army, the Gurkhas and Cold War Strategy in the Far East, 1947-1954 Raffi Gregorian, 2002-05-10 This book argues that postwar Britain's imperial over extension has been exaggerated Britain developed and adjusted its defence strategy based upon the perceived Communist threat and available resources It was especially successful at adapting to meet the strategic and resource challenges from the Far East from 1947-54 There British and Gurkha forces were deployed only in contingencies that threatened vital British interests while the U S and Commonwealth allies were persuaded to accept key wartime missions thus preserving Britain's ability to fight in Western Europe *The Lost Mandate of Heaven* Geoffrey D. T. Shaw, 2015-10-19 Ngo Dinh Diem the first president of the Republic of Vietnam possessed the Confucian Mandate of Heaven a moral and political authority that was widely recognized by all Vietnamese This devout Roman Catholic leader never lost this mandate in the eyes of his people rather he was taken down by a military coup sponsored by the U S government which resulted in his brutal murder The commonly held view runs contrary to the above assertion by military historian Geoffrey Shaw According to many American historians President Diem was a corrupt leader whose tyrannical actions lost him the loyalty of his people and the possibility of a military victory over the North Vietnamese The Kennedy Administration they argue had to withdraw its support of Diem Based on his research of original sources including declassified documents of the U S government Shaw chronicles the Kennedy administration's betrayal of this ally which proved to be not only a moral failure but also a political disaster that led America into a protracted and costly war Along the way Shaw reveals a President Diem very different from the despot portrayed by the press during its coverage of Vietnam From eyewitness accounts of military intelligence and diplomatic sources Shaw draws the portrait of a man with rare integrity a patriot who strove to free his country from Western colonialism while protecting it from Communism A candid account of the killing of Ngo Dinh Diem the reasons for it who was responsible why it happened and the disastrous results Particularly agonizing for Americans who read this clearly stated and tightly argued book is the fact that the final Vietnam defeat was not really on battle grounds but on political and moral grounds The Vietnam War need not have been lost Overwhelming evidence supports it From the Foreword by James V Schall S J Professor Emeritus Georgetown University Did I find a veritable Conradian Heart of Darkness Yes I did but it was not in the quarter to which all popular American sources were pointing their accusatory fingers in other words not in Saigon but paradoxically within the Department of State back in Washington D C and within President Kennedy's closest White House advisory circle The actions of these men led to Diem's murder And with his death nine and a half years of careful work and partnership between the United States and South Vietnam was undone Geoffrey Shaw from the Preface **Special Bibliography No. 26 on United States Army Special Operations and Low-intensity Conflict, 1940-1986** Claude C.
