Views from the Streets Roberto Aspholm,2020-02-04 Chicago has long served as a symbol of urban pathology in the public imagination The city s staggering levels of violence and entrenched gang culture occupy a central place in the national discourse yet remain poorly understood and are often stereotyped Views from the Streets explains the dramatic transformation of black street gangs on Chicago s South Side during the early twenty first century shedding new light on why gang violence persists and what might be done to address it Drawing on years of community work and in depth interviews with gang members Roberto R Aspholm describes in vivid detail the internal rebellions that shattered the city s infamous corporate style African American street gangs He explores how in the wake of these uprisings young gang members have radically refashioned gang culture and organization on Chicago s South Side rejecting traditional hierarchies and ideologies and instead embracing a fierce ethos of personal autonomy that has made contemporary gang violence increasingly spontaneous and unregulated In calling attention to the historical context of these issues and to the elements of resistance embedded in Chicago s contemporary gang culture Aspholm challenges conventional views of gang members as inherently pathological He critically analyzes highly touted universal violence prevention strategies depicting street level realities to illuminate why they have ultimately failed to reduce levels of bloodshed An unprecedented analysis of the nature and meaning of gang violence Views from the Streets proposes an alternative framework for addressing the seemingly intractable issues of inequality despair and violence in Chicago

Cayton,2015-11-10 Ground breaking when first published in 1945 Black Metropolis remains a landmark study of race and urban life Few studies since have been able to match its scope and magnitude offering one of the most comprehensive looks at black life in America Based on research conducted by Works Progress Administration field workers it is a sweeping historical and sociological account of the people of Chicago s South Side from the 1840s through the 1930s Its findings offer a comprehensive analysis of black migration settlement community structure and black white race relations in the first half of the twentieth century It offers a dizzying and dynamic world filled with captivating people and startling revelations A new foreword from sociologist Mary Pattillo places the study in modern context updating the story with the current state of black communities in Chicago and the larger United States and exploring what this means for the future As the country continues to struggle with race and our treatment of black lives Black Metropolis continues to be a powerful contribution to the conversation **Changing White Attitudes toward Black Political Leadership** Zoltan L. Hajnal,2006-12-25 Despite the hopes of the civil rights movement researchers have found that the election of African Americans to office has not greatly improved the well being of the black community By shifting the focus to the white community this book shows that black representation can have a profound impact Utilizing national public opinion surveys data on voting patterns in large American cities and in depth studies of Los Angeles and Chicago Zoltan Hajnal demonstrates that under most black mayors there is real positive change in the white vote and in the racial attitudes of white residents This change occurs because black incumbency provides concrete information that disproves the fears and expectations of many white residents These findings not only highlight the importance of black representation they also demonstrate the critical role that information can play in racial politics to the point where black representation can profoundly alter white views and white votes From Edward Brooke to Barack Obama Dennis S.

Nordin,2012-06-25 In 2008 American history was forever changed with the election of Barack Obama the United States first African American president However Obama was far from the first African American to run for a public office or to face the complexities of race in a political campaign For over a century offices ranging from city mayor to state senator have been filled by African Americans making race a factor in many elections In From Edward Brooke to Barack Obama Dennis S Nordin navigates the history of biracial elections by examining the experiences of a variety of African American politicians from across the country revealing how voters both black and white respond to the issue of race in an election The idea to compare the African American political experience across several levels of office first occurred to Nordin as he was researching Arthur W Mitchell s 1934 congressional campaign The question of white voter support was of particular significance as was whether the continuation of that support depended upon his avoiding minority issues in office To begin answering these questions and others Nordin compares the experiences of eleven African American politicians Taken from across the country to ensure a wide sample and accurate depiction of the subject the case studies examined include Tom Bradley mayor of Los Angeles David Dinkins mayor of New York Freeman Bosley Jr mayor of St Louis Senator Edward Brooke of Massachusetts Senator Carol Moseley Braun of Illinois Governor L Douglas Wilder of Virginia and Representative J C Watts Jr of Oklahoma among others As Nordin analyzes these individuals and their contribution to the whole he concludes that biracial elections in the United States have yet to progress beyond race From Edward Brooke to Barack Obama investigates the implications of race in politics a highly relevant topic in today s American society It offers readers a chronological overview of the progress made over the last several decades as well as shows where there is room for growth in the political arena By taking a pertinent topic for the era and placing it in the context of history Nordin successfully chronicles the roles of race and race relations in American politics
